PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to “India” are to the Republic of India and all references to the “Government” are to the Government of India.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Red Herring Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “**Financial Statements as Restated**” beginning on page 259 this Red Herring Prospectus. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12-month period ending March 31st of that year. In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company’s financial data. Accordingly, the extent to which the financial statements included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “**Risk Factors**”, “**Our Business**”, “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” and elsewhere in this Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “**Financial Statements as Restated**” beginning on page 259 of this Red Herring Prospectus.

CURRENCY OF PRESENTATION

In this Red Herring Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’/ ‘Million’/ ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn. / Billions’ means ‘one hundred crores’.

INDUSTRY AND MARKET DATA

Unless stated otherwise, industry and market data and various forecasts used throughout this Red Herring Prospectus have been obtained from publicly available information, industry sources and government publications.

Industry sources as well as government publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Red Herring Prospectus is reliable, it has not been independently verified by the Book Running Lead Managers or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled “**Risk Factors**” beginning on page 34 of this Red Herring Prospectus. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENT

This Red Herring Prospectus contains certain “forward looking statements”. These forward-looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward-looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following: -

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors / areas in which we operate;
- Increased competition in the industry which we operate;
- Factors affecting the industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “**Risk Factors**” and chapter titled “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” beginning on pages 34 and 346 respectively of this Red Herring Prospectus. By their nature, certain market risk disclosures are the only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Red Herring Prospectus. Neither we, our Directors, Book Running Lead Managers, Underwriters nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the BRLM’s and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION III – RISK FACTORS

*An investment in Equity Shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Red Herring Prospectus, particularly the “**Our Business**”, “**Financial Statements as Restated**” and related notes, and “**Management’s Discussion and Analysis of Financial Condition and Results of Operation**” on page 160, 259 and 346 respectively of this Red Herring Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.*

Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Red Herring Prospectus.

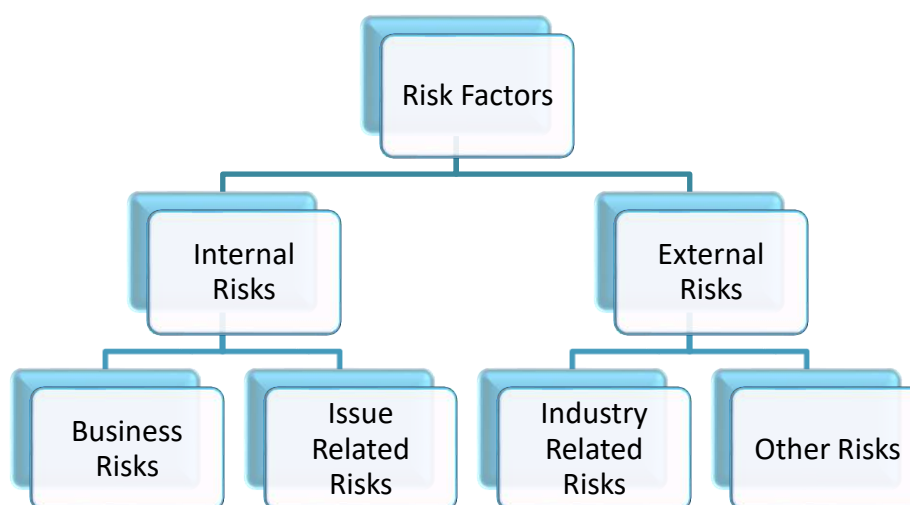

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the issue, including the merits and the risks involved. You should not invest in this issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Unless otherwise stated, the financial information of our Company used in this section is derived from our audited financial statements under Indian GAAP, as restated.

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively.*
- *Some events may have material impact qualitatively instead of quantitatively.*
- *Some events may not be material at present but may be having material impact in future.*

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISK FACTORS

Business Specific/ Company specific Risk

1. ***There are outstanding litigations involving our company, the directors, which, if determined, may affect the business, operations and our reputation.***

Our Company, directors other than promoters involved in certain legal proceedings at different levels of adjudication before various courts, tribunals and appellate authorities. In the event of adverse rulings in these proceedings or consequent levy of penalties by other statutory authorities, our Company or Directors may need to make payments or make provisions for future payments, which may increase expenses and current or contingent liabilities and also adversely affect our reputation.

In the ordinary course of business, our Company and our directors are involved in certain legal proceedings, which are pending at varying levels of adjudication at different forums. The summary of outstanding matters set out below includes details of civil proceedings, criminal proceedings, tax proceedings, statutory and regulatory actions and other material pending litigation involving our company, directors, promoters and our Group company.

According to the materiality policy, any outstanding litigation, other than criminal proceedings, statutory or regulatory actions and taxation matters, is considered material if the monetary amount of claim by or against the entity or person in any such pending matter is in excess of Rs. 1,00,000 or if an adverse outcome of any such litigation could materially and adversely affect our business, prospects, operations, financial position or reputation.

We cannot assure you that any of the legal proceedings described below will be decided in favour of the company and or directors respectively. Further the amounts claimed in these proceedings have been disclosed to the extent ascertainable, excluding contingent liabilities and include amounts claimed jointly and severally. Should any new developments arise, such as change in Indian law or rulings by appellate courts or tribunals, additional provisions may need to be made by us, the promoters, directors and Group company in our respective financial statements, which may adversely affect our business, financial condition and reputation. We may incur significant expenses and management time in such legal proceedings. Decision in any such proceedings

adverse to our interests may have adverse effect on our business, future financial performance and results of operations.

Decision of such proceedings which are against the interests may affect our reputation and may have material and adverse effect on our business, results of operations and financial condition. For further details, please refer to section titled “***Outstanding Litigation and Material Developments***” beginning on page 376 of this Red Herring Prospectus.

2. Termination, Non-Execution or Non-renewal of material agreements with Banks for technology Service Providers or any material modification to the existing terms under such agreements, adverse to our interest, will materially and adversely affect our ability to continue our business and operations and affect our future financial performance.

Our Company is engaged in the business providing software and mobility solutions to banking and finance sector primarily focusing on mobile applications, digital transaction solutions such as IMPS, UPI, digital wallet, etc. and smart transaction solutions. We are standalone technology service provider vendor to various banks for mobile banking and digital payments. Any change in the vendor by banks will adversely affect our ability to continue our business and operations and also affect our future financial performance. Further, any change in technology for digital payments by regulatory authority for digital payments i.e., National Payment Corporation of India (“NPCI”) will also materially and adversely affect our ability to continue our business.

Although in the past, our company has effectively made appropriate changes in technology service module for the changes brought by the regulatory bodies but we may not be able to guarantee that in future we may continue to do so. For more information, please refer to chapter titled “**Our Business**” beginning on page 160 of the Red Herring Prospectus.

3. Termination, Non-Execution or Non-renewal of material agreement with Cosmos Co-Operative Bank or National Payment Corporation of India (NPCI) for company’s Digital Payment Platform, TimePay, or any material modification to the existing terms under such agreements, adverse to our interest, will materially and adversely affect our ability to continue our business and operations and affect our future financial performance.

Our Company is authorized Third Party Application Provider (“TPAP”) by NPCI and sponsored by Cosmos Cooperative Bank, Payment Service Provider (“PSP”) in UPI framework under a Tripartite Agreement executed in February 2020. Our Company along with the PSP assumes entire responsibility for obtaining all necessary approvals and licenses as mandated under the agreement and UPI procedural guidelines. Our Company shall also bear the charges for upgrading the digital application based on the regulatory requirements and ensure that there is no compromise with the NPCI’s network infrastructure. Besides, our Company shall also be responsible for putting in place a customer grievance redressal mechanism for UPI customers and the resolution system thereon. Any failure in carrying out any of the above responsibilities may attract financial liability or even termination of the contract by NPCI.

Apart from the above, NPCI has the right to conduct or get conducted, audit of the systems and underlying infrastructure related to UPI framework used by our Company including system and governance audits as well as assessment of compliance of provisions of various laws, rules, regulations and any other instructions issued by NPCI, RBI or any other regulator at least on annual basis. PSP, on the other hand, also has the right to conduct requisite audit of our Company’s underlying technical infrastructure related to UPI including Information Security System Audit, defined under circulars issued by NPCI at regular intervals through an independent Cert-in empaneled auditor and present such report to NPCI. In addition to the above, our Company shall also, at regular intervals, through an independent Cert-in empaneled auditor get its systems and networks audited and submit such report to NPCI.

Our Company, together with the PSP shall be held exclusively liable for non-compliance of any requisite statutory guidelines / terms and conditions of the agreement / applicable laws, unauthorized transactions taking place through UPI platform, gross negligence or wilful misconduct or fraud, unauthorized disclosure of confidential information including personal

information and sensitive personal data and shall indemnify NPCI against any loss or damages of any kind.

Non-conformity of any of the abovementioned requirements may attract financial liability in addition to termination of the contract. Furthermore, as a consequence of termination our Company shall not be relieved of the liability arising out of past fraudulent or disputed transactions and / or issue necessary communication to its customers on a timely manner on the discontinuation of the UPI payment service and impact thereon. This may adversely affect our ability to continue our business and results of operations and also affect our future financial performance.

Although in the past, our company has effectively made appropriate changes in technology service module for the changes brought by the regulatory bodies but we may not be able to guarantee that in future we may continue to do so. For more information, please refer to chapter titled "**Our Business**" beginning on page 160 of the Red Herring Prospectus.

4. *Our success depends substantially on the continuing services of our promoters, senior executives and other key highly skilled IT personnel.*

Our future success heavily depends upon the continued services of our promoters, senior IT executives and other key employees. Our ability to meet continued success and future business challenges depends on our ability to attract, recruit, train and retain experienced, talented and skilled professionals. A significant increase in the attrition rate among skilled IT professionals with specialized skills could decrease our operating efficiency and productivity and could lead to a decline in demand for our services. If one or more of our senior IT executives or key employees are unable or unwilling to continue in their present positions, it could disrupt our business operations which could materially adversely affect our business, financial condition and results of operations, and we may not be able to replace them easily or at all. If any of our senior IT executives or key personnel joins a competitor or forms a competing company, we may lose customers, suppliers, know-how and key IT professionals and staff members to them which may materially and adversely affect our business, financial condition and results of operations. Also, if any of our business development managers, who generally keep a close relationship with our customers, joins a competitor or forms a competing company, we may lose customers, and our revenues may be affected. Additionally, there could be unauthorized disclosure or use of our technical knowledge, practices or procedures by such personnel. If any dispute arises with our senior IT executives or key personnel, any non-competition, non-solicitation and non-disclosure provisions in our employment agreements we have with our senior IT executives or key personnel might not provide effective protection to us. If we cannot attract and retain qualified personnel or effectively implement appropriate succession plans it may affect our business, financial condition and results of operations. Furthermore, the competition for highly-skilled IT professionals may require us to increase salaries, and we may be unable to pass on these increased costs to our customers. This would increase our operational costs which may adversely affect our business, results of operations and financial condition.

In addition, our ability to maintain and renew existing engagements and obtain new business will depend, in large part, on our ability to attract, train and retain these professionals, including experienced management IT professionals, which enables us to keep pace with growing demands for outsourcing, evolving industry standards and changing customer preferences. If we are unable to attract and retain the professionals we need, we may have to forgo projects for lack of resources and innovation or be unable to staff projects optimally. Moreover, we may not be able

to manage knowledge that is developed internally, which may get lost in the event of our inability to retain employees.

Our business is people-driven and there is significant competition for IT professionals in India and that such competition is likely to continue for the foreseeable future. Increased hiring by technology companies and increasing worldwide competition for skilled IT professionals may lead to a shortage in the availability of suitable personnel in the locations where we operate. Failure to hire, train and retain IT professionals in sufficient numbers could have a material adverse effect on our business, results of operations and financial condition.

5. *We require a number of approvals, licenses, registrations and permits in the ordinary course of our business. Some of the approvals are required to be updated consequent to the change in the name of the company.*

We require a number of approvals, licenses, registrations and permits in ordinary course of our business. Additionally, we need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. Also, on conversion of our company to Public Limited Company, the name has been changed to Network People Services Technologies Limited from erstwhile name Network People Services Technologies Private Limited vide special resolution passed by our shareholders at Extraordinary General Meeting held on August 29, 2020. Consequent to this change, we have updated the same in various approvals, license and registrations taken by our company in the ordinary course of our business except in the Employee Provident Fund department, ESIC department and Professional Tax department. In case we fail to transfer/renew/obtain the same in name of the company, same may adversely affect in processing the fund withdrawal application initiated by the employees.

6. *Significant disruptions in our information technology systems or breaches of data security could adversely affect our business and reputation.*

We provide technology-driven software and mobility solutions to banking & finance sector and therefore, majority of our servers are located at client's premises. Our business is dependent upon increasingly complex and interdependent IT system. The size, complexity and external location of our computer systems and servers make them potentially vulnerable to breakdowns. Many of our services are provided through the internet, which increases our exposure to potential cyber-security attacks including viruses, ransom ware and spam attacks. Our insurance coverage may not be adequate to cover all the costs related to cyber-security attacks or disruptions resulting from such events. Further, our financial, accounting, or other data processing systems may fail to operate adequately, or at all, because of events that are beyond our control, including a disruption of electrical or communications services in the markets in which we operate. Our ability to operate and remain competitive will depend in part on our ability to maintain and upgrade our information technology systems on a timely and cost-effective basis.

We are also engaged in creating a large network of technology enabled merchants and users through our TimePay platform. All of our in-house data pertaining to TimePay is backed up at cloud platforms which is highly vulnerable and prone to cyber threats such as (i) phishing and trojans –targeting our customers, where in fraudsters send unsolicited mails to our customers seeking account sensitive information or to infect customer machines to search and attempt ex-filtration of account sensitive information; (ii) hacking –wherein attackers seek to hack into our website with the primary intention of causing reputational damage to us by disrupting services; (iii) data theft –wherein cyber criminals may attempt to intrude into our network with the intention of stealing our data or information; and (iv) advanced persistent threat –a network

attack in which an unauthorized person gains access to our network and remains undetected for a long period of time with an intention to steal our data or information rather than to cause damage to our network or organization.

Our systems are potentially vulnerable to data security breaches, whether by our employees, our clients, our service providers or others that may expose sensitive data to unauthorized persons. We process and transfer data, including personal information, financial information and other confidential data provided to us by our clients. Although we maintain systems and procedures to prevent unauthorized access and other security breaches, it is possible that unauthorized individuals could improperly access our systems, or improperly obtain or disclose sensitive data that we process or handle. Data security breaches could lead to the loss of intellectual property or could lead to the public exposure of personal information (including sensitive financial and personal information) of our clients' investors or our employees. Any such security breaches or compromises of technology systems could result in institution of legal proceedings against us and potential imposition of penalties, which may have an adverse effect on our business and reputation.

7. *We might not be able to obtain, renew or maintain our statutory and regulatory empanelment, registrations and approvals which are required to operate our business.*

We require certain statutory and regulatory empanelment, registrations and approvals to operate our business, some of which are granted for a fixed period of time and need to be renewed at regular intervals. Further, we might require obtaining new licenses, registrations or approvals for a proposed operation including expansion of existing operations. There is no assurance that the relevant authorities will renew or grant such licenses, registrations and approvals in a timely manner or renew or grant at all. Further, these licenses, registrations and approvals are subject to several conditions, and if we are not able to continuously meet such conditions or compliant with such conditions to statutory authorities, it may lead to cancellation, revocation or suspension of relevant licenses, approvals and registrations. If we are unable to renew, maintain or obtain the required registrations or approvals, it may result in the interruption of our operations and may have material and adverse effect on our revenues and operations. For further details on the licenses obtained by us and licenses for which renewal applications or application for change of names have been made, please see section titled "**Government and Statutory Approvals**" on page 383 of this Red Herring Prospectus.

8. *Certain discrepancies/errors were noticed in corporate records related to filling with the Registrar of companies and other provisions of Companies Act, 2013.*

Our company has not complied with certain statutory provisions in the past including but not limited to the details mentioned in this Red Herring Prospectus. For instance, our company filed DIR-12 of appointment of our Directors/ Promoters i.e., Ashish Aggarwal and Deepak Chand Thakur as a non-Executive Director. During the course of such appointment our Directors/ Promoters were received remuneration for the services rendered to the company, which is a non-compliance as per Companies Act.

Further any penalty or action taken by any regulatory bodies authorized in future, for non-compliance with provisions of corporate and other laws could impact the Financial Position of the company.

9. Excessive dependence on Key managerial personnel for the project for which the issue is being made.

The development and marketing of our mobile application, TimePay is highly dependent on the skills and continuous services of Mr. Deepak Chand Thakur, Chairman and Managing Director and Mr. Rajiv Beri, Chief Technology Officer. If these key managerial persons are unable or unwilling to continue in their present positions or join a competitor or form a competing company, we may lose customers, suppliers, know-how technology and key IT professionals and staff members to them, thereby, disrupting our business operations which could materially adversely affect our business, financial condition and results of operations, and we may not be able to replace them easily.

10. Uncertainty in relation to continuing effect of the COVID-19 pandemic on our business and operation.

In late calendar 2019, COVID-19, commonly known as “novel coronavirus” was first reported in Wuhan, China. Since then, the virus has progressively spread globally to many countries. The World Health Organization declared the COVID-19 outbreak as a health emergency of international concern on January 30, 2020 and thereafter categorized the outbreak as a pandemic on March 11, 2020. In order to contain the spread of COVID-19 virus, the Government of India initially announced a 21 days lockdown on March 24, 2020, which, after being subject to successive extensions, is being relaxed currently. During the duration of the lockdown, there were several restrictions in place including travel restrictions and directive to all citizens to not move out of their respective houses unless essential. Whilst the lockdown required private, commercial and industrial establishments to remain closed, manufacturing units of essential commodities were permitted to be functional. Our Company operates in service industry and has been successful in implementing work from home which has reduced the impact of pandemic on our operations. However, our business growth is dependent on sales and marketing and we are facing limited availability of human resource.

Our Company operates in the software business. Due to COVID-19 lockdown, all the clients / banks were working remotely and there were no change requests which were hamper our business. Moreover, the design and development team of our company needs a huge amount of coordination for development of software / products and due to distant working, there was a large delay not only in development but also the delivery was impacted. The onsite resources were also working from home which disturbed the business operations of the company. Thereafter, the offices resumed in August / September with a massive backlog which greatly impacted the quality of services rendered due to fastened delivery. There was a lot of hindrance from the banking customers as well.

The merchant PSP business was also hampered. The pilot model was initially planned to be launched in April 2020 which was deferred and launched in July 2020. This further postponed the date on which TimePay was proposed to go live. Also, TimePay was proposed to be launched in and around the city of Mumbai so that there was ample availability of technical staff for providing the necessary services. Due to increased number of COVID-19 cases and extended lockdown in the state of Maharashtra, the same was shifted to Ranchi. This process not only led to increase in the cost of the company by moving the human resources back and forth and others.

Furthermore, the tripartite agreement between our Company, NPCI and Cosmos Cooperative bank was processed on February 2020 which got delayed and was eventually signed on February 2021. This highly impacted the business solutions provided by our Company. The entire budgeted

timelines of our company with respect to the payment services and other software services got interrupted and contributed to the increased cost of our company along with decrease in the revenue earned which eventually impacted the business operations.

Even today, the cases of COVID-19 virus are increasing across the country and there is no certainty if additional restrictions will be put back in place. We cannot assure you that we may not face any difficulty in our operations due to such restrictions and such prolonged instances of lockdown may adversely affect our business, financial condition and results of operations. Further, our ability to ensure the safety of our workforce and continuity of operations while conforming with measures implemented by the central and state government in relation to the health and safety of our employees may result in increased costs. In the event a member or members of our senior management team tested positive for COVID-19, it may potentially affect our operations. Further, in the event any of our employees tested positive for COVID-19, we may be required to quarantine our employees and shut down a part of or the entire our offices, as necessary. Risks arising on account of COVID-19 can also threaten the safe operation of our facility, offices, loss of life, injuries and impact the well-being of our employees.

The ultimate impact will depend on a number of factors, many of which are outside our control. These factors include the duration, severity and scope of the pandemic, the impact of the pandemic on economic activity in India and globally, the eventual level of infections in India or in the regions in which we operate, and the impact of any actions taken by governmental bodies or health organizations (whether mandatory or advisory) to combat the spread of the virus. These risks could have an adverse effect on our business, results of operations, cash flows and financial condition. As on the date of this Red Herring Prospectus, while we have started our operations post lockdown, there is significant uncertainty on the impact of COVID-19 on global and Indian economy and we may not be able to accurately predict its near term or long-term impact on our business.

11. Our international sales and operations are subject to many uncertainties and we are exposed to foreign currency exchange rate fluctuations.

We may be subject to risks inherently associated with international operations, including risks associated with foreign currency exchange rate fluctuations, which may cause volatility in our reported income, and risks associated with the application and imposition of protective legislation and regulations relating to import or export or otherwise resulting from foreign policy or the variability of foreign economic conditions.

12. We operate in a rapidly evolving industry, which makes it difficult to evaluate our future prospects and may increase the risk that we will not continue to be successful.

The technology services industry is competitive and continuously evolving, subject to rapidly changing demands and constant technological developments. As a result, success and performance metrics are difficult to predict and measure in our industry. Because services and technologies are rapidly evolving and each company within the industry can vary greatly in terms of the services it provides, its business model, and its results of operations, it can be difficult to predict how any company's services, including ours, will be received in the market. While businesses have been incurring significant expenditure in the past to adopt emerging technologies and related technological trends, there can be no assurance that they will continue to do so in the future. Our revenues, operating results and profitability have varied in the past and are likely to vary in the future.

Our future profits may vary substantially from those of other companies and those we have achieved in the past. One or any combination of the above factors may cause our customers' demand for our services to decline as a result of which our business may suffer and our results of operations and financial condition may be adversely affected.

13. We may not be able to recognize revenues in the period in which our services are performed, which may cause our margins to fluctuate.

Our services are performed under both time and material and fixed-price contract arrangements, or a combination of both. Revenue is recognized upon transfer of control of products or services to customers to the extent of an amount that reflects the consideration that we expect to receive in exchange for these products or services. In instances where final acceptance of the system or solution is specified by the customer, revenues are deferred until all acceptance criteria have been met. Our failure to meet all the acceptance criteria, or otherwise meet a customer's expectations, may result in our having to record the cost related to the performance of services in the period that services were rendered, but delay the timing of revenue recognition to a future period in which all acceptance criteria have been met.

14. We rely on a limited number of suppliers for support services.

Our company's top 10 and top 5 service providers contributed 91.48% and 76.87% of our support service procurement for the year ended March 31, 2021 respectively. The loss of a significant service provider would have a material impact on our financial results. We cannot assure that we can maintain the historical levels of business from these entities or that we will be able to replace them in case we lose any of them.

Given our reliance on limited suppliers, if they are unable to deliver the services on a timely manner, or at all, or meet our design or quality specifications, we may be unable to meet our product and service delivery timelines. There can be no assurance that we will be able to maintain strategic relationships with our suppliers or diversify our supplier base. Further, our suppliers may enter into exclusive arrangements with our competitors and we may be unable to obtain alternate sources for our components at commercially reasonable prices, or at all or enter into alternative arrangements with our suppliers. We will have to incur additional payment delay costs as a result and consequently, our reputation, business, results of operations and financial condition may be materially and adversely affected.

15. Our profitability will suffer if we are not able to maintain our resource utilization levels and productivity levels.

Our profitability is significantly impacted by our utilization levels of fixed-cost resources, including human resources as well as other resources such as computers and office space, and our ability to increase our productivity levels.

Some of our IT professionals are specially trained to work for specific customers or on specific projects. Our ability to manage our utilization levels depends significantly on our ability to hire and train high-performing IT professionals and to staff projects appropriately and on the general economy and its effect on our customers and their business decisions regarding the use of our services. If we experience a slowdown or stoppage of work for any customer or on any project for which we have dedicated IT professionals or facilities, we may not be able to efficiently reallocate these IT professionals and facilities to other customers and projects to keep their utilization and productivity levels high. If we are not able to maintain high resource utilization levels without

corresponding cost reductions or price increases, our profitability will suffer. In the event of a slowdown due to external factors, or if the number of our customers reduce, we may be over-staffed and required to carry excess employee-related expenses which could affect our financial condition.

Our profitability and the cost of providing our services are affected by the utilization rates of our employees in our delivery locations. If we are not able to maintain appropriate utilization rates for our employees involved in delivery of our services, our profit margin and our profitability may suffer.

Further, shortage of employees could prevent us from completing our contractual commitments in a timely manner, taking up new contracts and cause us to lose contracts or customers. To the extent that we lack sufficient employees with lower levels of seniority and daily or hourly rates, we may be required to deploy more senior employees with higher rates on projects without the ability to pass such higher rates to our customers, which could adversely affect our profit margin and profitability.

16. We may not be successful in implementing our business and advertisement strategies.

The success of our business depends substantially on our ability to implement our business and advertisement strategies effectively. Even though we have successfully executed above strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business and advertisement strategies would have a material adverse effect on our business and results of operations.

17. We could be harmed by employee misconduct or errors that are difficult to detect.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

18. Within the parameters as mentioned in the chapter titled 'Objects of the Issue' beginning on page 107 of this Red Herring Prospectus, our Company's management will have flexibility in applying the proceeds of this Issue.

We intend to use the entire issue proceeds towards development and creation of TimePay application, purchase of IT equipment and security devices, marketing, branding & customer acquisition of TimePay and general corporate purposes.

We intend to deploy the net issue proceeds in FY 2020–21 and FY 2021–22 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the fresh Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the issue proceeds, please refer chapter titled "*Objects of the Issue*" beginning on page 107 of this Red Herring Prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company's Board of Directors. The fund requirement and deployment are based on internal management estimates and have not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled '**Objects of the Issue**' beginning on page 107 of this Red Herring Prospectus, the management will have significant flexibility in applying the proceeds received by our Company from the issue. However, the Company shall comply with Section 27 of the Companies Act, 2013 before varying the '**Object of the issue**'. Our Board of Directors will monitor the utilization of the proceeds of this issue.

19. Substantial portion of our revenues has been dependent upon our few clients.

Our company top 10 and top 5 customers contributed 92.61% and 75.38% of our revenues for the year ended March 31, 2021 respectively. The loss of a significant client or clientele would have a material impact on our financial results. We cannot assure that we can maintain the historical levels of business from these clients or that we will be able to replace these clients in case we lose any of them.

Furthermore, major events such as bankruptcy, change of management, mergers and acquisitions and recent outbreak of pandemic COVID-19 affecting our clients which could adversely impact our business operation and profitability. If any of the major events occur to our clients, we may lose some or all of our business from that client and our receivable from that client would increase and may have to be written off which adversely impact our income and financial condition of the company.

20. We have a limited operating history in a new market at the intersection of the rapidly evolving technology and digital payments and our historical operating & financial results may not be indicative of future performance.

We have a limited operating history, which makes it difficult to evaluate our future prospects. We have launched our TimePay app in the July 2020. TimePay is mobile application which includes various modules for management and digitization of housing societies and merchants along with providing digital payment platform to large, medium and micro setups to transact and operate seamlessly in financial value chain. Therefore, we operate at the intersection of technology and digital payments, both of which are rapidly evolving.

We cannot assure you that we can successfully implement our business model. As the market and our business develop, we may modify our platform, products and services. These changes may not achieve expected results and may have a material and adverse impact on our results of operations and financial condition. Although, due to our limited operating history, our past revenues and historical growth rate may not be indicative of our future performance. We cannot assure you that we will be able to achieve similar results or grow at the same rate as we had in the past or at all.

Rather than relying on our historical operating and financial results to evaluate us, you should consider our business prospects in light of the risks and difficulties we may encounter as an early-stage company operating in a new market, including, among other things, our ability to expand our userbase and convert non-paying users into paying users, provide high – quality products and services, enhance our technology and data capabilities, build our reputation and promote our brand, improve our operational efficiency, attract, retain and motivate talented employees, and anticipate and adapt to changing market conditions. We may not be able to successfully address

these risks and difficulties, which could significantly harm our business, results of operations and financial condition.

21. The company has not placed order for purchase of IT equipment and software in relation to the objects of the issue to the tune of Rs. 327.65 lakhs i.e., 86.41% of the total cost allocated towards IT infrastructure and equipments, as on April 30, 2021.

Our company intends to use [●] % of the net issue proceeds for purchase of servers, laptops and security devices, details of which are mentioned under chapter titled "**Objects of the Issue**" beginning on page 107 of this Red Herring Prospectus. We plan to acquire IT hardware and equipments amounting to Rs. 379.19 lakhs which is one of the objects of the issue. As on April 30, 2021, our Company has purchased equipment's and security devices worth Rs. 51.54 lakhs and we are yet to place order of IT equipments and hardware amounting to Rs. 327.65 lakhs as on the date of filing the Red Herring Prospectus. Following are the details of equipment's and security devices forming a part of the objects of the issue:

(Amount in Rs.)				
S. No	Particulars	Ordered	Yet to be ordered	Yet to be ordered (%)
1	Servers	-	17,31,390.40	100.00%
2	Security Devices	23,06,551.11	2,70,00,000.00	90.70%
3	Laptops	28,47,417.50	85,33,311.60	74.98%
	Grand Total	51,53,968.61	3,27,64,702.00	86.41%

22. One of our Promoters may not have adequate experience in the business activities undertaken by our Company.

One of our Promoters namely, Savita Vashist has several years of experience in IT/ ITES Company in the travel transportation and retail domain, however, may not have adequate experience in the business activities undertaken by our Company. For details, see "**Our Promoter and Promoter Group**" beginning on page 241 of this Red Herring Prospectus. The business of our Company is managed by our other Promoters. Our Company cannot assure you that the lack of such adequate prior experience of one of our Promoters in our business will not have any adverse impact on the management and/ or operations of the Company.

23. Failure or delays in obtaining regulatory certifications and accreditations may cause delays in our delivery schedules and disruptions in our business.

We are required to obtain several certifications/audits and accreditations from various third - party appointed by the regulators in relation to smooth functioning of our business operations. Depending on the product and mandatory requirements of certain regulatory institutions, we may need to obtain specific certifications from particular agencies which may not be forthcoming and/or provide necessary documents in time. As a result, we may experience delays and disruptions in our products and service delivery which may eventually adversely affect our business, financial condition and results of operations.

24. Our Company may face time / cost overrun issues in implementing TimePay application, which is proposed to be made operational by part financing through the IPO proceeds.

As per our Company estimates, the entire commercial operations of TimePay application were scheduled to start in FY 2021-22. The company has already launched the society module in July 2020 and has upgraded various features thereafter. The Company is proposing to launch digital

payment module in June 2021. The company further expects to launch the Merchant module in August 2021 and property module in January 2022. In case of any future event which may lead to any change in the proposed project, there may be delay in implementation of the project further leading to cost overrun issues or in case of occurrence of such events, it may affect our growth plans and financial performance.

25. In the past, we have entered into related party transactions and may continue to do so in the future.

Our Company has entered into transactions with certain related parties. While we believe that all such transactions have been conducted at arm’s length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we enter into related party transactions in the future as well. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition, results of operation and business prospects. For details on the transactions entered by us, please see section titled **“Financial Statements as Restated”** beginning on page 259 of this Red Herring Prospectus.

26. We have certain contingent liabilities and commitments, which may adversely affect our financial condition.

As on March 31, 2021 our Company has following contingent liabilities as per restated consolidated financial statements, the details for which are as under:

(Rs. in lakhs)

Particulars	Amount
Claims against the company not acknowledged as debt;	
Bank Guarantees	5.00
Other Tax other than Income Tax	24.60
Income Tax law	0.22
Total	29.82

In the event any of the contingencies mentioned above materialize or increase in the future, our financial condition could be adversely affected. For further details, see the section entitled **“Financial Statement as Restated”** on page 259 of this Red Herring Prospectus.

27. Our insurance policies do not cover all risks, specifically risks like product defect / liability risk, loss of profits and terrorism.

Our company has not obtained insurance coverage in respect of all risks. In absence of any coverage of insurance our company faces the risks of loss of profit due to product defect / liability risk, loss of profits, losses due to terrorism, etc. If we suffer a significant uninsured loss, our business, financial condition and results of operations may be materially and adversely affected. For further details on insurance policies, please refer chapter titled **“Our Business”** beginning on page 160 of the Red Herring Prospectus.

28. Our subsidiary company and our group companies are engaged in the line of business similar to our company as per their charter documents.

Our subsidiary company i.e., **SSK Citizen Services Private Limited** and group companies i.e., Mousebyte Solutions Private Limited and BNC Infotech Private Limited, are engaged in the similar line of business as our Company as per the constitutional documents of the respective companies.

Although, we have obtained affidavits confirming that they are not engaged in the similar line of business as our Company and therefore, there may not arise any conflict of interest in allocating business opportunities amongst our Company, the subsidiary company and the group companies in circumstances where the respective interests diverge. But there can be no assurance that the subsidiary company or the group companies will start a similar line of business or will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations.

29. *Properties, on which we have our registered office & corporate office, are not owned by us.*

The properties where our registered office and corporate office are situated in Thane, Maharashtra & Noida, Uttar Pradesh, are not owned by our company and the same have been taken on lease. The agreements are renewable on mutually agreed terms. In the event of the said agreements are not being renewed or in case we have to vacate the said premises then our business operations may be disturbed till the time we are able to locate to any new premises for undertaking our administrative activities.

The rent agreements have a clause for the renewal of the same for a further period as may be mutually agreed among the parties after the expiry of the current period. For details on properties taken on lease / rent by us please refer to the heading titled “**Properties**” in chapter titled “**Our Business**” beginning on page 200 of this Red Herring Prospectus.

30. *We may or may not have long-term commitments with our customers, and our customers may terminate contracts before completion or choose not to renew contracts.*

Our customers may or may not have any long-term commitments with us. However, some of our engagements with our customers are typically for projects that are singular in nature. In addition, large and complex projects may involve multiple engagements or stages, and a customer may choose not to retain us for additional stages or may cancel or delay additional planned engagements. Several factors other than our performance could cause the loss of or reduction in revenues from a customer. We generate a significant portion of our revenues from a small number of customers, and any loss or reduction of business from these customers could reduce our revenues and materially adversely affect our business, financial condition, and results of operations. Even if we successfully deliver on contracted services and maintain close relationships with our customers, a number of factors outside of our control could cause the loss of or reduction in business or revenue from our existing customers.

The loss or diminution in business from any of our major customers could have a material adverse effect on our revenue from operations and results of operations. We may not be able to renew our contracts on favorable terms, or to replace any customer that elects to terminate or not renew its contract with us, which could materially adversely affect our revenue and thus our results of operations. Further, terminations or delays in engagements may make it difficult to plan our project resource requirements.

31. *The industry segment in which we operate is fragmented and therefore, we face competition from other players, which may affect our business operations and financial conditions.*

The market for IT services specifically banking services that we operate in, is highly competitive, and we expect competition to persist and deepen. We believe that the principal competitive

factors in our markets are reputation and track record, industry expertise, breadth and depth of service offerings, quality of the services offered, language, marketing and selling skills, scalability of infrastructure, ability to address customers' timing requirements and price.

32. *If we fail to maintain an effective system of internal controls, we may not be able to successfully manage, or accurately report or successfully manage risks and avoid fraud.*

Effective internal controls are necessary for us to deliver and effectively avoid fraud. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may deteriorate overtime, due to evolving cybercrime and IT related frauds. There can be no assurance that deficiencies in our internal controls will not arise in the future, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls. Any inability on our part to adequately detect, rectify or mitigate any such deficiencies in our internal controls may adversely impact our ability to accurately report, or successfully manage risks and avoid fraud.

33. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It also is possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

34. *There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.*

As per SEBI (ICDR) Regulations, 2018 appointment of monitoring agency is required only for Issue size above Rs. 10,000 Lakhs. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the National Stock Exchange of India Limited and shall also simultaneously make the material deviations/ adverse comments of the audit committee to the public.

35. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Our Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and Key Managerial Personnel may also be interested to the extent of their shareholding and dividend entitlement in our Company. For further

information, see “*Capital Structure*” and “*Our Management*” on pages 86 and 220 respectively, of this Red Herring Prospectus.

36. *Our ability to pay dividends will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors*

The amount of our future dividend payments, if any, will depend upon various factors such as our future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors. There can be no assurance that we shall have distributable funds or that we will declare dividends in the future. Additionally, the terms of any financing which we may seek in future, may contain restrictive covenants which may also affect some of the rights of our shareholders, including the payment of the dividend.

37. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

38. *Our Promoters will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

After completion of the issue, our Promoters will collectively own [●] % of the Equity Shares. As a result, our Promoters will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

39. *Industry information included in this Red Herring Prospectus has been derived from industry reports commissioned by us for such purpose.*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Red Herring Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no

representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Red Herring Prospectus.

40. Our company has not identified the MSME creditors as on the date of this Red Herring Prospectus. Failure to identify the MSME creditors may subject the company to penal provisions of the MSMED Act, 2006.

With respect to the MSME creditors, our company has not maintained separate records for transactions with the MSME creditors as required under law and accordingly as of now no data in this regard is available with the company. Also, the same has been stated in the Peer Reviewed Auditor's Report as at March 31, 2021. As per the provisions of the Micro, Small and Medium Enterprises Development Act, 2006 in case we are unable to identify the Micro and Small Enterprises (MSME) Creditors then a fine of minimum Rs. 10,000/- shall be leviable on the company under the said Act.

41. Our promoters / directors have provided personal guarantee for cash credit facilities obtained by our Company, and any failure or default by our Company, could trigger repayment obligations on them, which may impact their ability to effectively service their obligations as our promoter / directors and thereby, impact our business and operations.

Our company promoters Deepak Chand Thakur and Ashish Aggarwal have personally guaranteed the repayment of cash credit facility availed from the ICICI bank Limited. As at March 31, 2021, outstanding amounts from credit facilities is Rs. 42.98 Lakhs. Any default or failure by us to repay this credit in a timely manner, or at all could trigger repayment obligations on the part of Deepak Chand Thakur and Ashish Aggarwal in respect of such credit facility availed, which in turn, could have an impact on their ability to effectively service their obligations as promoter / director of our Company, thereby having an effect on our business, results of operation and financial condition. Furthermore, in the event that such individual withdraws or terminate their guarantee and collateral security, our lenders for such facilities may ask for alternate guarantees and collateral security, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. For further details, please refer to chapter titled "**Financial Indebtedness**" beginning on page 374 of the Red Herring Prospectus.

42. Our lenders have charge over our movables in respect of finance availed by us.

We have secured our lenders by creating a charge over our entire consumable stores and spares and such other movables including book-debts, bills whether documentary or clean, outstanding monies, receivables, both present and future, in respect of credit facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 42.98 Lakhs as on March 31, 2021. In the event we default in repayment of the credit facilities availed by us and any interest thereof, our collateral security may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of

operations. For further information on the Financial Indebtedness please refer chapter titled ***“Financial Indebtedness”*** beginning page 374 of the Red Herring Prospectus.

43. We may become involved in claims concerning intellectual property rights, and we could suffer significant litigation or related expenses

As of the date of this Red Herring Prospectus, we have obtained twenty – two (22) trademarks registration under different class, seven (7) trademarks have been objected and two (2) trademarks have been refused in various classes. We believe that our trademarks are important assets to our business. The use of our trademarks or logos by third parties could adversely affect our reputation, which could in turn adversely affect our business and results of operations.

With respect to trademarks which are objected and / or rejected, our Company may not be in a position to initiate legal proceedings or restrict third parties for using such intellectual property rights. We may also have to take measures to protect our registered intellectual property by relying on Indian laws and initiating legal proceedings. However, such measures may not be adequate to prevent unauthorized use of our intellectual property by third parties and thus, we may not be able to prevent infringement of our intellectual property. Further, the application of laws governing intellectual property rights in India is uncertain and evolving, and could involve substantial risks to us. Notwithstanding the precautions we take to protect our intellectual property rights, it is possible that third parties may copy or otherwise infringe on our rights, which may have an adverse effect on our business, results of operations, financial condition and cash flows.

While we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights which may force us to alter our offerings. We may also be susceptible to claims from third parties asserting infringement and other related claims. If similar claims are raised in the future, these claims could result in costly litigation, divert management’s attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or to cease certain offerings. Further, necessary licenses may not be available to us on satisfactory terms, if at all. Any of the foregoing could have an adverse effect on our business, results of operations, financial condition and cash flows.

44. Usage of open-source software for most of our products can impact us with non-compliance of licensing terms

Generally, our company uses the open-source software for most of our products. The usage of open-source software can impact the company with non-compliance of various licensing terms.

45. Restrictive covenants in the Shareholders Agreement executed by our company with Rajasthan Trustee Company Private Ltd acting as trustee for RVCF India Growth Fund - RVCF Trust- III could affect the interest of Shareholders of our company

Our company has entered into Shareholders Agreement with Rajasthan Trustee Company Private Ltd acting as trustee for RVCF India Growth Fund - RVCF Trust- III (***“RVCF”***) wherein RVCF has certain rights and the company is liable to confer to those rights. RVCF shall have a right to appoint one nominee on the board of directors of the Company on a non-retiring basis as a non-executive director or an observer in the Company. Therefore, Mr. Gaurav Chowdhry has been appointed as a Nominee Director on the Board of the Company. RVCF shall also have the right to receive all the

necessary and material information relating to the Company in the time and manner stipulated in the Shareholders Agreement.

Issue Specific Risks

46. There are restrictions on daily / weekly / monthly movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Once listed, we would be subject to circuit breakers imposed by designated stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

47. The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

48. After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- Volatility in the Indian and global capital market;
- Company's results of operations and financial performance;
- Performance of Company's competitors;
- Changes in our estimates of performance or recommendations by financial analysts;
- Significant developments in India's economic and fiscal policies; and
- Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

49. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined by Book Built Method. This price is based on numerous factors (For further information, please refer chapter titled “**Basis for Issue Price**” beginning on page 125 of this Red Herring Prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

50. *The average cost of acquisition of Equity Shares by our Promoters is lower than the Issue price.*

Our Promoters average cost of acquisition of Equity Shares in our Company is lower than the Issue Price as decided by the Company in consultation with the Book Runner Lead Manager’s.

For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title “**Capital Structure**” beginning on page 86 of this Red Herring Prospectus.

51. *You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the issue until the Issue receives appropriate trading permissions.*

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor’s demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Red Herring Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

52. QIB and Non-Institutional investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any age after submitting the Bid

Pursuant to SEBI ICDR Regulations, QIBs and Non-Institutional investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any age after submitting the Bid. Retail Individual Investors can revise their Bid during the Bid Period and withdraw their Bids until Bid Closing date. While our Company is required to complete Allotment pursuant to issue within six working days from the Bid Closing date, events affecting the Bidders decision to invest in Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, result of operations or financial condition may arise between the date of submission of the Bid and allotment. Our Company may complete the allotment of Equity shares even if such events occur, and such events limit the Bidders ability to sell the Equity Shares allotted pursuant to the issue or cause the trading price of Equity Shares to decline on listing.

53. Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISKS FACTORS

Industry Related Risks

54. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

Other Risks

55. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Red Herring Prospectus.

As stated in the reports of the Auditor included in this Red Herring Prospectus under chapter **“Financial Statements as restated”** beginning on page 259, the financial statements included in this Red Herring Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Red Herring Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP

and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Red Herring Prospectus.

Accordingly, the degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

56. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.

The regulatory and policy environment in India is evolving and subject to change. Such changes in applicable law and policy in India, including the instances described below, may adversely affect our business, financial condition, results of operation, performance and prospects in India, to the extent that we are not able to suitably respond to and comply with such changes.

For instance, in November 2016, the Government of India demonetized certain – high value denominations of currency. Trading and retail businesses in India were impacted for a limited period of time on account of such demonetization. Such businesses have subsequently needed to introduce additional point of sale instruments to improve their collection process.

The Government of India implemented a comprehensive national goods and service tax (“GST”) regime that combines taxes and levies by the central and state governments into a unified rate structure from July 01, 2017, which we believe will result in fundamental changes. However, given its recent introduction, there is no established practice regarding the implementation of, and compliance with, GST. The implementation of the new GST regime has increased the operational and compliance burden for Indian companies and has also led to various uncertainties. Any future increases and amendments to the GST regime may further affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. Further, as GST is implemented, there can be no assurance that we will not be required to comply with additional procedures and/or obtain additional approvals and licenses from the government and other regulatory bodies or that they will not impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of GST may have a material adverse effect on our business, financial condition and results of operations.

Further, the General Anti Avoidance Rules came into effect on April 1, 2017. The effect of the application of these provisions to our business in India is at present uncertain. Furthermore, the Finance Act, 2019 instituted a number of amendments to the existing direct and indirect tax regime which includes the withdrawal of long-term capital gains exemptions on equity shares, long term capital gains applicability in the hands of Foreign Institutional Investors and applicability of dividend distribution tax for certain transactions with shareholders, among others.

57. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and de-regulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

58. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which our company operates contained in the Red Herring Prospectus.

While facts and other statistics in this Red Herring Prospectus relating to India, the Indian economy and the industry in which our company operates has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “*Our Industry*” beginning on page 133 of the Red Herring Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

59. Financial instability in Indian financial markets could adversely affect our Company’s results of operations and financial condition.

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

60. Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.

The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies. Indian stock exchanges have in the past experienced substantial fluctuations in the prices of listed securities. Further, the Indian stock exchanges have experienced volatility in the recent times. The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time-to-time restricted securities from trading and limited price movements. A closure of, or trading stoppage on the EMERGE Platform of National Stock Exchange of India Limited could adversely affect the trading price of the Equity Shares.

61. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

62. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

63. The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy; disrupt the transportation of goods and supplies, and costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

64. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

65. Natural calamities could have a negative impact on the Indian economy and cause Our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

66. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

EXPERT OPINION

Except the report of the Peer Reviewed Auditor on statement of special tax benefits and report on restated financials for the financial year ended March 31, 2021, 2020 and 2019 as included in this Red Herring Prospectus, our Company has not obtained any expert opinion.

BOOK BUILDING PROCESS

Book Building, with reference to the Issue, refers to the process of collection of Bids on the basis of the Red Herring Prospectus within the Price Band. The Price Band shall be determined by our Company in consultation with the Book Running Lead Managers in accordance with the Book Building Process, and advertised in all editions of Business Standard, an English national daily newspaper, all editions of Business Standard, a Hindi national daily newspaper and Mumbai editions of Mumbai Lakshadeep, the Regional Newspaper, Marathi being the regional language of Maharashtra, where our registered office is situated at least two working days prior to the Bid/ Issue Opening date and was made available to the stock exchange for the purpose of uploading on their respective websites. The Issue Price shall be determined by our Company, in consultation with the Book Running Lead Managers in accordance with the Book Building Process after the Bid/Issue Closing Date. Principal parties involved in the Book Building Process are: -

- Our Company;
- The Book Running Lead Managers in this case being Holani Consultants Private Limited and BOI Merchant Bankers Limited
- The Syndicate Member(s) who are intermediaries registered with SEBI/ registered as brokers with National Stock Exchange of India Limited and eligible to act as Underwriters. The Syndicate Member(s) will be appointed by the Book Running Lead Managers;
- The Escrow collection Banks / Banker to the Issue;
- The Sponsor Bank(s);
- The Registrar to the Issue and;

- The designated Intermediaries

All Bidders could participate in this Issue only through the ASBA process by providing the details of their respective bank accounts in which the corresponding Bid Amount was blocked by SCBS.

In terms of the SEBI ICDR Regulations, QIBs and Non-Institutional Investors were not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of the number of Equity Shares or the Bid Amount) at any stage. RIBs could revise their Bid(s) during the Bid/ Issue Period and withdraw their Bid(s) until the Bid/ Issue Closing Date. Except for Allocation to RIBs, Allocation in the Issue was made on a proportionate basis.

For further details, see **“Terms of the Issue”**, **“Issue Structure”** and **“Issue Procedure”** on pages 402, 411 and 414, respectively.

The process of Book Building under the SEBI ICDR Regulations and the Bidding Process are subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to submitting a Bid in the Issue.

Bidder should note that, the Issue is also subject to obtaining the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment.

Illustration of Book Building and Price Discovery Process

(Investors should note that this example is solely for illustrative purposes and is not specific to the Issue) Bidders can bid at any price within the price band. For instance, assume a price band of Rs. 20.00/- to Rs. 24.00/- per equity share, issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centres during the bidding period. The illustrative book below shows the demand for the equity shares of the issuer company at various prices and is collated from bids received from various investors.

Bid Quantity	Bid Price (Rs.)	Cumulative Bid Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to issue the desired number of shares is the price at which the book cuts off, i.e., Rs. 22/- in the above example. The issuer, in consultation with the Book Running Lead Managers will finalize the issue price at or below such cut – off price, i.e., at or below Rs. 22/-. All bids at or above this issue price and cut – off bids are valid bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- 1) Check eligibility for making a Bid (see section titled **“Issue Procedure”** on page 414 of this Red Herring Prospectus);
- 2) Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;

- 3) Ensure correctness of your PAN, DP ID, Client ID and UPI ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
- 4) Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant's verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- 5) Ensure that the Bid cum Application Form is duly completed as per instructions given in this Red Herring Prospectus and in the Bid cum Application Form;

* In accordance with SEBI circular dated March 16, 2021 and thereafter on June 02, 2021, for IPOs opening subsequent to May 1, 2021 (or any other date as prescribed by SEBI) In case of (i) any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) for cancelled/ withdrawn/deleted ASBA Forms, the Bidder shall be compensated by the SCSB at a uniform rate of Rs.100/- per day or 15% per annum of the Bid Amount, whichever is higher from the date on which the request for cancellation/ withdrawal/ deletion is placed in the Stock Exchanges bidding platform until the date on which the amounts are unblocked; (ii) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Bidder shall be compensated by the SCSB at a uniform rate Rs.100/-per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (iii) any blocking of amounts more than the Bid Amount, the Bidder shall be compensated by the SCSB at a uniform rate of Rs.100/- per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iv) any delay in unblocking of non-allotted/ partially allotted Bids, exceeding four Working Days from the Bid/Issue Closing Date, the Bidder shall be compensated by the SCSB at a uniform rate of Rs.100/-per day or 15% per annum of the Bid Amount, whichever is higher for the entire duration of delay exceeding four Working Days from the Bid/ Issue Closing Date till the date of the actual unblock. The SCSBs shall compensate the Bidder, immediately on the date of receipt of complaint from the Bidder. From the date of receipt of complaint from the Bidder, in addition to the compensation to be paid by the SCSBs as above, the post-Offer BRLMs shall be liable for compensating the Bidder at a uniform rate of Rs.100/- per day or

15% per annum of the Bid Amount, whichever is higher from the date of on which grievance is received by the BRLMs or Registrar until the date on which the blocked amounts are unblocked.

The above timetable is indicative and does not constitute any obligation or liability on our Company, and the BRLM's.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Bid/Issue Closing Date, the Bidder shall be compensated at a uniform rate of Rs. 100/- per day for the entire duration of delay exceeding four Working Days from the Bid/Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Submission of Bids

Bid / Issue Period (except the Bid / Issue Closing Date)	
Submission and revision in Bids	Only between 10.00 a.m. to 5.00 p.m. Indian Standard Time ("IST")
Bid / Issue Closing Date	
Submission and revision in Bids	Only between 10.00 a.m. to 3.00 p.m. IST

On the Bid/ Issue Closing Date, the Bids shall be uploaded until:

- on the QIB Bid / Issue Closing Date, in case of Bids by QIBs under the Net QIB Portion, the Bids and the revisions in Bids shall be accepted only between 10.00 a.m. And 3.00 p.m. (Indian Standard Time) and uploaded until 4.00 p.m. (IST);
- in case of Bids by Non-Institutional Bidders, the Bids and the revisions in Bids shall be accepted only between 10.00 a.m. and 3.00 p.m. (IST) and uploaded until 4.00 p.m. (IST); and
- in case of Bids by Retail Individual Bidders, the Bids and the revisions in Bids shall be accepted only between 10.00 a.m. and 3.00 p.m. (IST) and uploaded until 5.00 p.m. (IST), which may be extended up to such time as deemed fit by the NSE after taking into account the total number of applications received up to the closure of timings and reported by BRLMs to the NSE within half an hour of such closure.

For the avoidance of doubt, it is clarified that Bids not uploaded on the electronic bidding system or in respect of which full Bid Amount is not blocked by SCSBs and the Sponsor Bank will be rejected. The Registrar to the Issue shall submit the details of cancelled/withdrawn/deleted applications to the SCSB's on daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSB's shall unblock such applications by the closing hours of the Working Day.

Due to limitation of time available for uploading the Bids on the Bid/ Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/ Issue Closing Date and, in any case, no later than 1.00 p.m. (IST) on the Bid/ Issue Closing Date.

Bidders are cautioned that, in the event a large number of Bids are received on the Bid / Issue Closing Date, as is typically experienced in public offerings in India, it may lead to some Bids not being uploaded due to lack of sufficient time to upload. Such Bids that cannot be uploaded on the electronic bidding system will not be considered for allocation under this Issue. Bids will only be accepted on Working Days. Investors may please note that as per letter no. NSE/IPO/25101-6 dated July 6, 2006 issued by NSE, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the SCSBs in the electronic system to be provided by the Stock Exchanges. Neither our Company, nor any member of the Syndicate is liable for any failure in uploading or downloading the Bids due to faults in any software / hardware system or otherwise

Our Company in consultation with the BRLM's, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the Face Value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e., the floor price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of any revision to the Price Band, the Bid / Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid / Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a public notice, and also by indicating the change on the respective websites of the BRLM's and at the terminals of the Syndicate Members.

In case of force majeure, banking strike or similar circumstances, the issuer may, for reasons to be recorded in writing, extend the bidding (Issue) period disclosed in the Red Herring Prospectus, for a minimum period of three working days, subject to the Bid / Issue Period not exceeding 10 working days.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form, for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

WITHDRAWAL OF THE ISSUE

Our Company, in consultation with the Book Running Lead Managers, reserves the right not to proceed with the Issue at any time before the Issue Opening Date without assigning any reason thereof.

If our Company withdraws the Issue any time after the Issue Opening Date but before the allotment of Equity Shares, a public notice will be issued by our Company within two (2) Working Days of the Issue Closing Date, providing reasons for not proceeding with the Issue. The notice of withdrawal will be issued in the same newspapers where the Pre-Issue advertisements have appeared and the Stock Exchange will also be informed promptly.

The Book Running Lead Manager's, through the Registrar to the Issue, will instruct the SCSBs to unblock the ASBA Accounts within one (1) working Day from the day of receipt of such instruction. If

our Company withdraws the Issue after the Issue Closing Date and subsequently decides to proceed with an Offer of the Equity Shares, our Company will file a fresh Draft Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed. Notwithstanding the foregoing, the Issue is subject to obtaining (i) the final listing and trading approvals of the Stock Exchange with respect to the Equity Shares offered through the Red Herring Prospectus, which our Company will apply for only after Allotment; and (ii) the final RoC approval of the Prospectus.

DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company and the Book Running Lead Managers have entered into a Market Making agreement dated **April 28, 2021**, with the following Market Maker, duly registered with National Stock Exchange of India Limited to fulfill the obligations of Market Making:

Maverick Share Brokers Private Limited

211, Laxmi Complex, M.I. Road, Jaipur

Tel: 91-0141-4919109

Fax: 91-0141-2360627

E-mail: mantri@maverickgroup.in

Website: www.maverickgroup.in

Contact Person: Kailash Sharma

SEBI Registration No.: INZ000103531

Market Maker Registration No. (SME Segment of NSE): 11604

Maverick Share Brokers Private Limited, registered with SME Segment of NSE, will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by National Stock Exchange of India Limited and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2 – way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The Spread (difference between the sell and buy quote) shall not be more than ten percent (20%) or as specified by the Stock Exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The Prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of National Stock Exchange of India Limited and SEBI from time to time.
3. The minimum depth of the quote shall be Rs. 1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of Rs. [●]/- per share the minimum lot size is [●] Equity Shares thus minimum depth of the quote shall be Rs. [●]/- until the same, would be revised by National Stock Exchange of India Limited.
4. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the **86,400** Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of issue size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2–way quotes.
5. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, National Stock Exchange of India Limited may intimate the same to SEBI after due verification.
6. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
7. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, **Maverick Share Brokers Private Limited** is acting as the sole Market Maker.
8. On the first day of the listing, there will be pre – opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the company will be placed in SPOS and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity share on the Stock Exchange.
9. The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on EMERGE Platform of National Stock Exchange of India Limited and market maker will remain present as per the guidelines mentioned under National Stock Exchange of India Limited and SEBI circulars.

10. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to Rs. 250 crores, the applicable price bands for the first day shall be:

- In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The following spread will be applicable on the SME Exchange Platform.

* Subject to finalisation of Basis of Allotment

The above table will be updated in the Prospectus prior to be filing with Registrar of the Companies ("ROC") by the company.

Our Promoters have confirmed to our company and to the Book Runner Lead Manager's that the acquisition of equity shares held by our promoters has been financed from their internal accruals and no loans or financial assistance from any banks or financial institutions have been availed of by them for this purpose.

The minimum Promoters' contribution has been brought in to the extent of not less than the specified minimum lot and from the persons defined as 'promoter' under the SEBI (ICDR) Regulations. The Equity Shares that are being locked in are not ineligible for computation of Promoters' contribution in terms of Regulation 237 of the SEBI ICDR Regulations. In connection, we confirm the following: -

- a) The Equity Shares offered for minimum 20% Promoters' contribution have not been acquired in the three years preceding the date of this Red Herring Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoters' contribution;
- b) The minimum Promoters' contribution does not include Equity Shares acquired during the one year preceding the date of this Red Herring Prospectus at a price lower than the Issue Price;
- c) Our Company has not been formed by the conversion of a partnership firm into a Company and thus, no Equity Shares have been issued to our Promoters upon conversion of a partnership firm;
- d) The Equity Shares held by the Promoters and offered for minimum Promoters' contribution are not subject to any pledge;
- e) All the Equity Shares of our Company held by the Promoter are held in dematerialized form prior to filing of this Red Herring Prospectus; and
- f) The Equity Shares offered for Promoters' contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoters for inclusion of its subscription in the Promoters' contribution subject to lock-in.

19. Details of Share Capital of the Promoters Lock in for one year

In addition to 20% of the post issue capital of our company held by the Promoters, which will be locked-in for three years, the balance [●] Equity Shares held by Promoters shall be locked in for a period of one year from the date of allotment in the Initial Public Offer as provided in clause (b) of Regulation 238 of the SEBI (ICDR) Regulations, 2018.

20. Lock in of Equity Shares held by Persons other than the Promoters:

In terms of Regulation 239 of the SEBI (ICDR) Regulations, 2018, the entire pre-issue capital held by the Persons other than the Promoters shall be locked in for a period of one year from the date of allotment in the Initial Public Offer except Equity Share holding held by AIF (Category-I) aggregating to 2,50,000 Equity shares which shall be under lock in for a period of one year from the date of purchase in accordance with terms of Regulation 239 of SEBI(ICDR) Regulations, 2018. Accordingly, 1,35,020 Equity shares held by the Persons other than the Promoters shall be locked in for a period of one year from the date of allotment in the Initial Public Offer and 2,50,000 Equity Shares held by Alternative Investment fund (Category-I) shall be locked in for a period of one year from the date of purchase.

21. Inscription or recording of non-transferability:

In terms of Regulation 241 of the SEBI (ICDR) Regulations, 2018, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription “Non-Transferable” and specify the lock-in period and in case such equity shares are dematerialized, the Company shall ensure that the lock in is recorded by the depository.

22. Pledge of Locked in Equity Shares:

In terms of Regulation 242 of the SEBI (ICDR) Regulations, 2018, the Equity Shares held by our Promoters and locked in may be pledged as a collateral security for a loan granted by a scheduled commercial bank or public financial institution or a systemically important non-banking finance company or housing finance company, subject to following;

- In case of Minimum Promoters’ Contribution, the loan has been granted to the issuer company or its subsidiary(ies) for the purpose of financing one or more of the Objects of the Issue and pledge of equity shares is one of the terms of sanction of the loan.
- In case of Equity Shares held by Promoters in excess of Minimum Promoters’ contribution, the pledge of equity shares is one of the terms of sanction of the loan.

However, lock in shall continue pursuant to the invocation of the pledge and such transferee shall not be eligible to transfer the equity shares till the lock in period stipulated has expired.

23. Transferability of Locked in Equity Shares:

In terms of Regulation 243 of the SEBI (ICDR) Regulations, 2018 and subject to provisions of Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 as applicable;

- The Equity Shares held by our Promoters and locked in as per Regulation 238 of the SEBI (ICDR) Regulations, 2018 may be transferred to another Promoter or any person of the Promoters’ Group or to a new promoter(s) or persons in control of our Company, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.
- The equity shares held by persons other than promoters and locked in as per Regulation 239 of the SEBI (ICDR) Regulations, 2018 may be transferred to any other person (including Promoter and Promoters’ Group) holding the equity shares which are locked-in along with the equity shares proposed to be transferred, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.

We further confirm that our Promoters contribution of 20% of the post issue equity share capital does not include any contribution from Alternative Investment Fund, Foreign Venture Capital Investors, Scheduled Commercial Banks, Public Financial Institutions or Insurance Companies registered under IRDA.

24. Our Company, our Directors and the BRLM’s has not entered into any buy back or standby or similar arrangements for the purchase of Equity Shares being issued through the Issue from any person.

25. As on date of the Red Herring Prospectus, all the equity shares of our company are fully paid-up. Further, since the entire Issue price in respect of the Issue is payable on Bid cum application form, all the successful bidders shall be issued fully paid-up equity shares.
26. Neither the BRLM's, nor their associates hold any Equity Shares of our Company as on the date of the Red Herring Prospectus.
27. A company doesn't have any Employee stock option scheme (hereinafter called as "ESOP")/ Employee Stock purchase scheme (hereinafter called as "ESPS") for our employees and we do not intend to allot any shares to our employees under ESOP and ESPS from the proposed issue. As and when options are granted to our employees under the ESOP scheme, our company shall comply with the SEBI (Share Based Employee Benefits) Regulations, 2014 and SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999.

- **Marketing, Branding and Customer Acquisition Cost**

Marketing, branding and customer acquisition expense requirement is estimated at Rs. 382.64 lakhs, split into four objectives:

a) Merchant Acquisition - This segment covers the below set of merchants:

- Housing and Credit Societies: Societies and Non-society entities using our software to manage and operate society affairs.
- Offline Merchants: Kirana Stores, Gymnasium, hostel, coaching classes and other offline stores which do not require any integration. The solution can be used directly without any integration.
- Cloud Merchants: Micro and small merchants using TimePay® platform to manage their online payment and related business requirement by integrating with our platform.

Our Marketing strategy for acquisition will be as below:

Category	Description
Digital Marketing and Social Media reach	Online reach to our merchants and making our brand present in all the searches as well as social media pages on a monthly budget.
Print ads	Making presence in local media and magazines with circulation in respective merchant category with cost per print ad per city at the time of launch.
PR and News	Invest in news by providing relevant information, new launches, achievements, etc. to make the brand visible and acceptable with yearly budget for PR and News.
Event engagement	Making presence in events for merchant categories in each city with yearly budget per event per city

b) User Acquisition

Once a society is acquired, below tasks are required for user acquisition:

Category	Requirement
Training	To give training to security guard, owners and managers
Promotion in premise	Promotion program in each society and non-society merchant (Gym, hostels, coaching classes, etc.) with sufficient resources.
Marketing material	Distribution of marketing material and user manual to users in society and non-society merchants.
Re-usable marketing materials	Distribution of re-usable marketing materials such as Standee, T-shirts, flex, etc. during promotions in each society and non-society merchant

c) Property acquisition

Category	Description
Branding for Property Acquisition	Once a society is acquired, rental properties will be targeted to our platform for transactions and services. This task will involve marketing in each acquired.
Marketing Material for distribution	Handouts for each property visit at the cost of per handout per city
Marketing material for advertisement	Re-usable materials for advertisements
Online advertisement	Google, social media, property sites, tie-ups on a monthly budget

d) Organization Branding

Category	Description
Social Media Campaign and CSR engagement	Associate our Company with social cause as well as Govt's vision and growth plan on a monthly and yearly budget respectively.

2. General Corporate Purposes

Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. We intend to deploy the issue proceeds aggregating Rs. [●] lakhs towards the general corporate purposes to drive our business growth. In accordance with the policies set up by our Board, we have flexibility in applying the remaining Net Proceeds, for general corporate purpose including but not restricted to the following:

- a) meeting operating expenses;
- b) the strengthening of our business development and marketing capabilities;
- c) Strategic Initiatives; and
- d) On – going general corporate exigencies, which the Company in the ordinary course of business may not foresee or any other purposes as approved by our Board of Directors, subject to compliance with the necessary provisions of the Companies Act.

We confirm that any issue related expenses shall not be considered as a part of General Corporate Purpose. Further, we confirm that the amount for general corporate purposes, as mentioned in the Red Herring Prospectus, shall not exceed 25% of the amount being raised by our Company through this Issue, in compliance with SEBI ICDR Regulations.

The quantum of utilization of funds towards each of the above purposes will be determined by our Board of Directors based on the permissible amount actually available under the head “**General Corporate Purposes**” and the business requirements of our Company, from time to time. We, in accordance with the policies of the Board, will have flexibility in utilizing the Net Proceeds for general corporate purposes, as mentioned above.

MONITORING OF UTILIZATION OF FUNDS

There is no requirement for the appointment of a monitoring agency, as the Issue size is less than Rs. 10,000 Lakhs as per Regulation 262 (1) of the SEBI ICDR Regulation, 2018. Our Board and Audit Committee will monitor the utilization of the net proceeds of the Issue through its audit committee and will disclose the utilization of the Net Proceeds under a separate head in our balance sheet along with the relevant details, for all such amounts that have not been utilized. Our Company will indicate investments, if any, of unutilized Net Proceeds in the balance sheet of our Company for the relevant fiscal subsequent to receipt of listing and trading approvals from the Stock Exchanges.

Pursuant to Regulation 32 (5) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, our Company shall disclose to the Audit Committee the uses and application of the Net Proceeds. Our Company shall prepare an annual statement of funds utilized for purposes other than stated in this Red Herring Prospectus, certified by Statutory Auditors of the company and place it before the Audit Committee, as required under applicable laws. Such disclosure shall be made only until such time that all the Net Proceeds have been utilized in full. Furthermore, in accordance with Regulation 32 (1) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the utilization of the Net Proceeds of the Issue from the Objects of the Issue as stated above; and (ii) details of category wise variations in the utilization of the Net Proceeds of the Issue from the Objects of the

Issue as stated above. This information will also be published in newspapers simultaneously with the interim or annual financial results, after placing the same before the Audit Committee.

VARIATIONS IN OBJECT

In accordance with Section 13(8) and Section 27 of the Companies Act, 2013 and applicable rules, our Company shall not vary the objects of the Issue without our Company being authorized to do so by the shareholders by way of a special resolution through postal ballot. In addition, the notice issued to the shareholders in relation to the passing of such special resolution (the — Postal Ballot Notice) shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in the vernacular language of the jurisdiction where the Registered Office of the company is situated. BASIS FOR ISSUE PRICE

The Issue Price shall be determined by our Company in consultation with the Book Running Lead Managers on the basis of the assessment of market demand for the Equity Shares through the Book Building Process and on the basis of the qualitative and quantitative factors as described in this section. The face value of the Equity Shares is Rs. 10/- each and the Issue Price is [●] times of the face value at the lower end of the Price Band and [●] times of the face value at the upper end of the Price Band.

For the purpose of making an informed investment decision, the investors should also refer “**Risk Factors**”, “**Our Business**” and “**Financial Statement as restated**” beginning on page 34, 160 and 259 respectively of this Red Herring Prospectus. The trading price of the equity shares of our company could decline due to risk factors and you may lose all or part of your investments.

QUALITATIVE FACTORS

Some of the qualitative factors, which form the basis for computation of the Issue Price, are:

- Experienced management and efficient workforce.
- Scalable business model with multiple steady growth drivers.
- Optimum quality of products and services diversified across sectors.
- End to End capabilities spanning the digital lifecycle from roadmap to deployment and maintenance.
- Focus on quality and innovation gaining customer satisfaction.
- Strong R&D capabilities & quality content.
- Strong marketing.
- Evolving with technological changes.
- Networking strength.
- Well established relationships with Banks and Financial Institutions.

For further details, refer to heading “**Our Competitive Strengths**” under chapter titled “**Our Business**” on page 191 of this Red Herring Prospectus.

QUANTITATIVE FACTORS

The information presented below relating to the Company is based on the Restated Consolidated Financial Statements of the Company for the financial year ended on March 31, 2021, 2020 and 2019 prepared in accordance with Indian GAAP, the Companies Act and SEBI ICDR Regulations. For Details, refer Chapter titled “**Restated Financial Statements**” and “**Other financial information**” beginning on pages 259 and 342 of this Red Herring Prospectus. Some of the quantitative factors, which form the basis for computing the price, are as follows:

1. Basic and Diluted Earnings per share (EPS) as per Accounting Standard 20:

Year Ended	Basic & Diluted EPS (Rs.)	Weights
March 31, 2021	2.35	3
March 31, 2020	2.31	2
March 31, 2019	3.00	1
Weighted Average EPS		2.445

Notes:

- *Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year adjusted by the number of Equity Shares issued during the year multiplied by the time weighing factor. The time weighing factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.*
- *The figures disclosed above are based on the Restated Consolidated Summary Financial Information of our Company.*
- *The face value of each Equity Share is Rs.10/- each.*
- *Basic and Diluted EPS calculations are in accordance with Accounting Standard 20 (AS – 20) 'Earnings per Share', notified under Section 133 of Companies Act, 2013 read together along with paragraph 7 of the Companies (Accounts) Rules, 2014.*
- *Basic Earnings per share = Net profit after tax, as restated attributable to equity shareholders/Weighted average number of shares outstanding during the year.*
- *Diluted Earnings per share = Net profit after tax, as restated / Weighted average number of potential equity shares outstanding during the year.*
- *Weighted average EPS = Aggregate of year–wise weighted EPS divided by the aggregate of weights i.e. [(EPS x Weight) for each fiscal year]/ [Total of weights].*
- *On July 06, 2020, our Company issued 35,00,000 Equity Shares to the existing shareholders as fully paid bonus shares. For calculating the Weighted Average Number of Equity Shares for EPS above, these bonus shares have been considered in all the periods reported.*

2. Price to Earnings (P/E) ratio in relation to Price Band of Rs. [●] to Rs. [●] per Equity Share of Rs. 10/- each fully paid up:

Particulars	P/E Ratio at the Lower end of the Price Band	P/E Ratio at the Upper end of the Price Band
P/E based on Basic & Diluted EPS for FY 2020-21	[●]	[●]
P/E based on weighted average Basic & Diluted EPS	[●]	[●]

Industry Peer Group P/E ratio

Particulars	Industry P/E Ratio
Highest	44.36
Lowest	41.62
Average	42.99

*The industry high and low has been considered from the industry peer set provided later in this section. The industry composite has been calculated as the arithmetic average of P/E for industry peer set disclosed in this section. For further details, see “**Comparison with listed industry peers**” on page 128.*

3. Return on Net Worth (RoNW):

Return on Net Worth as per Restated Consolidated Financial Statements is as under:

Year Ended	RoNW (%)	Weight
March 31, 2021	15.81	3
March 31, 2020	18.45	2
March 31, 2019	29.30	1
Weighted Average		18.94%

Notes:

- The RONW has been computed by dividing net profit after tax (excluding exceptional income, if any) as restated by net worth (excluding revaluation reserve, if any) as restated as at year end.
- Weighted average Return on Net Worth = Aggregate of year-wise weighted RoNW divided by the aggregate of weights i.e. $[(RoNW \times Weight) \text{ for each fiscal year}] / [Total \text{ of weights}]$.

4. Net Asset Value (NAV) per share of Face Value of Rs 10 each:

As per Restated Consolidated Financial Statement

Particulars	Amount in Rs.
Net Assets Value per Equity Share as on March 31, 2021	14.89
Net Assets Value per Equity Share after the Issue – At Cap Price	[•]
Net Assets Value per Equity Share after the Issue – At Floor Price	[•]
Issue Price per Equity Share	[•]

Notes:

- Issue Price per Equity Share will be determined on conclusion of the Book Building Process.
- Net Asset Value per Equity Share = Restated net worth, attributable to equity holders of the Company at the end of the year. / Number of equity shares outstanding as at the end of year.
- Net worth is aggregate value of the paid-up share capital of the Company and Reserve and Surplus (excluding revaluation reserves, if any) and attributable to equity holders of the Company, if any, as per Restated Consolidated Financial Information.
- On July 06, 2020, our Company issued 35,00,000 Equity Shares to the existing shareholders as fully paid bonus shares. For calculating the NAV above, these bonus shares have been considered in all the periods reported.

5. Comparison of Accounting Ratios with Listed Industry Peers:

The following peer group has been determined on the basis of companies listed on Indian stock exchanges, whose business profile is comparable to our businesses:

Company name	Total Income (Rs. in lakhs)	Face value per equity shares (Rs.)	P/E	EPS (Basic) (Rs.)	EPS (Diluted) (Rs.)	RONW (%)	NAV per equity shares (Basic) (Rs.)

INFORMATION TECHNOLOGY (IT) INDUSTRY – GLOBAL SCENARIO

INDUSTRY OVERVIEW

IT comprises of design, development, implementation and management of computer-based information systems, particularly software applications and computer hardware. The IT-enabled Services (ITeS) industry provides services that are delivered over telecom or data network to a range of external business areas. Therefore, IT acts as a facilitator, an enabler and also assumes the role of custodian. It facilitates large volumes of information to be stored, processed and/or transferred at lightning speed.

The IT sector is comprised of entities that produce software, hardware or semiconductor equipment's, or entities that provide internet or related services. These three industry groups are further divided into industries and sub-industries.

- 1. Software and Services** - This industry group is made up of entities that provide internet services, as well as software and IT services. Internet services include entities that provide online databases or interactive services, such as search engines or social networks. IT services includes entities that provide IT consulting or data processing services to other entities.
- 2. Technology Hardware and Equipment** – This industry is broken down into three industries: communications equipment, technology hardware, storage and peripherals and electronic equipment, instruments and components. Communications equipment includes routers, telephones and switchboards. Technology hardware, storage and peripherals include computers, printers and cell phones. Electronic equipment, instruments and components include entities that make equipment like barcode scanners, transformers and security systems, as well as entities that are distributors or Original Equipment Manufacturers (OEM).
- 3. Semiconductors and Semiconductor Equipment** - Semiconductors are substances that can conduct electricity under some conditions, but not others, making them ideal for controlling electrical currents. Silicon is a material that is frequently used as a semiconductor. This industry

group includes both entities that make semiconductors and entities that make peripheral equipment for semiconductors.

- Information Technology Sector ETFs and Mutual Funds - ETFs, index funds and mutual funds track the information technology sector or specific industries, such as semiconductors or internet software. The expense fees of the funds below range from 0.10% to 2.80%.

GLOBAL SCENARIO

This statistic shows global IT spending from 2005 to 2019 and a forecast for spending on information technology in 2020 and 2021. In 2021, IT spending worldwide is expected to reach about 3.68 trillion U.S. dollars, a growth of 4.3 percent.

(Source: <https://www.statista.com/statistics/203935/overall-it-spending-worldwide/#:~:text=Global%20IT%20spending%20forecast%202005%2D2021&text=This%20statisti c%20shows%20global%20IT,a%20growth%20of%204.3%20percent.>)

The United States is the largest tech market in the world, representing 32% of the total, or approximately \$1.7 trillion for 2020. In the U.S., as well as in many other countries, the tech sector accounts for a significant portion of economic activity. The economic impact of the U.S. tech sector, measured as a percentage of gross domestic product, exceeds that of most other industries, including notable sectors such as retail, construction, and transportation.

Despite the size of the U.S. market, the majority of technology spending (68%) occurs beyond its borders. Spending is often correlated with factors such as population, GDP, and market maturity.

Among global regions, Western Europe remains a significant contributor, accounting for approximately one of every five technology dollars spent worldwide. However, as far as individual countries go, China has clearly established itself as a major player in the global tech market. China has followed a pattern that can also be seen in developing regions, where there is a twofold effect of closing the gap in categories such as IT infrastructure, software, and services, along with staking out leadership positions in emerging areas such as robotics.

RECENT TRENDS OF IT INDUSTRY

Cloud Security - With the increasing popularity of cloud-based software and services and hybrid cloud solutions, comes the increasing concern regarding cloud security. This is further reinforced by an ongoing rise in cyber-attacks and data breaches. Cloud-based security solutions will remain a growing need across several sectors, especially in highly regulated ones such as finance and government. The cloud security market size is expected to grow from USD 4.1 billion in 2017 to USD 12.7 billion by 2022, at a Compound Annual Growth Rate (CAGR) of 25.5%.

(Source - <https://blog.benchmarkcorporate.com/2020-global-it-industry-outlook>)

(Source-<https://www.marketsandmarkets.com/Market-Reports/cloud-security-market-100018098.html>)

The Year of 5G - The highly anticipated 5G technology will see a much more momentous rollout in 2020, in contrast to the lackluster emergence in 2019. With high speed and remarkable data capacity, 5G is able to support billions of connected devices across sectors, allow new innovation for the IoT, Artificial Intelligence, and Virtual Reality. This new technology is going to dramatically alter the possibilities of the cloud and virtualization-based networks. 5G technology will grow increasingly throughout 2020, transforming industrial possibilities.

Edge Computing - Edge computing has existed for years and 2020 is anticipated to be a highly emergent year due to the availability of faster networking technologies such as 5G and analytic capabilities in smaller devices. Edge computing allows data processing to be done physically closer to where the data is generated (the edge of the network) rather than at a massive data processing center, which in turn reduces latency and processes the data much faster. This technology offers several benefits for businesses, such as reduced costs, improved energy efficiencies, predictive maintenance, increased reliability, smart manufacturing, and security enhancements.

FORECASTED IT SPENDING

IT spending budgets will be largely driven by the needs to upgrade outdated infrastructure, address security issues, and accommodate growth. The amount of spending and the mix of services will vary by company size.

- Smaller businesses are expected to spend more on hardware such as servers and laptops.
- Mid-size companies will be spending more on mobile devices.
- Larger corporations will spend more on managed infrastructure IT services such as power and climate solutions.

For software spending specifically, small businesses will focus their spending on operating systems. Mid-size companies will have a larger budget for productivity software and business support applications.

Large enterprises will be spending more of their money on virtualization, database management, and communications software. Cloud services and recovery software will represent major budget allocations in the coming year and cloud spend will vary by company size.

(Source- <https://blog.benchmarkcorporate.com/2020-global-it-industry-outlook>)

Growth in enterprise IT spending for cloud-based offerings will be faster than growth in traditional (non-cloud) IT offerings through 2022. Organizations with a high percentage of IT spending dedicated to cloud adoption is indicative of where the next-generation, disruptive business models will emerge.

Table 1. Worldwide IT Spending Forecast (Billions of U.S. Dollars)

	2019 Spending	2019 Growth (%)	2020 Spending	2020 Growth (%)	2021 Spending	2021 Growth (%)

GLOBAL MARKET OUTLOOK

The global IT as a service market will grow steadily at a CAGR of more than 22% by 2021. The increased need for intra-department cost-benefit analysis as one of the primary growth factors for this market. Enterprise mobility is gaining traction due to the increasing preference for bring your own device (BYOD) since it enables the employees to use their personal devices for professional purposes.

2018 was a very good year for the global tech market. But 2019 was more challenging, and 2020 and 2021 will be even more so in many countries. The US/China trade war, a UK exit from the EU, and weaker economic expansions will generally mean that tech markets in most countries will progressively slow to just 3% growth by 2020 and again in 2021. CIOs will need to trim back their new project portfolios for the next two years and start looking for ways to contain their other costs — especially their cloud expenses. This report helps CIOs navigate the transition from strong tech growth of 2018 to the more difficult environments of 2020 and 2021.

FINANCIAL TECHNOLOGIES (FINTECH) INDUSTRY – GLOBAL OVERVIEW

INDUSTRY OVERVIEW

We live in a “now” world. Consumers are now demanding more transparency, certainty and immediacy when moving their money, and they won’t settle for incremental innovation. Financial institutions are compelled to respond by modernizing their payment infrastructures to provide real-

time payments capabilities that demonstrate their value to consumers, companies and government institutions.

The Fintech market consists of sales of technology and platforms and related services. Companies in this market produce applications, processes and products, which are used in the financial services industry and these solutions, are provided as an end-to-end process over the Internet. It is used by financial institutions on the back end to automate insurance, trading, banking services, and risk management.

The global Fintech market was valued at about \$127.66 billion in 2018, and is expected to grow to \$309.98 billion at an annual growth rate of 24.8% through 2022. Growth in the digital payments sector is driving the market for global Financial Technology (Fintech). Fintech has made payments for goods and services faster, easier, more convenient, and cost-efficient for customers. Customers can now pay for various goods and services via crypto currency, loyalty points, and other digital cash alternatives. The growth in the digital commerce market and proliferation of mobile technology has contributed to the growth of the digital payments sector. For instance, companies such as Square and Stripe provide portable Point-of-Sale (POS) systems which can instantly read and process touch-less payments like Apple Pay, along with credit cards, and even some mainstream crypto currency wallets.

(Source - <https://www.thebusinessresearchcompany.com/report/fintech-global-market-report>)

The last few years have witnessed an unprecedented transformation with respect to the emergence of financial technologies. Tools and platforms are trying to disrupt the financial ecosystem globally. Earlier Fintech impacted only consumer payment landscapes i.e., enabling faster payments, removing hassles from processes, enabling frictionless commerce, making it more secure; and now it is expected that it may overhaul business operations end-to-end. The canvas of Fintech is becoming ever encompassing. Its emerging use cases are crowd funding, peer-to-peer money transfers, data analysis, wealth management, cyber security and underwriting etc. These technologies are user friendly and designed to reduce costs of operations. Globally, Fintech innovators and financial service organizations are building collaborative business and co-creation models. The soul of these models is data availability from financial organizations to build financial technologies.

Traditionally, banking was confined to a closed ecosystem with data access in silos and limited data sharing with the customer. With the leap in technology and evolution of the shared ecosystem, the wave of open banking is gaining prominence and thereby enabling financial institutions to provide more value to customers. This entails providing personalized services, through a shared ecosystem with customer consent and thereby, unlocking the huge potential for open-banking.

Fintech firms have received a quarter of the financial service industry's venture and startup funding and account for almost 20% of the total US\$90 billion valuation of new IPO's (at launch) by global financial sector firms. Venture funding appears to be quite diversified geographically, with the main recipients including crowd-funding and payments services providers. The United States has accounted for about one-half of global venture capital fund-raising, followed by Asia and Europe roughly splitting the rest of the global total of about US\$85 billion in such financing for the fintech sector. Fintech IPOs on the other hand have been largely concentrated in the United States, which accounts for over three quarters of the global fund-raising total.

REGIONAL OVERVIEW

- The Africa sub-Saharan region has become a leader in mobile money resulting in a radical change in the delivery of financial services and significant gains in financial inclusion.
- Asia has made significant advances in nearly every aspect of fintech, although there is heterogeneity within the region. Asian tech giants (e.g., in Bangladesh, China, Indonesia) have become important providers of financial services, putting competitive pressures on traditional financial institutions.
- The fintech market in Europe is growing but is unevenly distributed, with non-EU countries trailing European Union peers in fintech adoption.
- The MENAP and CCA regions had a slow start in adopting fintech and activities are concentrated in few countries and sectors, although the industry is now growing rapidly.
- In LAC region, fintech startups are growing, albeit from a low base and still behind Canada and the United States.

(Source - IMF Fintech Policy Paper)

Insurance continues to show strong adoption as well, with nearly half the consumers globally using a premium comparison site, feeding information into an insurance-linked smart device, or buying products such as peer-to-peer insurance. Here, non-financial services organizations often facilitate consumer FinTech adoption, such as equipping cars with “black boxes” to provide data for telematics insurance or providing apps on mobile phones that consumers can use to count steps and gain fitness discounts on their health insurance.

REAL TIME PAYMENTS MARKET

Real-time payment is an on-going payment service which can be availed at any time and duration. Real-time payment can be initiated from wide range of applications and diverse devices such as, tablets, smart phones, web application, and digital wallets. Financial transactions performed real-time are beneficiary for availability of immediate payments or funds digitally.

Increasing penetration of smart phone s and growing demand for pay-now facility across the globe are key factors expected to drive growth of the global real-time payments market during the forecast period.

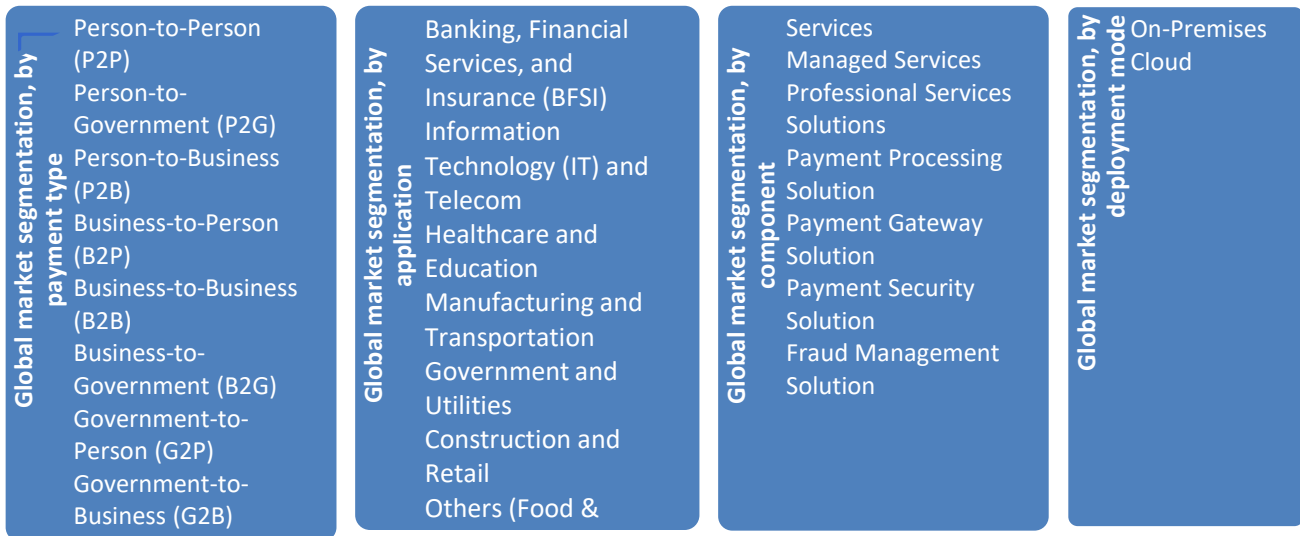

In addition, increasing demand for secure instant payment gateways and fast payment services across the globe is expected to boost growth of the global real-time payments market, owing to ability of real-time payments applications to provide highly secure framework for any transaction.

Increasing adoption of real-time payment systems among banking, financial services and insurance (BFSI) sector across the globe is for high speed and convenient payment modes. In addition, high-end services offered by real-time payment systems for various banking applications such as, efficient data handling, consumer analytics marketing, cost efficient payment-data silos, and immediate credit transaction are some factors expected to support growth of the global market in the near future.

Furthermore, rising digitalization among multiple sectors is expected to advent growth of the global market during the forecast period owing to various benefits offered by digitalization such as, secure authorization, immediate posting, instant settlement, and immediate receipt of notification.

However, lack of interoperability between various sophisticated payment gateways is a major factor expected to restraint growth of the global market. In addition, increasing market competition from local market players for integration of advanced technology with legacy systems in order to cater the

growing demand for real-time solutions is another factor expected to hamper growth of the leading players to a certain extent.

With real-time payments becoming increasingly ubiquitous around the world, there is a growing acceptance that this is just the start of a payment’s revolution. However, the picture around the world is not uniform. Some markets are driving ahead, bringing a plethora of innovation. Other markets are taking more time to construct new ecosystems and develop profitable business models at market level in multi-year programs. A few want to see which routes are going to be successful before making serious investments.

The real time payments market expected to grow from USD 6.8 billion in 2018 to USD 25.9 billion by 2023, at a Compound Annual Growth Rate (CAGR) of 30.6%.

The major growth factors expected to drive the growth of the market include the high proliferation of smart phone s, adoption of cloud-based solutions, customers’ demand for immediacy of payments and quicker payment settlements, and the government initiatives.

(Source-<https://www.marketsandmarkets.com/Market-Reports/real-time-payments-market-103502782.html>)

Some of the real time payments enabled services are:

- Mobile Banking** - Mobile banking is a service provided by a bank or other financial institutions, allowing users to conduct financial transactions remotely using a mobile device like cell phone, tablet, etc. These services include various information and monetary transactions having evolved from simple SMS banking to complex processes of access to information, investments, support and content services, covering personal as well as the business sectors. Mobile banking system has the following entities as its participants: platform providers of mobile money, telecom operators, payment processors, financial institutions, money transfer agents and regulators. Opportunities in the mobile banking market are categorized on the basis of transaction mode (SMS, wap, direct operator billing, smart cards/ nfc, etc.), payment location, nature of payments (P2P, P2B, B2P, B2B) and type of purchases made (transfers, top ups, coupons, merchandise).

With increasing number of smart phone users, mobile banking subscribers are also expected to grow in millions, having banks shift their focus to customer mobile transactions. It is both

preferable and comfortable for users to conduct transactions using their smart phone s, giving banks an opportunity to gain a competitive leverage over others and position themselves better in the market. M-banking also facilitates mapping, recording and studying customers’ financial transactions and behavior and offer customized services accordingly; allowing banks to gain customer loyalty.

Mobile banking is booming in regions where exists a major under-served or under-banked population in spite of the technological advances or newly experiencing the smart phone boom. Mobile banking market adoption here varies significantly among saturated and unsaturated countries being slow, intermediate or advanced, developing countries such as India, China, Bangladesh, South Korea, parts of Latin America and Africa and Brazil seeing a robust growth compared to developed regions of Germany, UK, France, Australia and Thailand.

(Source - <https://www.grandviewresearch.com/industry-analysis/mobile-banking-market>)

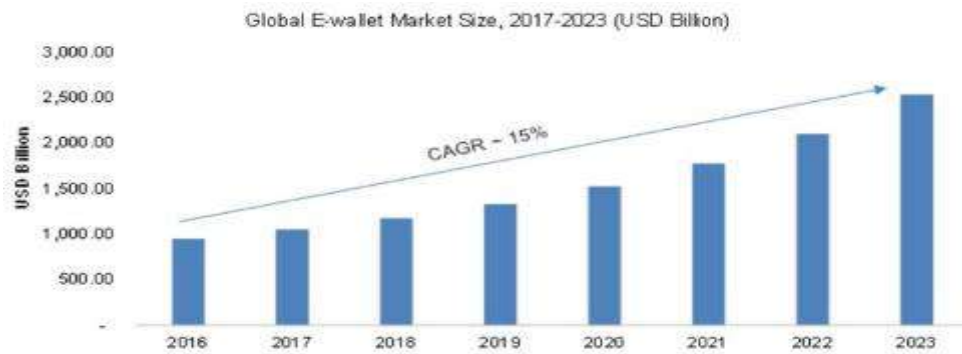

The global mobile banking market was valued at \$715.3 million in 2018 and is expected to reach \$1,824.7 million by 2026, registering a CAGR of 12.2% from 2019 to 2026. Asia-Pacific region would exhibit the highest CAGR of 16.0% during 2019-2026.

(Source - <https://www.alliedmarketresearch.com/mobile-banking-market>)

- **Digital Wallet** - Digital or electronic wallet is referred to an internet or electronic based payment system that stores both financial value as well as personal identity related information in a mobile or computer. This helps an individual in making electronic transactions and purchasing items by a computer or a smart phone from a virtual store. Bank account of an individual can also be linked to the digital wallet along with the driver’s license, loyalty card or other ID documents that are stored on phone. These digital wallets are increasingly being made not just for normal financial transactions but also for authentication of the holder’s credentials having both software as well as information component. The software related to these wallets provides security by encrypting personal information for the real transactions.

The global E-wallet market is expected to grow at CAGR of 15% and estimated to reach market size of approximately USD 2,100 billion by the end of forecast period 2017-2023. Geographically, North America followed by Europe formed some of the major regions contributing to the market growth. Asia pacific, Japan, China, and India are moving towards cashless countries. There is the high growth opportunity for e-wallet due to increased adoption of the smart phone in this region.

(Source -<https://www.marketresearchfuture.com/reports/e-wallet-market-4633>)

- Money Transfer** - The global money transfer market has gone through unprecedented change powered by remarkable financial technologies. In the early stage of digitalization, the banking sector used information technology to perform basic functions such as customer service, auditing, book-keeping, etc. which continued in the form of core banking system. In recent years, we can see the advanced innovation in infrastructure that has largely been characterized by peer-to-peer lending, big data analytics, open API models, and cloud computing. In 2019, the industry had witnessed rising concerns over data privacy, adoption of block-chain technology, and increasing acceptance of crypto-currencies as the new money for international transfers, not to forget an increase in peer-to-peer money transfer companies.

(Source-<https://www.compareremit.com/money-transfer-guide/global-money-transfer-predictions-for-2020/>)

Global remittances are projected to decline sharply by about 20% in 2020 due to the economic crisis induced by the COVID-19 pandemic and shutdown. The projected fall, which would be the sharpest decline in recent history, is largely due to a fall in the wages and employment of migrant workers, who tend to be more vulnerable to loss of employment and wages during an economic crisis in a host country. Remittances to low and middle-income countries (LMICs) are projected to fall by 19.7% to \$445 billion, representing a loss of a crucial financing lifeline for many vulnerable households.

Remittance flows are expected to fall across all World Bank Group regions, most notably in Europe and Central Asia (27.5%), followed by Sub-Saharan Africa (23.1%), South Asia (22.1%), the Middle East and North Africa (19.6%), Latin America and the Caribbean (19.3%), and East Asia and the Pacific (13%). The large decline in remittances flows in 2020 comes after remittances to LMICs reached a record \$554 billion in 2019. In 2021, the World Bank estimates that remittances to LMICs will recover and rise by 5.6% to \$470 billion. The outlook for remittance remains as uncertain as the impact of COVID-19 on the outlook for global growth and on the measures to restrain the spread of the disease.

REGIONAL ANALYSIS OF REAL TIME PAYMENTS

Market in North America is expected to dominate the global real-time payments market, owing to availability of required IT infrastructure and high awareness real-time payment gateways in countries in the region.

Market in Asia Pacific is expected to witness significant growth in the global market in terms of revenue, owing to increasing penetration of instant payment systems among emerging countries such as China, India, and Japan for simple, fast, and secure real-time payment framework.

Market in Europe is expected to witness high growth in terms of revenue, owing to increasing digitalization and IT infrastructure among various financial institutions and rising e-commerce sector in countries in the region.

COVID-19 IMPACT

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Real-Time Payments market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

DIGITAL PAYMENTS SECTOR – GLOBAL OVERVIEW

INDUSTRY OVERVIEW

The Digital Payments market segment is led by consumer transactions and includes payments for products and services which are made over the Internet as well as mobile payments at point-of-sale (POS) via smart phone applications. The following are not included in this segment: transactions between businesses (Business-to-Business payments), bank transfers initiated online (that are not in connection with products and services purchased online), and payment transactions at the point-of-sale where mobile card readers (terminals) are used.

RECENT TRENDS IN BANKING- ALL ROADS LEAD TO DIGITAL MOBILE BANKING

Smart Society - Smart society is one where digital technology, thoughtfully deployed by governments, can improve on three broad outcomes: the well-being of citizens, the strength of the economy, and the effectiveness of institutions. The potential for technologies to enable smart societies is rising. The market for smart technology is predicted to be worth \$3.5 trillion by 2026.

(Source - <https://hbr.org/2017/10/the-smart-society-of-the-future-doesnt-look-like-science-fiction>)

Social Media - New technologies are now being used by banks to integrate social media into banking services, ranging from payments, transfers to even utilizing it for calculating credit scores and lending decisions.

Biometrics - Banks are now increasingly using voice biometrics, fingerprint scanning and iris scans as authentication tools to enhance security platforms and address identity theft-related challenges.

Cloud - SaaS and cloud software offer huge advantages in terms of cost and scalability. Bank CIOs can offer an enhanced customer experience by leveraging cloud computing tools and integrating cloud with their digital offerings.

Personal Finance Management - Personal financial management applications have evolved from basic tools to more advanced and automated platforms that leverage big data, analytics, behavioral research and other technologies to automate and digitize personal financial management. Banks are offering these value-added services to enhance engagement levels with customers.

Contextual banking - In today's dynamic and hyper-connected business environment, it has become imperative for banks to offer the right service to the right customer at the right time. Omni-channel banking provides a consistent banking experience to customers.

P2P Lending & Payments - P2P and other alternative digital lending platforms have garnered attention in the last several years, due to an increased volume of funding and owing to shorter turnaround times in loan disbursement, innovative credit appraisal methods and improved lending rates.

Block-chain – Block-chain or distributed ledger technology is expected to transform the entire financial services space that includes back-end banking operations, trade finance and lending, payments or insurance. Banks around the world are exploring usage and testing it in their operations.

Wearables - Wearables are being evaluated by banks as a new interaction and authentication medium. With increasing penetration among consumers, wearables are poised to become a mainstream digital banking application.

GLOBAL OUTLOOK

Total transaction value in the Digital Payments segment is projected to reach US\$4,406,431m in 2020. Total transaction value is expected to show an annual growth rate (CAGR 2020-2024) of 17.0% resulting in a projected total amount of US\$8,266,917m by 2024. The market's largest segment is Digital Commerce with a projected total transaction value of US\$2,926,743m in 2020. From a global comparison perspective, it is shown that the highest cumulated transaction value is reached in China (US\$1,920,536m in 2020).

Developed economies have implemented a cashless payment infrastructure based primarily on credit cards several decades ago, but in recent years, the legacy structures have suddenly become a burden. The "Western" markets are now much slower to adopt new payment solutions than growing economies like China, India, or Eastern Europe. A large share of the population in the developing economies of Asia, Africa, and Latin America has also been under-banked until the rise of mobile payment and wallet innovations that completely rely on accessible mobile technology.

COVID IMPACT

The ongoing spread of COVID-19 has become one of the biggest threats to the global economy and financial markets. Cross-border payments, be they B2B or C2B, have significantly declined owing to the temporary shutting down of borders further, resulting in restricted movement of goods. International remittances too have been affected and have reduced.

With economic growth expected to be severely hit, the financial outlook of the digital payments sector is no different and will follow a similar trajectory, at least in the short term. But the industry's stability and potential for innovation will play an invaluable role in rebooting the economy in the new normal. However, there are also a few areas that are seeing an uptick in digital payments by way of increased adoption during the lockdown. These include online grocery stores, online pharmacies, OTT players (telecom and media), EdTechs, online gaming, recharges and utility/bill payments. Digital payment volumes are also receiving a boost through the Government, which has pledged monetary assistance to the poor via direct transfers to bank accounts.

The finance minister and the CEO of the National Payments Corporation of India have also urged people to increase the use of digital payments in order to make payments contactless. Digital payments, once a convenience, have become a necessity in these times. With a majority of the

sectors that contribute to digital payments still in a state of flux, it is still too early to ascertain the long-term impact of COVID-19 on digital payments.

GLOBAL MACROECONOMIC OUTLOOK

The COVID-19 pandemic is inflicting high and rising human costs worldwide. Protecting lives and allowing health care systems to cope have required isolation, lockdowns, and widespread closures to slow the spread of the virus. The health crisis is therefore having a severe impact on economic activity. As a result of the pandemic, the global economy is projected to contract sharply by –3% in 2020, much worse than during the 2008–09 financial crisis. In a baseline scenario, where the pandemic fades in the second half of 2020 and containment efforts can be gradually unwound, the global economy is projected to grow by 5.8 percent in 2021 as economic activity normalizes, helped by policy support.

COVID-19 Pandemic Will Have a Severe Impact on Global Growth

There is extreme uncertainty around the global growth forecast because the economic fallout depends on uncertain factors for example, the pathway of the pandemic, the progress in finding a vaccine and therapies, the intensity and efficacy of containment efforts, the extent of supply disruptions and productivity losses, the repercussions of the dramatic tightening in global financial market conditions, shifts in spending patterns, behavioral changes (such as people avoiding shopping malls and public transportation), confidence effects, and volatile commodity prices.

Global Economy in Recession in 2020

The growth forecast is marked down by more than 6 percentage points relative to the October 2019 WEO and January 2020 WEO Update. Growth in the advanced economy group—where several economies are experiencing widespread outbreaks and deploying containment measures, is projected at –6.1% in 2020. Most economies in the group are forecast to contract this year, including the United States (–5.9%), Japan (–5.2%), the United Kingdom (–6.5%), Germany (–7.0%), France (–7.2%), Italy (–9.1%), and Spain (–8.0%). Although essential to contain the virus, lockdowns and restrictions on mobility are extracting a sizable toll on economic activity. Adverse confidence effects are likely to further weigh on economic prospects.

Among emerging market and developing economies, all countries face a health crisis, severe external demand shock, dramatic tightening in global financial conditions, and a plunge in commodity prices, which will have a severe impact on economic activity in commodity exporters. Overall, the group of emerging market and developing economies is projected to contract by –1.0% in 2020; excluding China, the growth rate for the group is expected to be –2.2%. Even in countries not experiencing widespread detected outbreaks as of the end of March the significant downward revision to the 2020 growth projection reflects large anticipated domestic disruptions to economic activity from COVID-19. As discussed below, growth would be even lower if more stringent containment measures are necessitated by a wider spread of the virus among these countries.

Emerging Asia is projected to be the only region with a positive growth rate in 2020 (1.0%), albeit more than 5 percentage points below its average in the previous decade. In China, indicators such as industrial production, retail sales, and fixed asset investment suggest that the contraction in economic activity in the first quarter could have been about 8% YoY. Even with a sharp rebound in

the remainder of the year and sizable fiscal support, the economy is projected to grow at a subdued 1.2% in 2020. Several economies in the region are forecasted to grow at modest rates, including India (1.9%) and Indonesia (0.5%), and others are forecast to experience large contractions (Thailand, – 6.7%). Other regions are projected to experience severe slowdowns or outright contractions in economic activity, including Latin America (–5.2%), with Brazil’s growth forecast at –5.3% and Mexico’s at –6.6%; emerging and developing Europe (–5.2%), with Russia’s economy projected to contract by –5.5%; the Middle East and Central Asia (–2.8%) with Saudi Arabia’s growth forecast at – 2.3%, with non-oil GDP contracting by 4%, and most economies, including Iran, expected to contract; and sub-Saharan Africa (–1.6%), with growth in Nigeria and South Africa expected at –3.4% and – 5.8%, respectively. Larger fraction of countries is expected to experience negative per capita income growth in 2020 than at the time of the 2009 financial crisis. These countries account for a broadly similar purchasing-power-parity share of the world economy compared with the group that experienced negative per capita income growth in 2009.

Uncertain Recovery in 2021: Predicated on Pandemic Fading, Helped by Policy Support

Global growth is expected to rebound to 5.8% in 2021, well above trend, reflecting the normalization of economic activity from very low levels. The advanced economy group is forecast to grow at 4.5%, while growth for the emerging market and developing economy group is forecast at 6.6%. In comparison, in 2010 global growth rebounded to 5.4% from –0.1% in 2009. The rebound in 2021 depends critically on the pandemic fading in the second half of 2020, allowing containment efforts to be gradually scaled back and restoring consumer and investor confidence. Significant economic policy actions have already been taken across the world, focused on accommodating public health care requirements, while limiting the amplification to economic activity and the financial system. The projected recovery assumes that these policy actions are effective in preventing widespread firm bankruptcies, extended job losses, and system-wide financial strains. Nonetheless, the level of GDP at the end of 2021 in both advanced and emerging market and developing economies is expected to remain below the pre-virus baseline (January 2020 WEO Update).

INFORMATION TECHNOLOGY (IT) INDUSTRY – INDIAN ECONOMY

INDUSTRY OVERVIEW

The global sourcing market in India continues to grow at a higher pace compared to the IT-BPM industry. India is the leading sourcing destination across the world, accounting for approximately 55 per cent market share. Indian IT & ITeS companies have set up over 1,000 global delivery centres in about 80 countries across the world. India has become the digital capabilities hub of the world with around 75 per cent of global digital talent present in the country.

IT-BPM sector in India stood at US\$177 billion in 2019 witnessing a growth of 6.1 per cent year-on-year and is estimated that the size of the industry will grow to US\$ 350 billion by 2025. India’s IT & ITeS industry grew to US\$ 181 billion in 2018-19. Exports from the industry increased to US\$ 137 billion in FY19 while domestic revenues (including hardware) advanced to US\$ 44 billion. IT industry employees 4.1 million people as of FY19. Spending on information technology in India is expected to reach US\$ 90 billion in 2019. Revenue from digital segment is expected to comprise 38 per cent of the forecasted US\$ 350 billion industry revenue by 2025.

DEVELOPMENTS

Indian IT's core competencies and strengths have attracted significant investments from major countries. The computer software and hardware sector in India attracted cumulative Foreign Direct Investment (FDI) inflows worth US\$ 43.58 billion between April 2000 and December 2019 and ranks second in inflow of FDI, as per data released by the Department for Promotion of Industry and Internal Trade (DPIIT).

Some of the major developments in the Indian IT and ITeS sector are as follows:

- In January 2020, Nippon Telegraph and Telephone, a Japanese tech announced its plans to invest a significant part of its US\$ 7 billion global commitment for data centres business in India over the next four years.
- In February 2020, Tata Consultancy Services has bagged a contract worth Rs 10,650 crore (US\$ 1.5 billion) from pharma company Walgreens Boots Alliance.
- Total export revenue of the industry is expected to grow 8.3 per cent year-on-year to US\$ 136 billion in FY19.
- UK-based tech consultancy firm, Contino, has been acquired by Cognizant.

GOVERNMENT INITIATIVES

Some of the major initiatives taken by the government to promote IT and ITeS sector in India are as follows:

- On May 2019, the Ministry of Electronics and Information Technology (MeitY) launched the MeitY Startup Hub (MSH) portal.
- In February 2019, the Government of India released the National Policy on Software Products 2019 to develop India as a software product nation
- The government has identified Information Technology as one of 12 champion service sectors for which an action plan is being developed. Also, the government has set up a Rs 5,000 crore (US\$ 745.82 million) fund for realizing the potential of these champion service sectors.
- As a part of Union Budget 2018-19, NITI Aayog is going to set up a national level programme that will enable efforts in AI[^] and will help in leveraging AI[^] technology for development works in the country.
- In the Interim Budget 2019-20, the Government of India announced plans to launch a national programme on AI* and setting up of a National AI* portal.
- National Policy on Software Products-2019 was passed by the Union Cabinet to develop India as a software product nation.

Other major programs started by Government to boost IT Sector

Digital India Program - It was launched with an aim of transforming the country into a digitally empowered society and knowledge economy. The Digital India would ensure that Government services are available to citizens electronically. It would also bring in public accountability through mandated delivery of government's services electronically. **Key Projects of Digital India programme:**

- **Digital Locker System** aims to minimize the usage of physical documents and enable sharing of e-documents across agencies.
- **MyGov.in** has been implemented through a mobile application as a platform for citizen engagement in governance, through a "Discuss", "Do" and "Disseminate" approach.

- **Swachh Bharat Mission (SBM) Mobile app** would be used by people and Government organizations for achieving the goals of Swachh Bharat Mission.
- **eSign framework** would allow citizens to digitally sign a document online using Aadhaar authentication.
- **The Online Registration System (ORS)** under the e-Hospital application provides important services such as online registration, payment of fees and appointment etc.
- **National Scholarships Portal** is a one stop solution for end-to-end scholarship process for all the scholarships provided by the Government of India.
- **DeitY** has undertaken an initiative namely **Digitize India Platform (DIP)** for large scale digitization of records in the country that would facilitate efficient delivery of services to the citizens.
- **Bharat Net**, a high-speed digital highway to connect all 2.5 lakh Gram Panchayats of country. This would be the world's largest rural broadband connectivity project using optical Fibre.
- BSNL has introduced **Next Generation Network (NGN)**, to replace 30-year-old exchanges, which is an IP based technology to manage all types of services and packet switched communication services.
- BSNL has undertaken large scale deployment of Wi-Fi hotspots throughout the country. The user can latch on the BSNL Wi-Fi network through their mobile devices.
- **Broadband Highways** is one of the pillars of Digital India. While connectivity is one criterion, enabling and providing technologies to facilitate delivery of services to citizens forms the other.

Meghraj Initiative Computing - It is the new program which is going to take advantage of the Cloud Computing. Another name for Meghraj is the GI Cloud Initiative. It will enable the government to leverage cloud computing for effective delivery of e-services.

Code Free for India - This initiative is started by International Centre for Free and Open-Source Software (ICFOSS), which invites free software development community to develop solutions to address local and global needs. Programmers would be invited to develop tools and desktop applications, internet applications, mobile applications and enhance the cloud and internet of things technology. It will also encourage the use of local language computing tools and contemporary free software technology while keeping in mind bandwidth and device limitations.

e-Kranti - NeGP 2.0 - Vision of e-Kranti is "Transforming e-Governance for Transforming Governance" and the mission is to ensure a government wide transformation by delivering all Government services electronically to citizens through integrated and interoperable systems via multiple modes, while ensuring efficiency, transparency and reliability of such services at affordable costs.

Use of It in Financial Inclusion - Financial inclusion or inclusive financing is the delivery of financial services at affordable costs to sections of disadvantaged and low-income segments of society, in contrast to financial exclusion where those services are not available or affordable. **Some of the commonly promoted distribution technologies for financial inclusion in India include the following:**

- **IT-enabled Kiosks for Financial Inclusion**
- **Mobile phone based financial services: Mobile banking (m-banking) and Mobile payments (m-payments)**
- **Automated Teller Machines (ATM): Biometric ATM, Mobile ATM and Micro ATM.**
- **Biometric handheld device**
- **Smart cards and POS (point-of-service)**

Li-fi Technology and its Application - Light Fidelity (Li-Fi) is a revolutionary new technology that transmits high-speed data using lights. It is touted as being nearly 100 times faster than the traditional Wi-Fi technology based on transmission of radio waves. Li-Fi offers great promise to

overcome the existing limitations of Wi-Fi by providing for data-heavy communication in short ranges. Since it does not pollute, it can be called a green technology for device-to-device communication in the Internet of Things (IoT). Some applications are:

- **Smart Lighting:** Any private or public lighting including street lamps can be used to provide Li-Fi hotspots and the same communications and sensor infrastructure can be used to monitor and control lighting and data.
- **Mobile Connectivity:** Laptops, smart phones, tablets and other mobile devices can interconnect directly using Li-Fi. Short range links give very high data rates and also provides security.
- **Hazardous Environments:** Li-Fi provides a safe alternative to electromagnetic interference from radio frequency communications in environments such as mines and petrochemical plants.
- **Hospital & Healthcare:** Li-Fi emits no electromagnetic interference and so does not interfere with medical instruments, nor is it interfered with by MRI scanners.
- **Aviation:** Li-Fi can be used to reduce weight and cabling and add flexibility to seating layouts in aircraft passenger cabins where LED lights are already deployed.
- **Underwater Communications:** Li-Fi provides a solution for short-range communications.
- **Vehicles & Transportation:** LED headlights and tail-lights are being introduced. Street lamps, signage and traffic signals are also moving to LED. This can be used for vehicle-to-vehicle and vehicle-to-roadside communications. This can be applied for road safety and traffic management.
- **Location Based Services (LBS):** Highly accurate location-specific information services such as advertising and navigation that enables the recipient to receive appropriate, pertinent information in a timely manner and location.

Big Data Initiative - Big Data is data whose scale, diversity, and complexity require new architecture, techniques, algorithms, and analytics to manage it and extract value and hidden knowledge from it. In other words, big data is characterized by volume, variety (structured and unstructured data) velocity (high rate of changing) and veracity (uncertainty and incompleteness).

Recently Government has initiated steps for collecting big data under following schemes:

- **Aadhar** - Indian government launched a scheme to issue a unique 12-digit number, termed 'Aadhaar' to every resident of India. It is an identification that a person can carry for a life time and potentially use with any service provider. Aadhaar is the world's largest ID platform.
- **Digi locker** – Digi Locker provides a personal storage space in the cloud to Indian citizens. Organizations that are registered with Digi Locker can push electronic copies of documents and certificates (e.g., driving license, Voter ID, School certificates) directly into citizens' lockers.

Google Project loon - To improve the broadband services in the rural areas Google has initiated Project Loon. Google defines Project Loon as a "network of balloons travelling on the edge of space, designed to connect people in rural and remote areas, help fill coverage gaps, and bring people back online after disasters".

UPI / BHIM / USSD / Aadhar Pay - UPI was launched by the National Payment Corporation of India (NPCI). Bharat Interface for Money (BHIM) is an initiative by the Govt to enable fast, secure and reliable cashless payments through mobile phones. BHIM is Aadhaar-enabled, inter-operable with other UPI applications and bank accounts, and has been developed by the NPCI. This seals the government's push towards digital payments after the demonetization that resulted in the scrapping of high-value Rs 1,000 and Rs 500 currency notes. Aadhaar Payment App allows paying through the App without phone. This app uses fingerprints for the authentication, on the basis of which, the money is paid from Aadhaar linked account. **IMPS** is being extended through other channels such as ATM, Internet Banking, etc. A point-of-sale (POS) terminal is a computerized replacement for a cash register. Much more complex than the cash registers of even just a few years ago, the POS system can include the ability to record and track customer orders, process credit and debit cards, connect to other systems in a network, and manage inventory. USSD (Unstructured Supplementary Service Data) is a Global System for Mobile (GSM) Communication technology that is used to send text between a mobile phone and an application program in the network.

Bharat Net Project - The Government of India has undertaken an initiative namely Bharat Net, a high-speed digital highway to connect all 2.5 lakh Gram Panchayats of country. This would be the world's largest rural broadband connectivity project using optical Fibre.

White Space - Microsoft India is ready with a plan to provide free last-mile internet connectivity across the country. It proposes to use the "white space" – the unused spectrum between two TV channels – to provide free connectivity to large sections of the Indian population. Wi-Fi has a range of only about 100 meters, whereas the 200-300 MHz spectrum band available in the white space can reach up to 10 km.

Web Portals Government - Govt launched e-pashuhaat portal on the occasion of National Milk Day. Under the scheme National Mission on Bovine Productivity 'e-pashuhaat' portal has been developed for connecting breeders and farmers regarding availability of bovine germplasm. E-Pathshala has been developed by NCERT for showcasing and disseminating all educational e-resources including textbooks, audio, video, periodicals and a variety of other print and non-print materials through website and mobile app. National Agriculture Market (NAM) is a pan-India electronic trading portal which networks the existing APMC mandis to create a unified national market for agricultural commodities. The NAM Portal provides a single window service for all APMC related information and services. Govt launched a dedicated web portal 'ShaGun' for the Sarva Shiksha Abhiyan which aims to capture and showcase innovations and progress in Elementary Education sector of India by continuous monitoring of the flagship scheme – Sarva Shiksha Abhiyan (SSA). The Government launched the AirSewa portal to offer people a convenient and hassle-free air travel experience. It will be operated through an interactive web portal as well as through a mobile app for both android and iOS platforms.

ROAD AHEAD

India is the topmost off-shoring destination for IT companies across the world. Having proven its capabilities in delivering both on-shore and off-shore services to global clients, emerging technologies now offer an entire new gamut of opportunities for top IT firms in India. The sector is headed towards achieving \$1 Tn digital economy by 2022. The country has become the global digital capabilities hub with around 75% of global digital talent present in the country.

FINANCIAL TECHNOLOGIES (FINTECH) INDUSTRY – INDIAN MARKET

India is amongst the fastest growing Fintech markets in the World. India ranked the highest globally in the Fintech adoption rate with China. Digital Payments value of \$65 Billion in 2019 is expected to grow to \$140 Billion at a CAGR of 20% till 2023. India has overtaken China as Asia's top Fintech funding target market with investments.

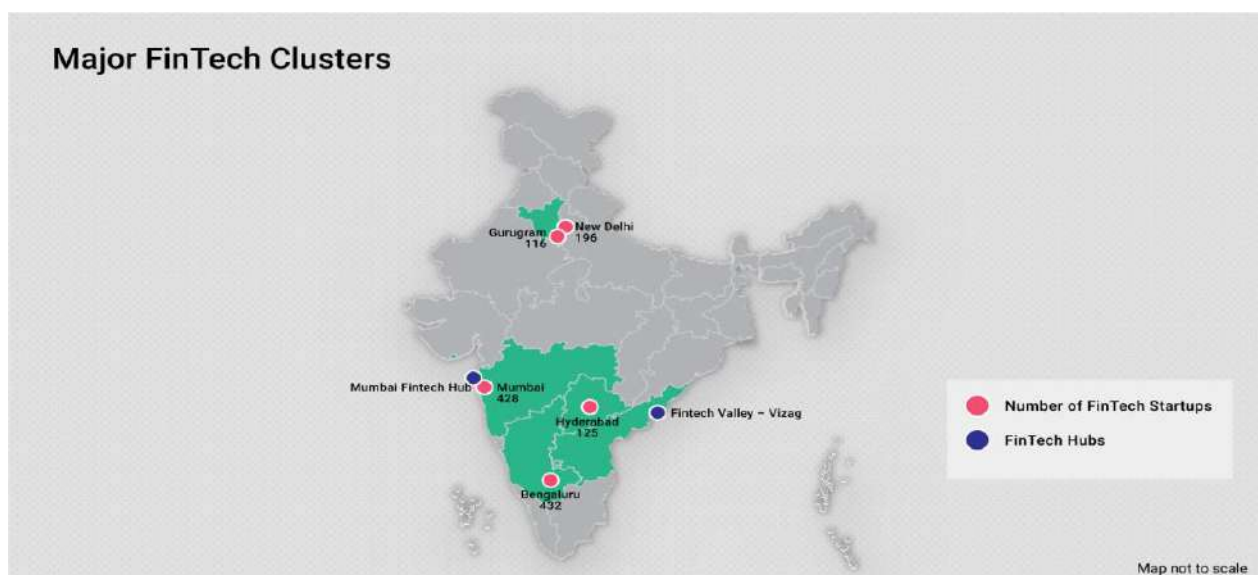

Key segments within in Fintech space include Digital payments, Digital lending, Banktech, Insurtech and Wealthtech.

The *WealthTech Industry* in India is witnessing the emergence of startups with innovative technologies and business models. Growing personal wealth, increased adoption of mobile & digital channels, reduced asymmetry of information between small & large financial institutions and investors, are some of the factors propelling the industry forward.

Digital payments have been the flag bearer of the Indian FinTech space. In 2010, India launched its first real-time payments systems 'IMPS' and introduced UPI in 2016. There are 375 Payment startups in the country. Mobile/digital wallets, gateways, POS/ mobile POS sub-segments account for over 50% of the payment startups in India. The market is expected to reach \$1 Trillion by 2023.

In *consumer credit*, the urban population is likely to leverage FinTech lending services to avoid heavy documentation, and the rural population can benefit from alternative credit scoring mechanisms to stay away from loan sharks.

The scope of *IoT* in Indian Insurance goes beyond telematics and customer risk assessment. Currently, there are 110+ InsureTech start-ups operating in India.

(Source: <https://www.investindia.gov.in/sector/bfsi-fintech-financial-services>)

The rise of Fintech revolution in India is characterized by trends such as, but not limited to:

- Financial inclusion of larger population
- Demand of digital finances
- Smart phone adoption
- Government

- Regulator push
- Collaborations by financial institutions.

The challenges in India are that the big corporations are stringently regulated to push for Fintech revolution and emerging organizations are not regulated or propelled enough. Still the financial sector is moving in the right direction to construct an environment for financial services future and its cyber security. Initiatives such as Jan Dhan Yojana, Aadhaar and the emergence of UPI clearly mark the beginning of building a healthy Fintech ecosystem in India.

As per a PwC report, India is expected to offer the highest expected return on investment on Fintech projects at 29% versus a global average of 20%.

(Source: DSCI Industry report- Securing India's Digital Payment frontiers)

According to Accenture, Fintech investments in India almost doubled to \$3.7 billion in 2019, up from \$1.9 billion the previous year. This pegs the country as the world's third largest fintech center, trailing behind the US and UK. Accenture analyzed data from a CB Insights report that said that investments in payments companies more than tripled to \$2.1 billion from about \$660 million in 2018.

FINTECH OPPORTUNITIES COME WITH NEW RISKS TO FINANCIAL INCLUSION

Exclusion—unequal access to technology limits the fintech potential and increases the digital divide. In particular, lack of basic infrastructure; access to smart phones, which permit more sophisticated analytics and improved customer experiences; affordable data-plans to access the Internet and emerging fintech services; and financial literacy, disproportionately disadvantages women and the poor.

Discrimination—while the promise of many “arms-length” analytical decision-making tools was to remove bias, experiences to date suggest that the record is at best mixed. These tools often reflect the biases in the underlying data, the people designing them, existing preferences (e.g., discrimination against minority borrowers).

Consumer protection—include risks related to transparency and electronic disclosure; product suitability and over-indebtedness; agent liability; data privacy; effective recourse mechanisms; safety of funds; cyber security, and digital illiteracy.

Data-protection related risks. The potential for these risks (such as the compromise of privacy, identity theft and fraud) to cause harm is greater where consumers have low levels of financial and digital capability and lack of alternatives, as is the case in many EMDEs.

(Source: IMF Policy Paper on Fintech)

India has secured the second position in the world with the largest fintech startups following the United States in. Government initiative toward promoting digitization of financial systems and cashless economy has been helpful in shifting consumer focus toward digital alternatives for financial transactions and services. The adoption of Fintech, worldwide, grew at a rate of 64% in 2019, and in emerging markets, like China and India, the growth rate is at 87%. Funding from a diverse set of domestic and international stakeholders also contributed to the growth in digital payments.

UPI / IMPS / DIGITAL WALLET

Immediate Payment Service (IMPS) is a money transfer mechanism made available by the apex bank of the country, the Reserve Bank of India and the National Payments Corporation of India (NPCI). Initiated in 2010 by the NPCI with the help of a pilot project with 4 major banks, IMPS has now grown to 150+ banks. The major feature of IMPS is that it is available at all times for usage. It transfers funds instantly and is a great banking platform in case of emergencies.

(Source - <https://www.paisabazaar.com/banking/what-is-imps/>)

India's Immediate Payment Service (IMPS) has been rated as the world's best real-time payment service in an analysis of 54 countries that have similar facilities. India saw a 10-fold increase in value and an eight-fold increase in transaction volumes through IMPS over the last year

(Source-[https://www.thehindubusinessline.com/money-and-banking/imps-rated-worlds-best-in-real-time-payment-service/article29459995.ece#:~:text=India's%20Immediate%20Payment%20Service%20\(IMPS,of%20Fast%20report%20by%20FIS\)](https://www.thehindubusinessline.com/money-and-banking/imps-rated-worlds-best-in-real-time-payment-service/article29459995.ece#:~:text=India's%20Immediate%20Payment%20Service%20(IMPS,of%20Fast%20report%20by%20FIS)))

Unified Payment Interface (UPI) is an initiative by National Payments Corporation of India's (NPCI), set up with the support of the Reserve Bank of India and Indian Banks Association (IBA). UPI is a system that powers multiple bank accounts into a single mobile application (of any participating bank), merging several banking features, seamless fund routing & merchant payments into one hood. It also caters to the "Peer to Peer" collect request which can be scheduled and paid as per requirement and convenience.

(Source - <https://www.npci.org.in/product-overview/upi-product-overview>)

Unified Payments Interface crossed a billion transactions a month in 2019, and is now up to 1.3 billion transactions a month. In the three years since its launch, the UPI has become one of the fastest-growing payment platforms in the world and has attracted attention from global policy-makers. It is now regarded as an important institutional and public policy innovation.

With the Unified Payments Interface (UPI), third-party apps were allowed to collect the debit instructions and submit them to the account holder's bank, using the secure backend systems managed by the National Payments Corporation of India (NPCI). This deliberate decoupling has led to competition and innovation with specialized apps like PhonePe, Paytm, Google Pay, Amazon Pay and others competing to be the customer's favorite payments app. All of them work on the payment rails of the UPI.

UPI has also made payments simpler by removing the need to enter lengthy bank account numbers and IFS codes. To make a UPI payment, the user has to know only the recipient's virtual payment address (VPA), which is a simple combination of username and bank name that looks similar to abc@xyzbank. It is a modern, mobile-first system that does away with the need for physical cards. In a country like India, with its low literacy levels, this kind of simplicity is essential for financial inclusion.

National Payments Corporation of India (NPCI) facilities UPI, IMPS and NETC recorded falls in transactions in March 2020, as the Coronavirus Pandemic put the country under a lockdown. The UPI facility recorded 1.25 billion transactions in March 2020, with a total transaction value of Rs 2.06 lakh crore. The data shows that this is a fall of 6.01%; with 1.33 billion transactions recorded in February 2020; where the total transaction value was Rs 2.22 lakh crore. The number of banks on the UPI platform, however, increased by two, to include 148 banks in total.

The IMPS facility also saw a drop of 20.96% in transactions for March 2020; recording 216.82 million transactions with a total transaction value of Rs 2.01 Lakh Crore. In February, 247.80 million transactions went through IMPS with a transaction value of Rs 2.14 Lakh Crore. Currently, there are 573 Member banks on the IMPS facility.

An essential element of the success of the country's digital payments space is interoperability. By delivering interoperability across bank and nonbank providers, UPI enables real-time person-to-person (P2P) transfers, bill payments, and merchant payments for everyone in the formal financial system. NPCI has taken this interoperability further by launching Bharat QR, a market-wide quick response standard. Standardized QR prevents fragmentation in the market. NPCI is also reducing friction by lowering the hardware requirements for participating in the system. The Aadhaar Enabled Payment System (AePs) allows people without smartphones or cards to withdraw and transfer funds at micro-ATMs using biometric authentication (primarily among social cash transfer recipients).

DIGITAL PAYMENTS SECTOR – INDIAN SCENARIO

DIGITAL INNOVATION HUB

India is emerging as the hub for “Digital Skills”. The country spends \$1.6 billion annually on training workforce in the sector. The industry is the largest employer within the private sector, employing 3.9 million people. India is transforming into a digital economy with over 450 million plus internet subscribers; only second to China. Indian IT industry has more than 17,000 firms, of which over 1,000 are large firms with over 50 delivery locations in India. The country's cost competitiveness in providing IT services, which is approximately 3-4 times more cost-effective than the US, continues to be its unique selling proposition in the global sourcing market.

The National Optical Fiber Network (NOFN) aims to connect all 250,000 Gram Panchayats (village council) in the country with high-speed broadband. Up to 100% FDI is allowed in Data processing, Software development and Computer consultancy services; Software supply services; Business and management consultancy services, Market research services, technical testing and Analysis services, under automatic route. 100% FDI is permitted in B2B E-commerce.

Four Mega Trends Transforming India

1. **India going digital-** India is rapidly evolving into a digital behemoth. Rising smart phone penetration and internet access have ensured that Indian consumers stay constantly connected. This is also reflected in the growth of digital banking transactions.
 - Mobile trajectory: India currently ranks #2 in the world with over 1 billion mobile subscriptions. Of this, approx. 240 million consumers use smart phones and this base is projected to increase to over 520 million by 2020.
 - The internet network: With increased 3G and 4G penetration even in the remotest parts of the country, internet network in India is rapidly expanding.
 - Banking on digital growth: Over the last few years, digital transactions have shown steady growth of 50 percent YoY, followed by ATM transactions growing at 15 percent.

2. **Favorable regulatory environment** - The Government and concerned regulators have recognized this and have constantly kept pace with the rapidly changing environment vis-à-vis technology and customer expectations. Highlighted below are few of the key regulatory steps that are currently enabling digital payments in India.
 - KYC relaxation for small transactions: As per current RBI guidelines, there is no requirement for customers to undergo a KYC process for transactions up to INR 10,000 per month on prepaid instruments. This guideline makes it convenient for customers to access and use the data without hassle.
 - Exemption from Two-Factor Authentication (2FA): The RBI currently mandates the inclusion of a 2FA for transactions made with Indian debit / credit cards, irrespective of transaction value. While this requirement is necessary for consumer security, it also tends to be cumbersome. A mobile wallet in comparison requires a customer to undergo the 2FA process only while loading funds from other bank instruments. Additionally, such wallets have limits on the value of transactions and tend to reduce exposure to frauds.

3. **Emergence of next generation payment service providers** - India has witnessed significant payments activity in the last 3-4 years. The competitive digital payment landscape in India now spans Telco's, banks, wallet companies, e-commerce/ tech firms and, in the near future, payment banks.
 - Bank-led: In the past, banks have largely offered mobile banking apps with integrated bill payment solutions. Banks have now started offering their own mobile wallets in addition to the mobile banking apps like Pockets by ICICI Bank, Lime by Axis Bank, PayZapp by HDFC Bank, SBI Buddy by SBI and Ziggitt by IDFC Bank.
 - Telco-led: Large Telco's such as Airtel and Vodafone launched mobile payments solutions, Airtel Money and Vodafone M-Pesa respectively, targeted at their own customer base.
 - Prepaid wallets: In 2009–10, the RBI had issued 26 prepaid payment instrument licenses (PPI). PPI issuers could now issue semi – closed wallets that enabled payments without 2F Authentication. As a result, two types of PPIs emerged:
 - Payment banks: The scope of activities of a payments bank includes acceptance of demand deposits up to INR1 lac per customer, issuance of ATM / debit cards, offering payment and remittance services, acting as a Business Correspondent (BC) to another bank and distribution of mutual funds, insurance services etc.

4. Enhanced customer experience - Indian customers are now used to a superior experience owing to the popularity of e-commerce, and are demanding a similar experience from their financial service providers as well. This includes the following:

- Superior & seamless customer experience: With the recent wave of online shopping on arrival of e-commerce entrants such as Flipkart, Amazon, Snapdeal, etc. it is expected that the popularity of online payments will soon mirror the popularity of shopping online. This has been corroborated by the trends wherein the youth now prefer to use Ola / Uber rides instead of conventional cabs to avoid hassles of paying the exact amount by cash. Payments are now a background activity while the focus stays on making user experience seamless.
- Attracting customers with offers and discounts: Since the concept of mobile wallet is new in India, companies offer substantial deals, offers and discounts to attract customers and increase awareness.

INDIA TO ACCOUNT FOR THE MOST SIGNIFICANT SHARE IN ASIA-PACIFIC

Digital payments are a relatively new trend in India growing at a fast pace due to favorable regulatory environment, infrastructure upgrades, high smart phone penetration, and subsidized data plans. The reason for high smart phone adoption is the launch of affordable phones that offer flagship-grade features and capabilities. Thus, more Indians are relying on apps for facilities, such as grocery or fuel management. This is an enabler for mobile payments.

Demonetization was a massive currency culling exercise taken up by the government in November 2016, which made 86% of the currency in circulation invalid. The step was taken to fight against black money, terror financing, and counterfeit currency. This was a major driving force for the adoption of digital payments.

(Source -<https://www.mordorintelligence.com/industry-reports/digital-payments-market>)

RISE IN ADOPTION OF DIGITAL PAYMENTS

India truly seems to be going digital and this is validated by the exponential growth of its digital marketplace.

Within the next 4-year span, UPI transactions have grown much more rapidly to become almost double of mobile banking transactions in the same period. The UPI product statistics are as below:

Month- year	Volume (in million)	Value (in cr.)
January 2019	672.75	1,09,932.43
January 2020	1035.02	2,16,242.97
January 2021	2302.73	4,31,181.89

In the year 2015-16, around 747 million transactions occurred through MWallet and prepaid cards combined, whereas only 390 million transactions happened through mobile banking. MWallet is largely preferred for micro transactions while high value transactions take place through mobile banking.

In terms of how many people use wallets versus how many actively transact through online banking, the number of unique active wallet users (80-85 million) has already surpassed that of online banking users (60million).

DISRUPTIONS & INNOVATIONS - FUTURE OF BANKING

New innovations and disruptions in the banking and financial services industry make the future look very exciting and technology focused. Blockchain is already creating ripples in the banking technology space with a myriad of new applications being explored with the distributed ledger technology. Similarly, the wealth management space is being disrupted by 'robo advisor' platforms that are not only automating portfolio management, but also integrating innovative technologies.

Another notable disruption is branches are being transformed to create true omni-channel banking experiences with new and innovative digital technologies - ranging from portable bank to video tellers and 100% digital or paperless branches.

Image-based banking that utilizes smart phone cameras to capture deposits, checks or bills is another disruptive technology making waves in the banking industry. Virtual agents, live chats and social media-based support channels are being offered by banks to provide an enhanced service experience to customers.

The internet-of-things, which has revolutionized many industries, is also making its presence felt in the banking space. Machine learning and artificial intelligence are also being explored to enhance the customer experience.

Many banks have set up their own innovation labs to explore new banking applications and disruptive technologies. They are also organizing hackathons and participating with fintech accelerators to explore new disruptive technologies. Banks are collaborating and establishing strategic alliances with fintech companies, as they do not want to lag behind in the race towards innovation and disruption. Banks are making APIs open to third parties to scale up their ecosystem of strategic partners and speed development of disruptive applications. New banks such as Fidor and Atom have emerged as serious threats to traditional banks and thus it has become imperative for traditional banks to adopt new technologies through strategic alliances with fintech players.

INDIA GROWTH STANCE

American credit rating agency Fitch Ratings' company India Ratings and Research cut its growth forecast for India to 0.8% in the FY 2020-'21 as the coronavirus pandemic continues to hit investments and exports globally. This is the third update of the agency's Global Economic Outlook forecasts in a month. It is usually done every quarter.

The ratings agency said that India's GDP growth will slip to 0.8% in 2020-2021, a revision from the 2% that was projected just three weeks ago. This is in comparison to an estimated 4.9% growth in the FY 2019-2020. But it is expected to get better in the next fiscal as the agency projected a 6.7% growth in 2021-'22, according to PTI.

Earlier this month, the International Monetary Fund cut its growth projection for India to 1.9% from the earlier estimated 5.8% for the financial year 2020-2021 as the intensifying coronavirus pandemic continued to crush the global economy. With a subdued forecast, India is likely to record its worst

growth performance since liberalization in 1991, the IMF said in its latest edition of the World Economy report. But the IMF added that only India and China will see positive growth in 2020.

IMF projected India's growth rate in 2021-2022 at 7.4%. Other agencies such as British brokerage Barclays, the Asian Development Bank, and the United States-based multinational investment bank Goldman Sachs have also predicted cuts in India's GDP growth.

ECONOMIC OUTLOOK

India's ability to achieve rapid, sustainable development will have profound implications for the world. India's success will be central to the world's collective ambition of ending extreme poverty and promoting shared prosperity, as well as for achieving the 2030 Sustainable Development Goals (SDGs). Indeed, the world will be only able to eliminate poverty if India succeeds in lifting its citizens above the poverty line.

For international trade and the health of the global economy too, India's growth will be ever more important. Growth is projected to be 6.0 percent this fiscal year and expected to rise to 6.9% in 2020/21 and to 7.2% in the following year. In addition, the carbon footprint India leaves as it propels its high growth will have a significant influence on the planet's ability to keep global warming within the 2-degree threshold.

On crucial issues ranging from managing scarce water resources, to modernizing food systems, to improving rural livelihoods, to ensuring that megacities become engines of sustainable economic growth and inclusion, India's development trajectory will have a major influence on the rest of the world.

PRODUCTS AND SERVICES

A. Integrated Mobile Banking Solution (IMBS):

We develop mobile banking solutions for our banking customers to provide the best-in-class services for their customers 24x7. Under this, we synchronize the basic needs of the customers of the bank in the mobile application which can be operated through their smart phones so that they are not required to visit the bank. Our team puts together solutions in which the individual account data of customers is integrated in their smart phones via specially designed software which provides real-time information to bank customers about their accounts and also enables the banks to provide various services to their customers without physically visiting the branch office. Consequent to the above, the customers, while shopping, dining, or travelling, can bank transactions from wherever they are. Our products help our clients by providing a complete end to end solution for integrated mobile banking, M-commerce, and payment solution through multiple technologies on mobile platform, which offers greater flexibility and scalability to businesses

We work with leading banks like Canara Bank, Kerala Gramin Bank, Karnataka Gramin Bank and Cosmos Co-operative Bank and Syndicate Bank. We have also served Central Bank of India and State Bank India in mobility space. Our integrated mobile solutions are recognized as the go-to-market solutions for financial institutions that are looking to satisfy today's needs for mobile banking while supporting the evolution of their mobile channel.

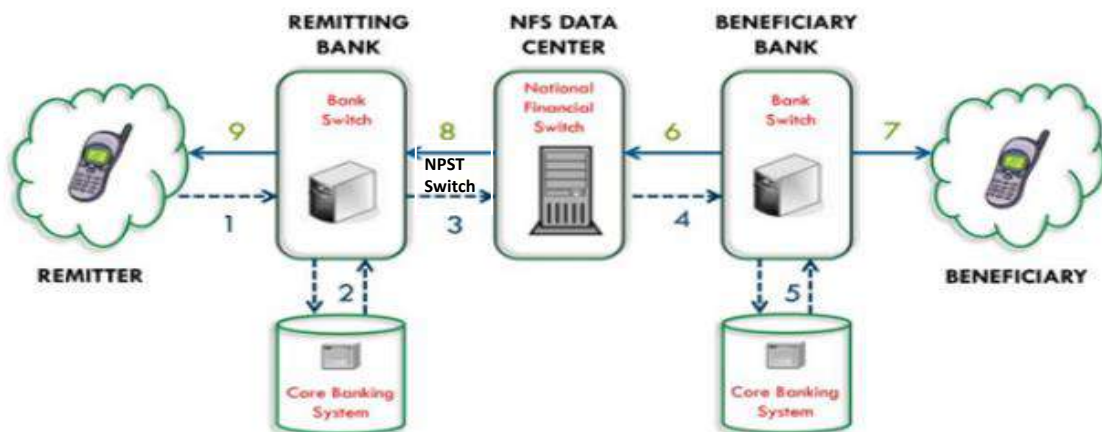

B. IMPS (Immediate Payment Service) Switch:

Immediate Payment Service (IMPS) is an instant real-time inter-bank electronic funds transfer system of India. IMPS offer an inter-bank electronic fund transfer service through mobile phones 24x7, unlike NEFT and RTGS. This facility can be availed anywhere any time. It is managed by the National Payments Corporation of India (NPCI) and is built upon the existing National Financial Switch network.

We have developed our own IMPS switch as Technology Service Provider which synchronizes bank server data with NPCI switch and the same is currently been used by Canara Bank, Kerala Gramin Bank, Karnataka Gramin Bank and Cosmos Co-operative Bank on end-to-end model which includes development, AMC and FMS. We were also the FMS and service support provider to State Bank of India. With this public sector bank, we are catering to more than eight crore transactions a year.

Citizens can use the IMPS service using their registered Mobile number and Mobile Money Identifier (MMID) or through Internet Banking using their Account number and IFSC code.

Fig: Process flow of IMPS

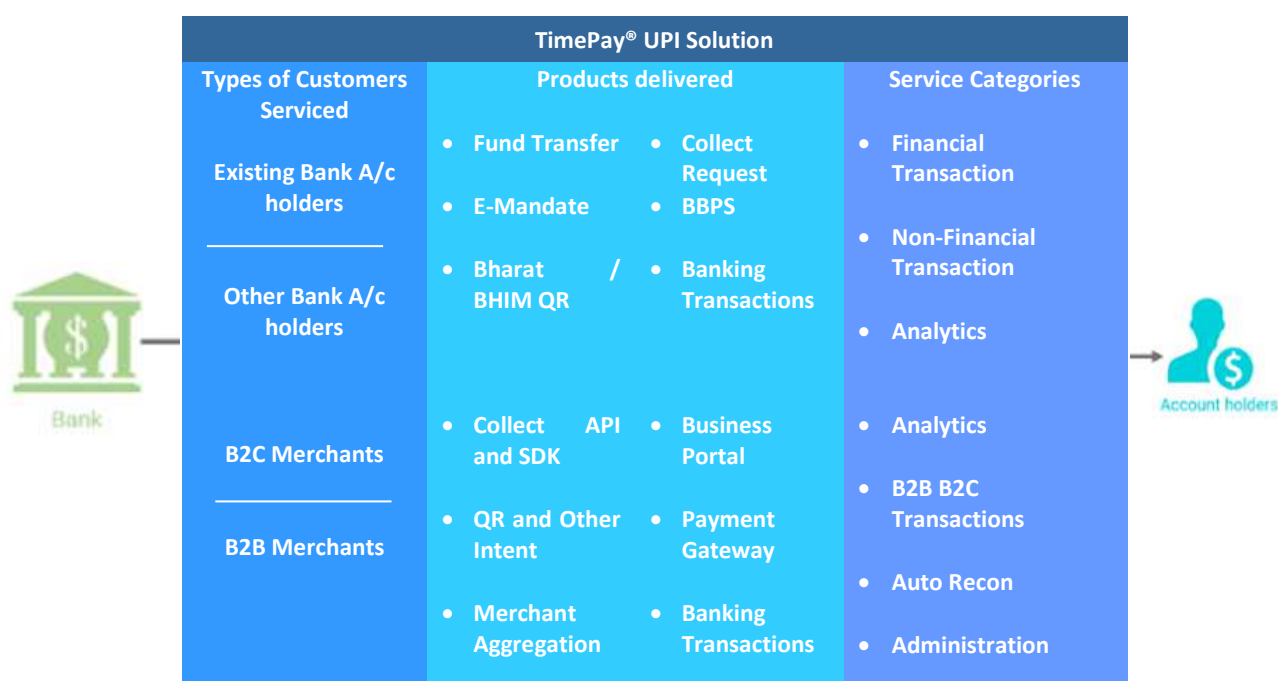

C. UPI (Unified Payment Interface) Switch:

Post demonetization, India moved a step closer towards becoming a cashless economy with the launch of Unified Payment Interface (UPI). UPI is one of the fastest growing retail payment instruments in India, surpassing several other instruments. With this new payment method, smartphones double up as virtual debit cards, and money can be sent or received instantly. It is an instant real-time payment system developed by the National Payments Corporation of India (NPCI) facilitating inter-bank transactions. UPI is a system that powers multiple bank accounts into a single mobile application (of any participating bank), merging several banking features. One can make real-time bank-to-bank payments, and even transact using Aadhaar number, mobile number, or virtual payment address (UPI ID).

With the need for growing demand for digital transactions, we have developed a robust solution for UPI as per the NPCI's guidelines, which are currently provided to Canara Bank, Kerala Gramin Bank, Karnataka Gramin Bank, and Cosmos Co-operative Bank. The solution enables our customer banks to connect with interbank transaction systems, thus helping them provide the facility of immediate payments and collection through mobile channels to their end customers. We are managing more than 50 lakh transactions per day.

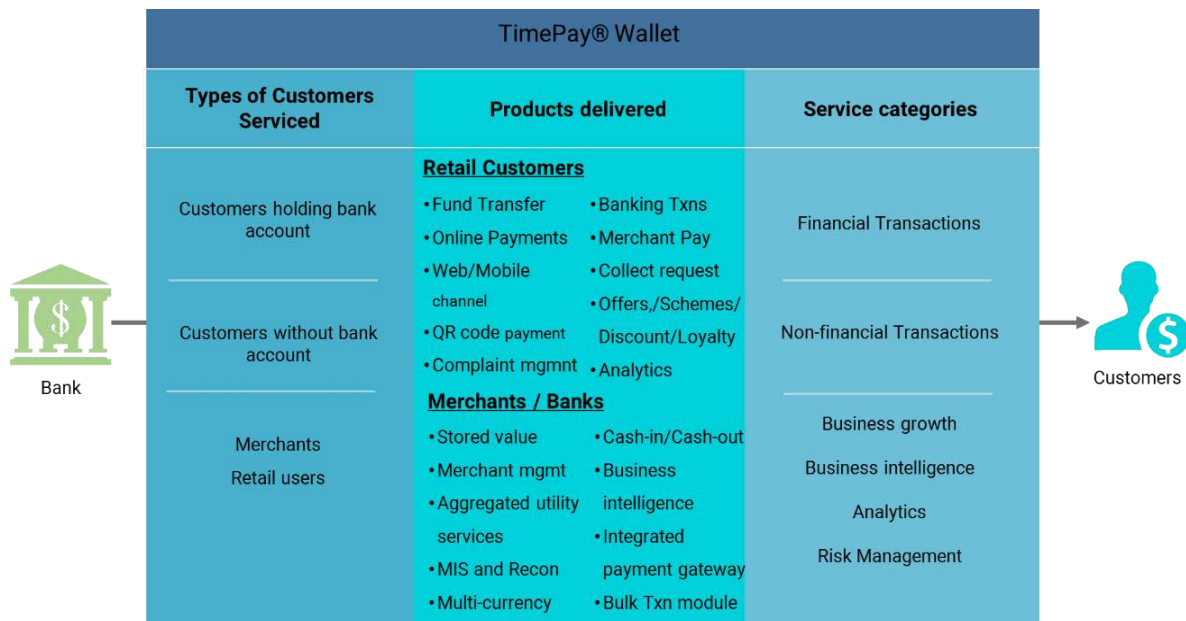

Along with above, we have given a new shape to our UPI platform by bringing merchant scope to its existing system. Our platform will cater to four sets of merchant base:

- 1) **Offline Merchants:** Merchants that require QR based POS solution to accept payment and application support to manage transactions.
- 2) **Society / Community:** Merchants that require collection service. These Merchants include housing complex, commercial complex, Credit co-op societies, School, Gym, Collection agencies, etc.
- 3) **Transit:** Merchants in transit segment requiring QR based POS solution to receive payment from commuters. They will also require application for managing transactions.
- 4) **SME / Open API segment:** These are business entities requiring payment platform for collections and reconcile the overall receipts. These business houses struggle with managing large volume of transactions through payment gateway.

D. **Wallet Solution**

The Wallet solution allows the customers to perform multiple payments and transfers offered by banks and e-Commerce service providers through digital wallet account. The solution offers client to maintain the wallet account in the system. Transactions can be performed on these wallets by partner websites and/or by the customer directly by utilizing the services offered by the host. The solution also offers the flexibility to provide services either directly or in assisted mode by defining a hierarchy of users in the wallet ecosystem.

Our Company core system provides basic services to all other solutions. Following are the major features offered by this module:

- **Registration** - The module is responsible for registration of internal users like administrators, helpdesk users. However, the design is such that more type of users can be added depending upon the requirement in the solution like agents, sub-agents etc.
- **Authentication / Authorization** - This module provides the authentication and authorization services to other applications/sub-systems.
- **Limit Management** - This module defines the limits/thresholds for different type of users in application. The parameters that are used to define are daily/weekly/monthly limits for count and number of transactions.
- **Fees / Commissions** - This module defines the fees and/or commissions that will be applied on different type of transactions.
- **Profiling** – This module allows defining multiple profiles for the customers interacting with the system. Profile is a unique way to classify customers with different features/options/commission structure.
- **OTP** - This module is responsible for issuing and validating using one-time passwords against the requests issued.
- **Notifications** - The information that has to be sent out for a transaction is managed by notifications for sending out the messages like email, SMS.
- **External Interface Layer** - This module is responsible for integrating with the external systems like billers / bank gateways / third parties etc. This module has to be customized as per the environment of the customer.

When it comes to types of wallets, they can be bifurcated based on the following:

1. **Agent wallet** - The system offers additional features which allow the system to be used in assisted mode. The solution allows more channel users to be configured and added into the system like agents, merchants etc. These can be configured based upon the business model of the respective client. Agents / merchants act as the touch points for end customers for doing transactions. Agents can support transactions like cash in, cash out, complete cash out. Merchants can be on-boarded by the client to facilitate payments via wallet for the purchases made by customer. All these features are available in the wallet portal. The same can be made available in the mobile application too after discussion with the client.
2. **Mobile Wallet** - Mobile app-based wallet for transacting across various models including m-commerce, peer to peer payment, merchant payments, etc.
3. **Web wallet** - One of the biggest strengths of the system is that the solution also comes up with ready-made APIs that can be made available to the integrating merchants who do not want to use the application of client but want wallet to be one of the payment options in their application/portal. For such a scenario, the system shares multiple APIs enabling payment integration and transaction history.

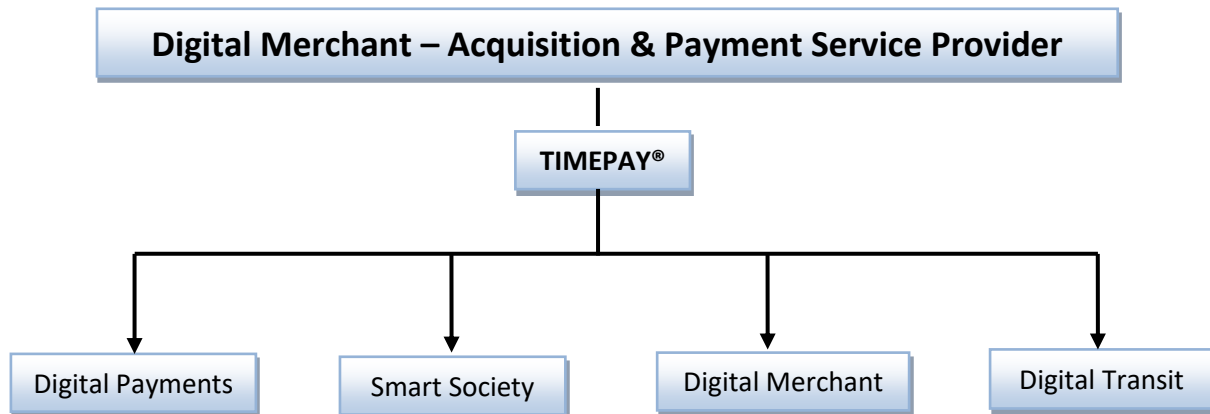

Apart from the above, we have an additional module where wallet user base can be created other than merchants and agents. These are the end users in the wallet ecosystem. They will utilize the e-money for various transactions including multiple utility services.

E. **Software Service:**

Considering the availability of technology stack and quality resources, our company provides various software service varying from design, consulting, development, quality and manpower provisioning under software SDLC. Our team has expertise around switch development, frontend interface, native application as well as support services. Considering the fact that we deliver client on SaaS model, we have a complete stack that also takes care of the infrastructure management – both on premise and cloud.

We have been delivering projects across various segments in India and abroad. You may refer to **Software Development Life Cycle** section that will provide complete lifecycle about our service delivery.

TIMEPAY®- OUR FLAGSHIP PRODUCT

TimePay® is a digital ecosystem which is designed to offer a complete solution for home owner on its mobile phone by integrating banking services, society services, doorstep merchants, hyper local services, property management and digital payments on a single platform.

The merchant modules in TimePay will offer complete digital platform for service providers and merchants to manage, operate and grow its business. On the other hand, it provides complete ERP to society and large communities to manage, account and operate its requirement digitally. Digital Payment and transaction remain the backbone for the entire delivery mechanism. It manages financial and critical services with various stakeholders in the ecosystem. The application has been built with highly secured banking platform and delivers comprehensive solutions.

We have taken a two-pronged approach for achieving the goal of creating digital ecosystem:

- Develop and provide Digital technology to Service providers (Merchants).
- Create integrated application for users bringing all the services in a single app.

Our company has entered into an agreement with Cosmos Cooperative Bank to act as Payment Service Provider (PSP) and Merchant Payment Service Provider for the bank. For the details on this

agreement, terms and conditions, please refer to the heading titled **“Collaborations”** in chapter titled **“Our Business”** beginning on page 192 of this Red Herring Prospectus.

Some features of TimePay® are given below:

A. Digital Payments

Our company has developed payment platforms which consist of a single interface for all types of payment channels. Over past five years, with millions of daily transactions, our company has been able to build a highly scalable and integrated module for banking segment. Multiple payment switch has been integrated together for creating a single interface required for users and merchants.

This entire product suite will be implemented in TimePay digital platform building a robust payment solution for every segment our company is targeting in merchant ecosystem including offline merchants, SME and API based merchants, societies and transit segment.

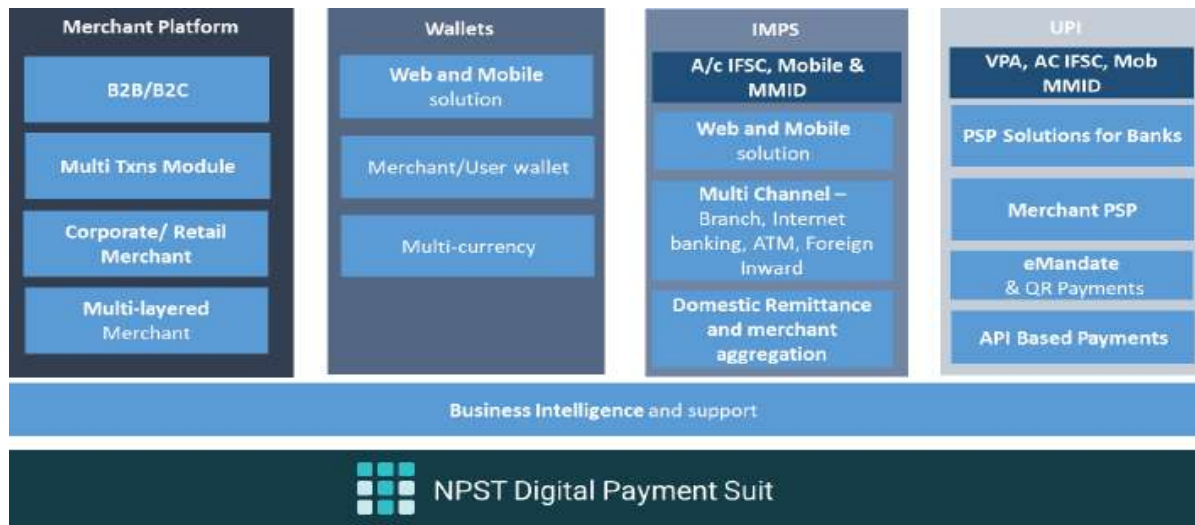

Third Party Application Providers (TPAP)

Our company entered into a Tripartite agreement dated February 05, 2020 with National Payment Corporation of India and The Cosmos Co-operative Bank Limited to registered as Third-Party Application Providers (TPAP) facilitating UPI payment services to the customers in UPI ecosystem through TimePay. TPAP is a service provider to PSP (payment service providers) and participates in UPI through PSP. PSP is banking company that is a member of UPI and connects to the UPI platform for providing UPI payment facility to the PSP and TPAP which in turn enables the users and merchants to complete payment transactions over UPI. Users can either create an account through PSP or TPAP or link their account to their UPI ID. Our company has entered into PSP agreement with Cosmos Co-operative Bank. As on the date of filing this Red Herring Prospectus, there are 16 TPAPs approved by NPCI.

Our Company own payment handle is styled as **“@TimeCosmos”** in partnership with Cosmos Co-operative Bank. Payment handle is a UPI handle which means all the financial transactions will be carried under our Payment Solution application TimePay and ownership will be with our Company.

Merchant Solution

Merchants providing services to customers can take and advantage of a single interface for their customers which is layered with multiple solutions including banking, business and operations module.

There are three sources of using TimePay payment solution:

1. Open / Customized API based
2. Mobile App and Portal
3. Physical QR

- **API based web collect platform:** Merchants can integrate payment API in their existing mobile application or portal to collect or raise payment request to their customers. Furthermore, the accountability against each web collect is maintained by TimePay platform.
- **Dynamic QR based payment API:** Merchants can integrate API for generating dynamic QR on their platform against every invoice or collection raised. The solution will give real time QR based payment solution for every transaction a merchant does. Furthermore, the accountability against each QR is maintained by TimePay platform.
- **Static QR based payment API:** Merchant can generate fixed QR for various transaction requirements where flexibility to edit, change or manage payment is at customer's end.
- **Downloadable Static QR:** For most of the micro merchants or those who do not have the ability to integrate the payment solution, TimePay offline merchant platform is provided to these merchants. This platform will provide ready to use QR solution for user transactions. This platform will also provide the facility to reconcile and manage the payments and its accountability.
- **Downloadable dynamic QR:** The platform will provide ability to merchant to manage its collection requirement by providing a portal for generating real time dynamic QR for every transaction or parameters as defined by merchants.
- **Web collect solution:** In absence of API, merchant can utilize the dynamic TimePay portal that provides the flexibility to generate payment request and link payment request to the invoice and such other payable instruments.

- **Remittance:** IMPS based remittance platform provided to merchants for fund transfer at retail counters. This provides ability to bring in financial services from merchants to its customers.
- **Mandate:** For several merchants who work on the credit modules and provide facility on future payments, TimePay provides an amazing feature of creating pre-scheduled mandate, one-time transactional mandate or recurring mandate. This is a potent and innovative payment instrument for business expansion.
- **Wallets:** TimePay provides web and mobile based wallet solution to merchants to transact for the assisted services required by the customers. Wallet is linked to various services available on this platform.

Below are some of the value addition TimePay provides to merchants over its payment platform transactional payments and collections.

1. Auto calculation of amount:
2. Invoicing generation
3. Interest and penalty calculation
4. Configuration for reminder and payment:
5. Real time or scheduled payment option:
6. Partial payment
7. Recurring payment
8. Receipt
9. Reconciliation

Why should one trust TimePay Digital Payments?

B. Smart Society

Demonetization in 2017 empowered digitization and cashless payments in India which made transformation in several ecosystems. Yet, there are some ecosystems that still work in isolation. One such ecosystem consists of housing societies, commercial and industrial complexes where activities are managed by individuals, managing committees, or various service providers which involves multiple activities such as handling complaints, accounting and financial services, building security, staff management, critical notices and communications, arranging meetings and raising bills. Society being a micro ecosystem does not savor the fruit of digital revolution the country is embraced with.

TimePay smart society will provide a comprehensive solution to the above problem and creates a digital network for various stakeholders.

It has several modules as follows-

- **Admin Module** - With gated communities expanding like never before, the number of individuals responsible to submit their maintenance dues is going up steadily. With the advent of **TimePay**® smart society application, society management and accounting will become easier. Now society committee can manage operations on their fingertips through **TimePay** most advanced automated process. Features include:

- One – time and recurring maintenance configuration
- Share announcements / circulars / documents with single click
- Track and resolve member complaints
- Schedule meetings and events with calendar management
- Payment through UPI / NEFT / Cash / cheque
- Customized reports (for defaulters, property ownership, payment, receipts, Interest applicable)
- Safety of zero touch

- **Residents Module** - TimePay has introduced home living services in a single platform connecting users with their own society, local merchants, property let out with zero brokerage and many more. Features include:

- Timely reminders to pay your society bill
- Pay all your bills online– maintenance / monthly vendors / staff / local merchants
- Get localized services on your mobile application
- Request for society applications and digitize your documents
- Receive notification and alerts for announcements and society circulars
- Platform to discuss society issues and raise your concerns with track records
- Online records & receipts for payments and transactions

- **Payment Module** - Payment will be the backbone of this system and it remains the USP for the revenue generation, business model and ease of transaction for the users. Our company registered as a Third-Party Application Provider (TPAP) by NPCI, will be integrated in the application allowing users to do banking transactions. Other than solutions such as Scan and Pay, send money, collect money, utility payments, merchant transactions, it will also provide accessibility to link bank account with Invoice and collections raised by merchants, and allow a one step process to make payment. Society maintenance, other collections, application payments, community spend, household expenses, payments to doorstep vendors and local market, all are covered in the payment module with integrated banking solution through UPI.

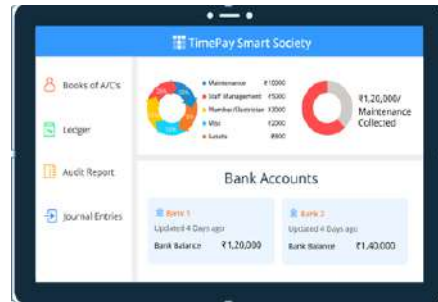

- **Security Guard Module** - TimePay will be transforming a society gate into a digital gate by securing it with passcode entries for guests. It will ensure that only visitors, delivery executives and daily staff approved by resident's gain access to the premises, enhancing security and unlocking a host of other benefits for the whole community. Features include:

- Secured device for gatekeeper
- Onboard gatekeeper and staff with KYC details
- Record and maintain visitor details on mobile to access anytime.
- Instant call / notifications to members for approving visitors
- SOS tab for panic alerts
- Biometric as well as QR based seamless entry & exit

- **Accountant Module** - Manual bookkeeping can be strenuous and prone to errors. In a manual system, the committee has to maintain multiple registers or ledgers. Calculating and compiling the balance sheet at the end of each financial year, is chaotic and most often has flaws. TimePay allows listing expenses under pre-set labels and can assist in tracking purchases made for society. There need not be several different registers to maintain different kinds of accounts or funds – single software to calculate all data and create an automated balance sheet; all ready for the auditor to review and receive approval. Features include:

- Auto-entry for book of accounts
- Audit reports
- Auto-reconciliation
- P&L and Balance sheet
- Manual entries for any additional expenses
- MIS for decision making
- Compliance management

- **FMS** - Good housing society management software can help streamline the facility management tasks to a great deal. TimePay will be full-fledged housing society management software that can streamline the facility management process much to one's relief. Get informed about any impairment, ill-maintenance, etc. at the earliest by the usage of the helpdesk facility. Members can directly raise a concern and society admin will get notified. The systems will auto-assign the task to the committee member pre-assigned for the nature of the job for the earliest redressal.

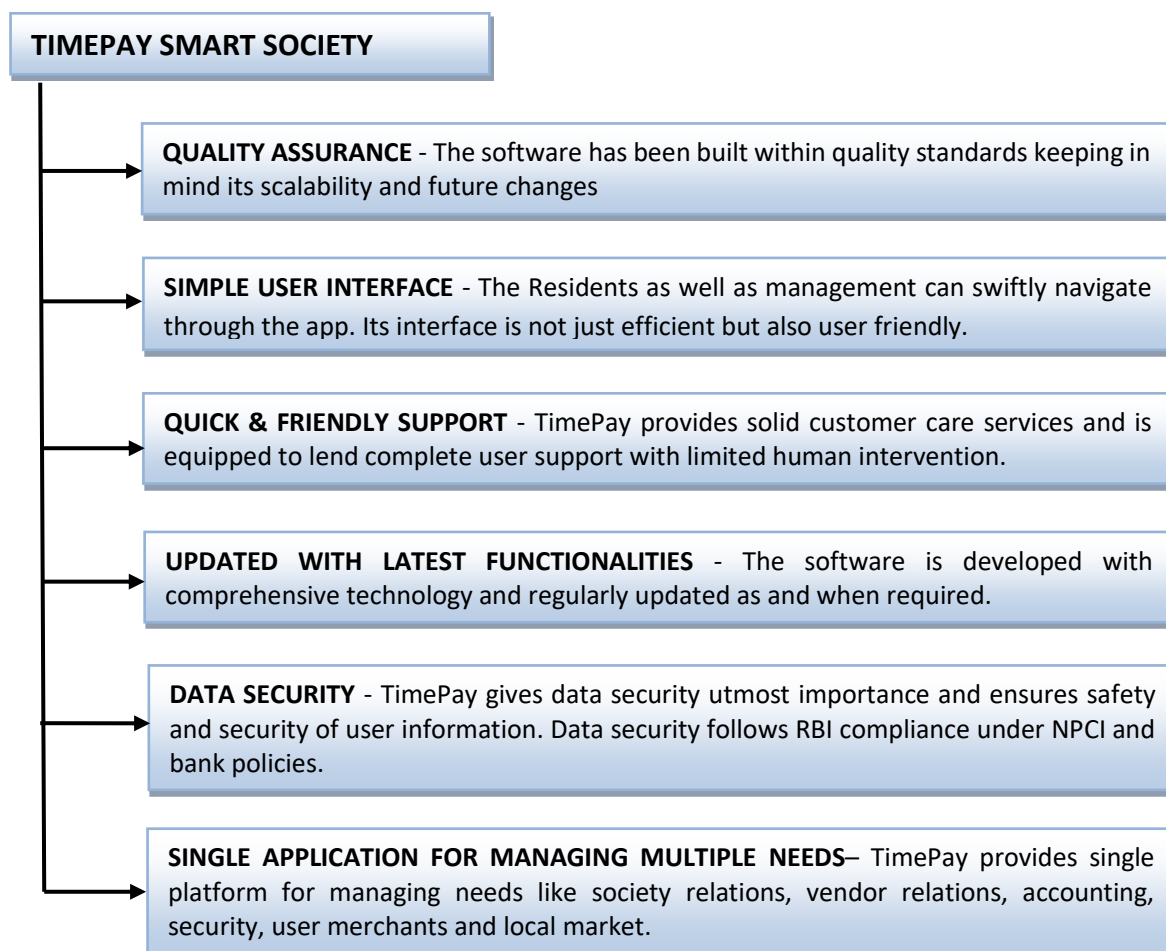

- Tracking common area maintenance
- Performance matrix of staff and society
- Society member connect for complaint management
- Monthly billings to society
- Interface for FMS team

C. Digital Merchant

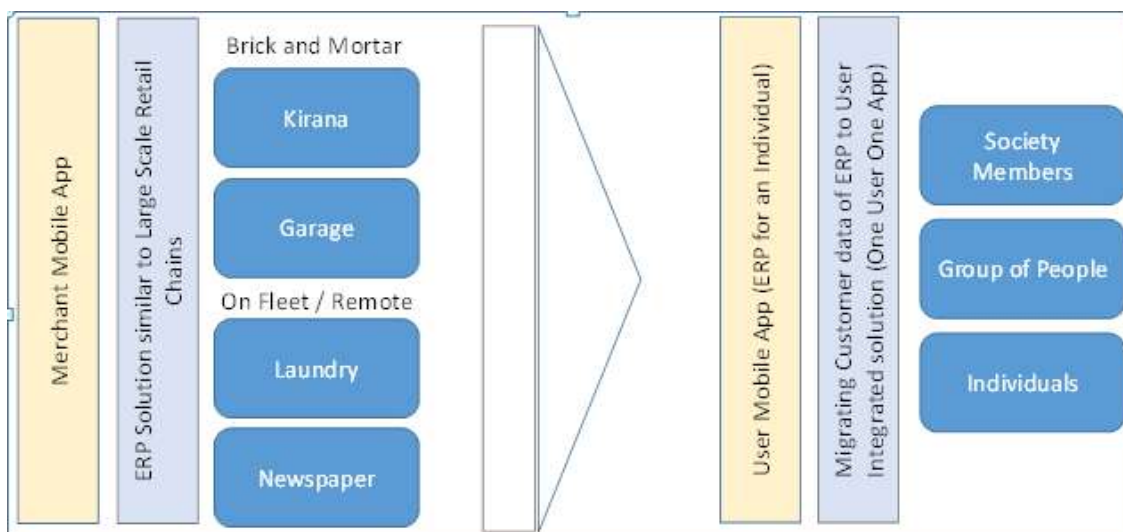

TimePay will be the next generation digital merchant platform that empowers offline merchants to grow using easy technology and connect with consumers to deliver seamless payment experience and merchant rewards. Merchant platform will be designed to digitize large, medium, small and micro merchants with technology enabled payment and business solution. This will help and improve their presence in market and empower them with an opportunity to scale their business.

The application will bring automation for merchants in sales and operations by providing a single platform for online orders, inventory management, invoicing, payments and reconciliation, and customer management. The application will empower merchants to scale business by increasing delivery capability and manage customers efficiently to compete with online business. We have tied up with one of the banks for delivering digital solution to merchants and is backed with digital Payment's platform. The solution will be an open platform where any merchant can easily get their KYC done and get on boarded on the digital platform. It's a web and mobile based solution that does not require any technical integration, knowledge or education to enable a merchant with digital solution.

TimePay recognized the challenge of running day-to-day business and serving customers, making it hard for most offline merchants to keep up with technology. For every technology solution in the market: payments, marketing, operations, financing, data – there are many companies providing solutions in isolation; which makes the technology cost higher for merchants and complex to integrate with other solutions. The founders saw an opportunity to pivot into go-to-app merchants because it had more intrinsic relevance for merchants and their

customers. TimePay will serve as a payment aggregator helping fully digitize payment acceptance and offering merchants more value add and more customer exposure through marketing, data, financing and operations. Merchants will now focus on what they do best for their customers; because everything else is taken care of.

D. **Digital Transit**

Our company has developed a cashless payment solution in the form of software for transit system which includes private and public bus operation, rickshaw and taxis. This product has been built for Canara Bank and has been implemented in the public city bus networks in the country having tremendous potential to scale. This software platform can be utilized by private bus operators which will include not just cashless transaction but also below services.

Need for digital payment in transit

- Avoid cash management
- Auto-reconciliation of cashless transaction
- Direct credit in the account
- Contactless travel
- Transparency
- Efficiency and reduced load for operators
- Focus on operations and not cash management

The solution offers the following transactional and operational modules under transit solution.

- QR POS
- Integration with existing transit system
- Secured access and control for admin management
- MIS and resource control
- Accounting and settlement system for reconciliation
- Payment notification application for bus conductor, rickshaw and taxi driver
- Mobile app-based reconciliation and reports
- Managing depot wise payment collection

It's a readily available platform for immediate implementation with NO change in existing systems used by state and district buses

SOFTWARE DEVELOPMENT PROCESS FLOW

Software development methodology is followed to ensure high quality of software product/ applications is delivered to our customers. We have divided this in two parts which are focused on two different methodologies followed in our company.

- 1. Standard Software Development Methodology based on SDLC (Software Development Life Cycle)** – In this each phase has its own importance and relevance.
- 2. Agile Methodology** – In this we ensure to give at least one release every month which should have new features and better quality than the previous release.

1. Software Development Life Cycle:

- **Requirement & Planning Analysis:** Requirement analysis is the most important and fundamental stage in SDLC wherein the requirements are understood and gathered, like what to build, who will be the end-user, what is the purpose of the product, etc. This information is then used to plan the basic project approach and to conduct product feasibility study in the economical, operational, and technical areas. Before creating a product, core understanding is significant. Planning for the quality assurance requirements and identification of the risks associated with the project is also done in the planning stage. The outcome of the technical feasibility study is to define the various technical approaches that can be followed to implement the project successfully with minimum risks.
- **Defining Requirements:** Once the requirement analysis is done, the next stage is to surely document the software specifications and get them approved by the project stakeholders. This can be accomplished through documents like “BRD/ FRD”- Business/ Functional/ Non- Functional Software Requirement Document, project plan, test plan, requirement trace ability matrix, etc., which embraces all the product elements to be created and developed during the project life cycle.
- **Designing:** In this stage, the requirement gathered in the “BRD/ FRD, used as a reference for product architects to come out with the best architecture for the product to be developed. Based on the requirements specified in FRD/BRD usually more than one design approach for the product architecture is proposed and documented in a DDS - Design Document Specification, which is reviewed by all the important stakeholders and based on various parameters as risk assessment, product robustness, design modularity, budget and time constraints, the best design approach is selected for the product. A design approach clearly defines all the architectural modules of the product along with its communication and data flow representation with the external and third-party modules (if any). Each document created may tend to change and get updated in incremented way depending on the revised requirements.

- **Building or Developing the Product:** In this stage of SDLC, the exact development begins, and the programming is built. The execution of design begins concerning script code. Developers have to follow the coding guidelines defined by their management, and programming tools like compilers, interpreters, debuggers, etc. are used to generate and implement the code. Different high-level programming languages such as C, C++, Pascal, Java and PHP are used for coding. To ensure the CI (Continuous Integration) and CD (Continuous Development) is achieved, tools for code management and integration are used.
- **Testing:** This stage is usually a subset of all the stages as in the modern SDLC models, the testing activities are mostly involved in all the stages of SDLC. After the code is generated, it is tested against the specifications to ensure that the products are solving the needs directed and inferred during the requirement stage. During this phase, several testing like unit testing, integration testing, system testing, and approval testing are done and product defects are reported, tracked, fixed, and retested, until the product reaches the quality standards defined in the Test Plan. Test Management Tool and Bug Tracking Tool are some of the well-known tools used in this process.
- **Deployment and Maintenance:** Once the product is approved, and no bugs or errors are asserted and ready to be deployed, it is released formally in the appropriate market. The product may first be released in a limited segment and tested in the real business environment (UAT- User acceptance testing). Then, based on the feedback, the product is delivered as it is or with suggested enhancements in the target market segment. Once the client starts using the developed product, then the real issues start coming up. In this stage, the team is required to fix the issues, roll out new features and refine the functionalities as required. The maintenance is done as per the customer contract / agreement.

2. Agile Iteration Workflow/ Scrum Development Methodology:

The agile software development lifecycle is dominated by the iterative process. Each iteration results in the next piece of the software development puzzle - working software and supporting elements, such as documentation, available for use by customers - until the final product is complete. Each iteration is usually two to four weeks in length and has a fixed completion time. Due to its time-bound nature, the iteration process is methodical and the scope of each iteration is only as broad as the allotted time allows.

Multiple iterations will take place during the agile software development lifecycle and each follows its own workflow. During an iteration, it is important that the customers and business stakeholders provide feedback to ensure that the features meet their needs.

A typical iteration process flow can be visualized as follows:

- **Requirements** - Define the requirements for the iteration based on the product backlog, sprint backlog, customer and stakeholder feedback.
- **Development** - Design and develop software based on defined requirements.
- **Testing** - QA (Quality Assurance) testing, internal and external training, documentation development.
- **Delivery** - Integrate and deliver the working iteration into production.
- **Feedback** - Accept customer and stakeholder feedback and work it into the requirements of the next iteration.

REVENUE MODEL

IT SOFTWARE & SERVICE – BANKING & PAYMENTS SEGMENT AS A TECHNOLOGY SERVICE PROVIDER

Usually, IT products are made with certain investments which are initially borne by the Company. As an organization, we invest in the product. Later we reach out to clients having various requirements. We provide this solution to our customers under various business models which includes:

- a) License-to-use
- b) Pay-per-use

Product is sold in the market as per customer demand, for instance, large scale organization will set up data center and buy product on “License-to-use” model whereas smaller organizations rely more on cloud and avoid large scale investment and buy the product on “Pay-per-use” model.

Explained below is the model under which we sell our product in market.

A. License Model

This model provides platform to bank and continue to service basis license, manpower, change request and AMC cost.

- **License Cost:** Products are created based on universal requirements of the industry. Initially the product is provided to customer on the basis of the scope defined by them. The customer may have certain additional requirements in comparison to the core product. For instance, mobile banking solution provided by us may have 20+ functionalities whereas the requirement by the customer may be specific to only 15 of the existing functionalities along with five others which may not a part of the existing product. In such case, we provide the license of existing product at certain calculation which can be user-based, infrastructure-based, version-based, etc. suited best as per the customer use and the customer then pays for the license to use the product
- **Customization Cost:** When the product is re-developed or existing product is customized to include new functionalities to work for the customer's business, a separate cost paid for the product which undergoes certain development as per the specifications of the customer.
- **Integration Cost:** The additional efforts for integrating the existing product provided by us with clients existing solution, requires integration cost to be paid by customer.
- **Annual Maintenance Contract (AMC):** Once the solution is deployed and integrated in the client's business, regular maintenance is needed to be done to ensure quality functioning of the product. This maintenance cost is usually paid quarterly / half yearly / yearly or as agreed upon with the client.
- **Development / Change Request:** Beyond the existing functionalities of the product, there are several other developments which are required to be upgraded in the product in order to maintain the industry requirements / standards and manage customer expectations which are regulatory and / or operational in nature. These improvements in the product are outside the scope of work and occur during the operation period. This is paid as per pre-defined engagement such as per man-hour, per man-day or per man-month.

B. Pay Per Use Model

This model provides platform to bank along with hardware, software, manpower, maintenance and service cost and the client pays on pay per use model. We create projections, break-even period and margin before investment and define per transaction or per-use cost with best possible commercial and technical feasibility to client.

- **Investment:** The solution requires investment at initial stage which can be recovered over a period of time. The organization invests on the basis of the overall revenue projections and scope to be covered for cost. Though we are a software company, but the client expects complete solution from us which includes hardware, software and services. Initial payment is negligible, instead the payment is made over a period of time as and when the transaction and business grow.
- **Infrastructure cost:** Infrastructure cost is the preliminary and major investment in some cases. In case the client does not want the infrastructure to be built outside their secured premises, we invest in servers, security and all the other hardware requirements and install

at their desired premises. Whenever the client is ready for the cloud service, we include the cost of cloud infrastructure in the pay-per-use model.

- **Software cost:** Software cost is also covered in this model. Client does not invest in the software also and the same is installed by us. This cost is borne initially by us and later on recovered from the client over a period of time.
- **Services:** As per the agreement with the client, all the development, customization and manpower support are either bundled in the pay-per-use cost or paid separately as out of scope services.
- **Integration cost:** Integration cost in initial deployments is either paid separately or gets bundled in pay-per-use model depending on the contract with the clients.

TIMEPAY® - MERCHANT ACQUISITION & DIGITIZATION SEGMENT AS A FINTECH PARTNER WITH BANK

A. B2B Model

Strategic tie up with industry partners such as banks, auditors, etc. and includes the following:

- **Technology Integration:** This includes integrating with the existing system of the business partner. Revenue can be generated through integration cost paid by partner.
- **Revenue Sharing Model:** Certain basic services such as monthly charges to business partner's customers or convenience fees on transaction will be shared between TimePay and the business partner.
- **Additional Income:** All the value-added services beyond the scope of partner-service agreement will be added revenue for TimePay which does not require any revenue sharing.

B. B2C Model

This includes direct sales to societies through field marketing. Sales team has been created to target geographies and focus on direct sales to societies and merchants. This model further includes:

- **Per user base:** Product was initially conceptualized on per user base charges. The shift in pricing in industry business model has resulted in dropping off per user base model from the sales pitch. This model will still continue to hold ground as and when the product utilization increases and the industry shifts towards user-based costing. Our initial societies are still covered under this model. It gives flexibility to societies to enjoy multiple services at no additional cost.
- **Per month cost:** Product is made available to customer on monthly charges. This is the most acceptable solution to societies and we are currently selling as per-monthly model. There are three different models made available to the societies under monthly model:
 - **Basic Plan:** Entire software with all the features including society management, maintenance and accounting solution will be made available under this model at fixed monthly cost. This cost will be charged for software only.

- **Standard Plan:** All the features under basic plan and hardware device for secured entry and exit solution is provided on monthly rental cost. The charges for standard plan include charges for software and monthly device (hardware) cost to society.
- **Premium Plan:** The idea of premium plan is to take the complete responsibility of the society management including a society manager. This plan will include entire software features, hardware device for secured entry and exit and manpower made available on premise.
- **Convenience Fees:** This mode is under development. In this mode the society will not be charged for the software but convenience fees for every transaction will be charged to the user. Such decisions can be taken on ownership of payment platform when no revenue is shared with the payment gateway. Being a merchant PSP, we have advantage of generating this revenue without sharing anything with payment gateway.

C. Add-on services

There are further add-on services like:

- **Merchant Commission:** Since we are in the business of merchant aggregation, the solution will bring multiple merchants on the platform. Increase in business source for merchants will provide an opportunity to charge merchants through commission model.
- **Service and Product sales:** The platform will give an access to several hyper local services and on-premise merchant as per need. This demand will be fulfilled by the TimePay digital merchant module. Such services will generate sales revenue resulting in TimePay revenue share on merchant transaction.
- **Convenience fees from Merchants:** Availability of payment feature will allow charging convenience fees from merchant for the raised orders.

D. Revenue through Digital Merchant

Digital merchant platform will provide greater access to banking services including financial and non-financial transactions to merchants at no cost model. This is the foundation of any digital business. Additional to banking services, the platform provides business growth services and operations platform. All of these solutions will be available with flexible technical and business model. Furthermore, this platform extended to merchants will generate revenue through below sources

- **Transaction revenue:** Every order booked through this platform will command certain discount from the merchant. This discount will be the revenue generated for TimePay®
- **Convenience Fees:** Charging convenience fees on certain value of transaction from the customers.
- **Premium services:** Merchant will be provided with standard feature of business operations on digital platform. Some of the product features such as loyalty program, discounting, promotions, business analytics, books of account, etc., will be made available as paid subscription

- **Annual Charges:** Continuity of business will depend on platform usage in long run. Since TimePay will acquire customers, it will command annual charges on usage of platform from subsequent years.

All the above are visible revenue models. These may vary as per industry demand and dynamics where TimePay really holds command is the acquisition of user as well as merchant base. This will remain as golden source of data and continue to build multiple services and revenue model around it.

BUSINESS MODEL

IT SOFTWARE AND SERVICES

One important aspect of this business is to create some presence in the client premise and stay invested. There are several new business opportunities that arises with market demand and change in industry landscape. Being innovative is the key to growth and survival.

TIMEPAY® - MERCHANT ACQUISITION & DIGITIZATION

The objective is to digitize offline merchants by providing payment and business services. TimePay platform will convert all the offline current accounts into a digital biller for bank to generate additional revenue from these accounts.

So critical milestones in the business operations are:

- A. Acquisition:** Acquisition is the most critical factor to start the business since we have ventured into merchant acquisition business. Our company needs to invest in acquisition of merchants with:
- Special offer for on boarding
 - Follow pay-per-use model where returns are expected in future
 - Strategic tie-ups with banks, auditors and similar entities
- B. Transaction:** Option to transact for multiple services will bring customer to our platform more often. This will increase the transaction count and further possibility to increase revenue options.

Our company, over last 3 years, has invested in TimePay® building the entire business vertical. The investment is not just specific to product development but includes below business operations:

- Software – switch and application
- Enhancement and performance
- IT infrastructure, policies and security
- Business process
- Creating product relevance in market
- Go-To-Market
- Sales structure and model
- Operations structure and model

Roles and obligations of NPCI, PSP and TPAP have been explained in detail in the agreement, some of the other important features are given hereunder:

I. Purpose

NPCI shall provide UPI platform to PSP and the TPAP shall be entitled to use UPI platform through PSP as per the terms and conditions specified by NPCI. TPAP facilitates online payment transactions between the payer / remitter and payee / beneficiary by directly reaching out to the users to download the digital applications. TPAP have agreement with PSP (as mentioned above) by virtue of which they are able to facilitate online transaction using UPI platform by linking the account of the payer / remitter and payee / beneficiary to ensure successful transaction completion.

II. Term of Agreement

The terms and conditions of the agreement shall be contractually binding from the date of the agreement for perpetuity, unless terminated in accordance with the provisions mentioned therein.

III. Termination

- NPCI shall have the right to terminate the agreement with the PSP and/or TPAP without any prior notice on account of non-compliance of Applicable Laws and/or Procedural Guidelines of NPCI.
- NPCI, PSP or TPAP may elect to terminate this agreement for convenience by providing a notice of termination in writing to the other parties. The termination will become effective within 90 days of issuance of such notice.
- NPCI shall have the right to terminate this agreement by giving an advance written notice of 90 days to PSP and TPAP, in the event PSP and/or TPAP commits a breach of any provisions contained in this Agreement and after receipt of a written notice specifying the breach or default, PSP and/or TPAP fails to remedy the breach within a specified period of time set forth in the said notice, which period of time shall be reasonable taking into account all relevant circumstances.
- If bankruptcy or insolvency proceedings are instituted against the other party and such proceedings are not dismissed within 30 days from the date of proceedings or the other party makes an assignment for the benefit of its creditors, in the event that a party loses the eligibility to continue business, the agreement shall stand terminated forthwith. However, such forced termination shall be subject to the exception that the Agreement shall remain in force for a further period not exceeding 6 months from the date of cessation only for the purpose of resolving disputes, if any, in existence or raised during the existence of the Agreement.

Apart from the above, our Company has also entered into strategic alliance agreement on August 23, 2017 along with addendum agreement dated October 28, 2020 with TJSB Sahakari Bank Ltd. (“**TJSB Bank**”) which has received authorization from Reserve Bank of India under Payments and Settlement Systems Act, 2007 to function as Bharat Bill Payment Operating Unit (“**BBPOU**”). Details of the alliance agreement are given below:

I. Purpose

The main purpose is to stipulate the roles and responsibilities of both the parties to the agreement and to on-board Agent and Sub-Agents for carrying out bill payment collection services under BBPS, regulating and complying with requirements and obligations of Bharat Bill Payment System (“**BBPS**”) operated by NPCI i.e., Bharat Bill Payment Control Unit (“**BBPCU**”).

II. Term of the Agreement

Agreement shall be effective for three years from the date of execution of the Addendum (28.10.2020) and shall continue to be in force unless terminated earlier in accordance with the terms and conditions stipulated under the agreement. The agreement is subject to renewal for further period or periods as agreed between the parties by mutual consent in writing.

III. Commission and Fees

The net retention of the commission amount for bills collected at Agent and Sub-Agent counters of NPST should be shared in the following manner:

NPST	TJSB Bank
80%	20%

IV. Termination of the Agreement

Either party shall be entitled to terminate the agreement with prior notice of 30 days in writing on the other party, without assigning any reason.

MARKETING STRATEGY

Marketing is an important function of any organization and our company is no exception to it. We have deployed a team of efficient marketing professionals for the marketing and promotion of our products. Our success lies in the strength of our relationship with our clients who have been associated with our company since a long period of time. Two of our promoters Ashish Aggarwal and Deepak Chand Thakur through their vast experience and good rapport with the clients owing to timely delivery of quality products play an instrumental role in creating and expanding the work platform for our company.

Over the years we have established a strong customer base and an unyielding marketing setup. Given our focus on customised application development and the needs of our customers, we believe our IT professionals play an integral role in engaging with customers on potential business opportunities. We believe that the sales model has been effective in promoting repeat business and growth from within our existing customer base. In addition to effective customer management, we believe that our reputation as a premium provider of software product development services drives additional business from inbound requests and referrals.

We have a dedicated team that oversees the marketing of different types of products for various geographical locations. Our team continuously carries on research on the open tenders in the market and keeps an eye on the various new opportunities prevailing in the market etc. for further business opportunities.

Regular interaction is ensured not only to maintain the client base but also to gain insight into the design and specification needs of our diverse clientele. With large sales potential, year-round production, some extent of backward integration and availability of professional & technical expertise of our promoters, we plan to grow geographically in the foreseeable period of time.

Our marketing strategy includes:

- Advertisement and sales promotion through direct marketing and communication with the other industries which are still untapped.
- One to one meeting with new clients.
- Word of mouth from our existing clients.

We have an effective feedback system in place for our clients regarding our products which help us in improving and maintaining the excellent quality of our products and achieving desired level of customer satisfaction.

BUSINESS STRATEGY

Our vision is to become a leading fintech platform providing digital technology to large, medium and micro setups to transact and operate seamlessly in financial value chain. We plan to implement the following strategies:

a) **Acquire user accounts and deepen key account relationships**

Over the years we have developed long standing relationships with our customers. We devote significant attention to being able to understand the behavior, preferences and trends of our customers through research and consultation process. We believe that this gives us a distinct perspective that we bring to our engagements. We also conduct periodic market surveys to identify upcoming technologies. With this approach, we aim to become a key part of our customer's operating and growth strategy, enabling us to serve our customers across multiple touch points and projects.

We plan to further enhance the functionality and features of our products and develop cutting-edge technologies to improve user engagement. We also intend to add more social elements to our platform, which will lead to greater interaction and better engagement. We are focused on continuing expansion of our relationships with existing customers by helping them solve new problems and become more engaging, responsive and efficient. By leveraging our creative and engineering capabilities, we work with our customers to create complete solutions, often involving custom, task-oriented user interfaces, integration and continuous delivery pipelines. We often use a blend of open source, commercial and custom technologies in order to optimize for cost, flexibility, sophistication and long-term sustainability requirements unique to our customers' environments.

b) **Further Investment in TimePay and our digital processes**

To deliver value to our customers efficiently, it is critical to create smart and agile solutions such as software and business architectures and process methodologies, which enable us to implement market-ready solutions for our customers in a timely manner. To this end, we intend to continue investing in our employees and increase our R&D capabilities, particularly with a view to create solutions in emerging disruptive technologies that enhance our ability to develop tools for leading our entry into areas such as payments and intelligent enterprises and developing products that address industry specific customer requirements.

c) **Build a household brand**

We will continue to build our brand through marketing and public relations activities in addition to the core word-of-mouth viral organic growth. As we expand our product portfolio, we also plan to internationalize our branding strategy in order to attract a more global user base. We are firmly committed to continuously expanding our corporate responsibility efforts, because they play an integral role in achieving our mission and create goodwill for our brand and products.

d) **Optimize reach through Merchant PSP business**

Our company has been a Technology service provider to banks adding digital payments strength to banks. Over last five years of continuous development and enhancement, we have not only built a strong technology portfolio but also developed business models and invested in being a Merchant business driver. We will not just stay rigid on usage of our platform but extend our payment platform to other businesses and startups leveraging our expertise in payments, creating larger business to business base and increase the domain penetration in non-existent categories of our company targets. This will increase the business and revenue scope with negligible investment but higher returns.

e) Achieve Top 5 positions in the digital transaction landscape in the country

Currently the entire UPI based transaction in the country is controlled by four Merchant PSPs including one PSP managed by NPCI. This leaves a huge space for new PSP to enter and capture larger base provided the digital payment solution is highly agile, solves new business problems, captures untouched market and creates higher adoption with ease of transaction. TimePay has been built with all of these parameters and achieving Top 5 position is not just the strategy but the mission statement for our company.

f) Penetration in international market

As and when we continue to deliver the banking solution and merchant platform, we have come across gap for this product in international markets. Not just the market with identical economy of India but also countries having advanced in digital payments and countries with low banking penetration has a need for Merchant platform. As and when the Digital payments opportunity grows in these countries, it will increase the opportunity to sell in these markets and create Merchant network as we intend to do in India.

g) Tap into Top 100 startups in India

We intend to tap into 100 best startups in India by continuing to expand our portfolio of digital products to meet the needs of our existing and prospective customers. We are targeting institutional partners on revenue share model. This allows us to reach out to captive customers having good credentials.

INSURANCE

We maintain a comprehensive set of insurance policies, which are ordinarily renewable. These policies include medical and life insurance for the employee of our company.

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain. The regulations and policies set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For details of such approvals, please see the section titled “Government and Statutory Approvals” on page 383 of this Red Herring Prospectus.

A. LAWS RELATED TO OUR BUSINESS

Micro, Small and Medium Enterprises Development Act, 2006

The Micro, Small and Medium Enterprises Development Act, 2006 was enacted in order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (“MSME”). As per the notification no. F. No. 2/1(5)/2019-P&G/Policy (Pt.-IV) dated June 01, 2020, the Central Government notified the following criteria for classification of MSME with effect from July 01, 2020: as a micro enterprise, where the investment in plant and machinery or equipment does not exceed one crore rupees and turnover does not exceed five crore rupees; a small enterprise, where the investment in plant and machinery or equipment does not exceed ten crore rupees and turnover does not exceed fifty crore rupees; and a medium enterprise, where the investment in plant and machinery or equipment does not exceed fifty crore rupees and turnover does not exceed two hundred and fifty crore rupees.

The Information Technology Act, 2000 (“IT Act”)

The IT Act was enacted with the purpose of providing legal recognition to electronic transactions. In addition to providing for the recognition of electronic records, creating a mechanism for the authentication of electronic documentation through digital signatures, the IT Act also provides for civil and criminal liability including fines and imprisonment for various computer related offenses. These include offenses relating to unauthorized access to computer systems, modifying the contents of such computer systems without authorization, damaging computer systems, the unauthorized disclosure of confidential information and computer fraud. The Information Technology (Amendment) Act, 2008, which came into force on October 27, 2009, amended the IT Act and *inter alia* gives recognition to contracts concluded through electronic means, creates liability for failure to protect sensitive personal data and gives protection to intermediaries in respect of third-party information liability. In April 2011, the Department of Information Technology under the Ministry of Communications & Information Technology, GoI notified the Information Technology (Reasonable security practices and procedures and sensitive personal data or information) Rules, 2011 in respect of section 43A of the IT Act (“**Personal Data Protection Rules**”) and the Information Technology (Intermediaries guidelines) Rules, 2011 in respect of section 79(2) of the IT Act (“**Intermediaries Rules**”). The Personal Data Protection Rules prescribe directions for the collection, disclosure, transfer and protection of sensitive personal data. The Intermediaries Rules require persons receiving, storing, transmitting or providing any service with respect to electronic messages to not knowingly host, publish, transmit, select or modify any information prohibited under the Intermediaries Rules and to disable such information after obtaining knowledge of it. Further, the Department of Personnel and Training under the Ministry of Personnel, Public Grievances and Pensions, GoI has proposed to introduce a new legal framework that would balance national interest with concerns of privacy, data protection and security. As part of our Company’s operations, we are required to comply with the IT Act and the provisions thereof.

Payment and Settlement Systems Act, 2007

The Payment and Settlement Systems Act, 2007 (“**PSS Act**”) provides for the regulation and supervision of payment and settlement systems in India and designates the RBI as the authority for that purpose and all related matters. Any person or entity desirous of commencing or operating a payment system needs to apply to the RBI for authorization under the PSS Act. Our Company has entered into Merchant Tripartite Agreement dated February 05, 2020 with National Payment Corporation of India, The Cosmos Co-operative Bank Limited wherein our company has been authorised to use UPI platform through Cosmos Co-operative Bank Limited and act as a Third-Party Application Provider to facilitate the online payments by users who download the digital applications made available by our company. Since, our company, as a Third - Party Application Provider is required to comply with PSS Act.

UPI Procedural Guidelines

The UPI Procedural Guidelines, 2019, as amended from time to time, (“**Guidelines**”) provides for the membership procedure, eligibility criteria for membership in the UPI Ecosystem, the various models in UPI, how the customers are to be onboarded and are framed under the provisions of the PSS Act. The Guidelines further covers matters such as the roles and responsibilities of the members and sub-members, settlement mechanism, compliance and regulations, audit rights by RBI and NPCI, etc. The Guidelines provides for role and responsibilities of a third-party application provider and as a third - party application provider, our company is required to abide by the guidelines.

B. STATUTORY AND COMMERCIAL LAWS

The Companies Act, 2013 & Companies Act, 1956

The Companies Act, 2013, has replaced the Companies Act, 1956 in a phased manner. The Companies Act, 2013 received the assent of President of India on 29th August 2013. At present, almost all the provisions of this law have been made effective except few to which extend the Companies Act, 1956 is still applicable. The Ministry of Corporate Affairs has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013. The Companies Act primarily regulates the formation, financing, functioning and winding up of companies. The Companies Act, 2013 prescribes regulatory mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies.

Indian Contract Act, 1872

The Indian Contract Act, 1872 (“**Contract Act**”) codifies the way in which a contract is entered, executed and implemented and implications of breach of a contract. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced, as amended from time to time. It determines the circumstances in which promise made by the parties to a contract shall be legally binding on them. Each contract creates some right and duties upon the contracting parties. The Contract Act deals with the enforcement of these rights and duties upon the parties. The Contract Act also lays down provisions of indemnity, guarantee, bailment and agency. Provisions relating to sale of goods and partnership which were originally in the Act are now subject matter of separate enactments viz., the Sale of Goods Act, 1930 and the Indian Partnership Act 1932. The objective of the Contract Act is to ensure that the rights and obligations arising out of a contract are honored and that legal remedies are made available to those who are affected.

Consumer Protection Act, 2019

The Consumer Protection Act, 2019 (“**Consumer Act**”), has repealed Consumer Protection Act, 1986 and provides for the protection of interest of the consumers and the settlement of disputes raised by

the consumers. The provisions of the Consumer Protection Act, 2019 have been made effective *vide* notification no. F. No. J-9/1/2020-CPU dated July 23, 2020 and notification no. F. No. J-9/1/2020-CPU dated July 15, 2020 as issued by the Central Government. The Consumer Act sets out a mechanism for consumers to file complaints against, *inter alia*, service providers in cases of deficiencies in services, unfair or restrictive trade practices and excessive pricing. A three-tier consumer grievance redressal mechanism has been implemented pursuant to the Consumer Act, at the national, state and district levels. Further, the Consumer Act established a Central Consumer Protection Authority to promote, enforce and protect the rights of consumers. If the allegations specified in a complaint about the services provided are proved, the service provider can be directed to *inter alia* remove the deficiencies in the services in question, return to the complainant the charges paid by the complainant and pay compensation, including punitive damages, for any loss or injury suffered by the consumer. Non-compliance with the orders of the authorities may attract criminal penalties in the form of fines and/or imprisonment.

Maharashtra Stamp Act, 1959

Every instruments/ document through which any right or liability is or purported to be, created, transferred, limited, extended, extinguished or recorded and is executed in Maharashtra are required to pay stamp duty under the Maharashtra Stamp Act, 1889 (“**Stamp Act**”). The Stamp Act provides for the imposition of stamp duty at the specified rates on instruments listed in Schedule 1 to the Stamp Act. Instruments chargeable to duty under the Stamp Act but which have not been duly stamped, are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments by certain specified authorities and bodies and imposition of penalties, for instruments which are not sufficiently stamped or not stamped at all.

Negotiable Instrument Act, 1881

In India, the laws governing monetary instruments such as cheques, promissory notes and bills of exchange, are contained in the Negotiable Instrument Act, 1881 (“**NI Act**”) which is largely a codification of the English Law on the subject. To ensure prompt remedy against defaulters and to ensure credibility of the holders of the negotiable instrument, a criminal remedy of penalty was inserted in the NI Act in form of the Banking, Public Financial Institutions and Negotiable Instruments Laws (Amendment), 1988 which were further modified by the Negotiable Instruments (Amendment and Miscellaneous Provisions) Act, 2002. The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honored by their bankers and returned unpaid.

The Registration Act, 1908

The Registration Act, 1908 (“**Registration Act**”) was passed to consolidate the enactments relating to the registration of documents. The Registration Act provides a list of documents which are required to be registered mandatorily and the documents for which registration is optional. Registering authorities have been provided in all the districts for this purpose. Section 49 of the Registration Act states that where a document is required to be registered as per the provisions of the Registration Act or Transfer of Property Act, 1882, shall affect any immovable property comprised therein, or confer any power to adopt, or be received as evidence of any transaction affecting such property or conferring such power, only when the said document has been registered.

Arbitration and Conciliation Act, 1996

This Arbitration and Conciliation Act, 1996 (“**Arbitration Act**”) was enacted by the Parliament to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards and also to define the law relating to conciliation and for matters connected therewith or incidental thereto. The main objectives of the Arbitration Act is to comprehensively domestic arbitration and conciliation and also international and commercial

arbitration and conciliation; to make provision for an arbitral procedure which is fair, efficient and capable of meeting the needs of the specific arbitration; to provide that the arbitral tribunal gives reasons for its arbitral award; to ensure that the arbitral tribunal remains within the limits of its jurisdiction; to minimize the supervisory role of courts in the arbitral process; to permit an arbitral tribunal to use mediation, conciliation or other procedures during the arbitral proceedings; to encourage settlement of disputes; to provide that every final arbitral award is enforced in the same manner as if it was a decree of the court; to provide that a settlement agreement reached by the parties as a result of conciliation proceedings will have the same status and effect as an arbitral award on agreed terms on the substance of the dispute rendered by an arbitral tribunal; and to provide for enforcement of foreign awards.

C. LAWS RELATING TO LABOUR AND EMPLOYMENT

Employees State Insurance Act, 1948

Employees State Insurance Act, 1948 (“**ESI Act**”) as amended, provides for certain benefits to employees in case of sickness, maternity and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

Employees Provident Fund and Miscellaneous Provisions Act, 1952 and the schemes formulated there under

This Employees Provident Fund and Miscellaneous Provisions Act, 1952 (“**EPF Act**”) provides for the institution of provident funds, family pension funds and deposit linked insurance fund for the employees in the factories and other establishments. Accordingly, the following schemes are formulated for the benefit of such employees:

- (i) **The Employees Provident Fund Scheme, 1952:** As per this scheme, a provident fund is constituted and both the employees and employer contribute to the fund at the rate of 12% (or 10% in certain cases) of the basic wages, dearness allowance and retaining allowance, if any, payable to employees per month.
- (ii) **The Employees’ Pension Scheme, 1995:** Employees’ Pension Scheme is a pension scheme for survivors, old aged and disabled persons. This scheme derives its financial resource by partial diversion from the provident fund contribution, the rate being 8.33%. Thus, a part of contribution representing 8.33% of the employee’s pay shall be remitted by the employer to the employees’ pension fund within fifteen (15) days of the close of every month by a separate bank draft or cheque on account of the employees’ pension fund contribution in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.
- (iii) **The Employees Deposit Linked Insurance Scheme, 1976:** As per this scheme, the contribution by the employer shall be remitted by him together with administrative charges at such rate as the Central Government may fix from time to time under Section 6C (4) of the EPF Act, to the insurance fund within fifteen (15) days of the close of every month by a separate bank draft or cheque or by remittance in cash in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.

Payment of Bonus Act, 1965

The Payment of Bonus Act, 1965 provides for payment of minimum bonus to factory employees and every other establishment in which twenty (20) or more persons are employed and requires

maintenance of certain books and registers and filing of monthly returns showing computation of allocable surplus, set on and set off of allocable surplus and bonus due.

The Equal Remuneration Act, 1976 and Equal Remuneration Rules, 1976

The Constitution of India provides for equal pay for equal work for both men and women. To give effect to this provision, the Equal Remuneration Act, 1976 (“**Remuneration Act**”) was implemented. The Equal Remuneration Act provides for payment of equal wages for equal work of equal nature to male and female workers and for not making discrimination against female employees in the matters of transfers, training and promotion etc.

The Code on Social Security, 2020

The Government of India has decided to consolidate around 29 central labour laws into 4 codes which are: (a) Code on Wages, 2019, (b) the Code on Social Security, 2020, (c) the Occupational Safety, Health and Working Conditions Code, 2020 and (d) the Industrial Relations Code, 2020. The Code on Social Security, 2020 has been passed by both the houses of parliament and has received the assent of the President on September 28, 2020. However, the Code will be in force from such date the Central Government by notification may appoint. The said Code will subsume various social security, retirement and employee benefit laws like ESI Act, EPF Act, Maternity Benefit Act, Payment of Gratuity Act, etc. The.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“**SHWW Act**”) provides for the protection of women at workplace and prevention of sexual harassment at workplace. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behavior namely, physical contact and advances or a demand or request for sexual favours or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e., a written complaint is to be made within a period of three (3) months from the date of the last incident. If the establishment has less than ten (10) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs.50,000/- (Rupees Fifty Thousand Only).

Shops and Establishment Laws

The shops and establishment laws govern a company in the states where it has offices/godowns. It regulates the conditions of work and employment in shops and commercial establishments and generally prescribes obligations in respect of registration, opening and closing hours, daily and weekly working hours, health and safety measures, and wages for overtime work. The state law relevant to the Company are the Shops and Commercial Establishments laws as applicable in the state of Andhra Pradesh, Assam, Bihar, Tamil Nadu, New Delhi, Gujarat, Jammu, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Telangana, Uttar Pradesh, West Bengal.

The Maternity Benefit Act, 1961("Maternity Act")

The Maternity Act was enacted by Parliament in the Twelfth Year of the Republic of India to regulate the employment of women in certain establishments for certain periods before and after child-birth and to provide for maternity benefit and certain other benefits.

The Payment of Gratuity Act, 1972

The Gratuity Act establishes a scheme for the payment of gratuity to employees engaged in every factory, mine, oil field, plantation, port and railway company, every shop or establishment in which ten or more persons are employed or were employed on any day of the preceding twelve months and in such other establishments in which ten or more employees are employed or were employed on any day of the preceding twelve months, as notified by the Central Government from time to time. Penalties are prescribed for non-compliance with statutory provisions. Under the Gratuity Act, an employee who has been in continuous service for a period of five years will be eligible for gratuity upon his retirement, resignation, superannuation, death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will not be contingent upon an employee having completed five years of continuous service.

The Payment of Wages Act, 1936

The Payment of Wages Act applies to the persons employed in the factories and to persons employed in industrial or other establishments, either directly or indirectly through a sub-contractor, where the monthly wages payable to such persons is less than Rs. 24,000/-. The Act confers on the person(s) responsible for payment of wages certain obligations with respect to the maintenance of registers and the display in such factory/establishment, of the abstracts of this Act and Rules made there under.

D. TAX LAWS

The Income Tax Act, 1961

The Income Tax Act, 1961 ("**Tax Act**") deals with taxation of individuals, corporate, partnership firms and others. As per the provisions of the Tax Act, the rates at which they are required to pay tax is calculated on the income declared by them or assessed by the authorities, after availing the deductions and concessions accorded under the Act. The maintenance of books of accounts and relevant supporting documents and registers are mandatory under the Tax Act. Filing of returns of income is compulsory for all assesses. The maintenance of books of accounts and relevant supporting documents and registers are mandatory under the Tax Act.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e., bringing into India from a place outside India or at the time of export of goods i.e., taken out of India to a place outside India. Any Company desirous of importing or exporting any goods is first required to get it registered and obtain an IEC (Importer Exporter Code).

Goods and Services Tax Act, 2017

The Goods and Services Tax Act, 2017 ("**GST**") is one of the most significant tax reforms introduced in the history of the Indian fiscal evolution. The central and state governments will levy GST simultaneously, on a common taxable value, on the supply of goods and services. However, in the case of imports and inter- state supplies, an Integrated Goods and Service Tax ("**IGST**") shall be levied by the central government, proceeds of which will be shared by the central and the recipient state government. IGST is an Indian innovation which would help tax move along with goods/services, across states and therefore reduce refund situations at state borders. GST is expected to bring a significant shift from origin-based taxation to a destination-based tax structure. This is likely to impact not only the operating business models but also the revenues of the center/states. It has the potential to impact cash flow, pricing, working capital, supply chain and IT systems and hence provides an opportunity to transform your business. GST allow equal opportunity to the center and the state to tax all supplies of goods and services. The single GST replaced several former taxes and levies which includes central excise duty, services tax, additional customs duty, surcharges, state-level value added tax and octroi.

Professional Tax

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The state governments of the following states have levied professional tax: Karnataka, West Bengal, Andhra Pradesh, Maharashtra, Tamil Nadu, Gujarat, Assam, Chhattisgarh, Kerala, Meghalaya, Orissa, Tripura, Telangana and Madhya Pradesh. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations.

E. INTELLECTUAL PROPERTY LAWS

India has certain laws relating to intellectual property rights such as patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957, trademark protection under the Trade Marks Act, 1999, and design protection under the Designs Act, 2000.

The Trade Marks Act, 1999

The Trade Marks Act, 1999 (“**TM Act**”) provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the TM Act is to grant exclusive rights to marks such as a brand, label, heading and to obtain relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks.

The Copyright Act, 1957

The Copyright Act, 1957 (“**Copyright Act**”) governs the copyright protection in India. Under the Copyright Act, copyright may subsist in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. While copyright registration is not a pre-requisite for acquiring or enforcing a copyright, registration creates a presumption favouring ownership of the copyright by the registered owner. Copyright registration may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Once registered, the copyright protection of a work lasts for sixty (60) years. The remedies available in the event of infringement of a copyright under the Copyright Act include civil proceedings for damages, account of profits, injunction and the delivery of the infringing copies to the copyright owner.

F. FOREIGN INVESTMENT REGULATIONS

The Foreign Trade (Development & Regulation) Act, 1992

The Foreign Trade (Development & Regulation) Act, 1992, provides for the development and regulation of foreign trade by facilitating imports into and augmenting exports from India and for matters connected therewith or incidental thereto.

Foreign Exchange Management Act, 1999 and rules and regulations framed thereunder

Foreign investment in India is governed primarily by the provisions of the Foreign Exchange Management Act, 1999 (“**FEMA**”) which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India. As laid down by the FEMA Regulations (*as defined hereunder*), no prior consents and approvals are required from the RBI, for foreign direct investment (“**FDI**”) under the ‘automatic route’ within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign

Exchange Management (Non-debt Instruments) Rules, 2019 vide notification F.No. 1/14/EM/2015 dated October 17, 2019 (“**FEMA Regulations**”) which governs transfer by or issue security to a person resident outside India. FEMA Regulations repealed the Foreign Exchange Management (Transfer of Issue of Security by a Person Resident outside India) Regulations, 2017 and Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018.

Foreign Direct Investment Policy, 2020

With the intent and objective of the Government of India to attract and promote foreign direct investment in order to supplement domestic capital, technology and skills, for accelerated economic growth. The Government of India has put in place a policy framework on Foreign Direct Investment, which is transparent, predictable and easily comprehensible. This framework is embodied in the Circular on Consolidated FDI Policy, which may be updated every year, to capture and keep pace with the regulatory changes, effected in the interregnum. The Department for Promotion of Industry and Internal Trade (DPIIT), Ministry of Commerce & Industry, Government of India makes policy pronouncements on FDI through press notes/press releases which are notified by the RBI as amendments to the FEMA Regulations. These notifications take effect from the date of issue of press notes/ press releases, unless specified otherwise therein. In case of any conflict, the relevant FEMA Notification will prevail. The procedural instructions are issued by the RBI *vide* A.P. (DIR Series) Circulars. The regulatory framework, over a period of time, thus, consists of Acts, Regulations, Press Notes, Press Releases, Clarifications, etc.

The financial statements of the Company and its subsidiary entity have been combined on line-by-line basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group transactions and resulting unrealized profit or losses, unless cost cannot be recovered.
- iii. The excess of cost to the company of its investment in the subsidiary entity over its share of equity of the subsidiary entity, at the date on which the investment in the subsidiary entity were made, is recognized as ‘Goodwill’ being an asset in the consolidated financial statement and is tested for impairment on annual basis.

- iv. Goodwill arising on consolidation is not amortized but tested for impairment.
- v. The consolidated financial statement has been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the company's separate financial statements.
- vi. Following subsidiary company/entity, associate and jointly controlled entities have been considered in the preparation of the consolidated financial statement:

Name of the Company	Relationship	Country of Incorporation	% Of Holding and voting power either directly or indirectly through subsidiary (As at 31 st March, 2021)
SSK Citizen Services Private Limited	Subsidiary	India	99.80%

c) Use of estimates

The preparation of the financial statements in conformity with GAAP requires the management to make estimates and assumption that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Contingencies are recorded when it is probable that a liability will be incurred, and the amount can be reasonably estimated. Where no reliable estimate can be made, a disclosure is made as contingent liability. Actual results could differ from those estimates. The differences if any will be dealt accordingly in subsequent years.

d) Property, Plant and Equipment

(i) Tangible Assets

Property, plant and equipment are stated at historical cost less accumulated depreciation, and accumulated impairment loss, if any. Historical cost comprises of the purchase price including duties and non-refundable taxes, borrowing cost if capitalization criteria are met, directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management and initial estimate of decommissioning, restoring and similar liabilities.

Subsequent costs related to an item of property, plant and equipment are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are recognized in statement of profit and loss during the reporting period when they are incurred.

An item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gains or losses arising from derecognition are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

(ii) Intangible Assets

Intangible assets include software / application which are developed and are measured on the basis of cost incurred for its development. The cost of intangible assets in our business combination is the capitalized value of the cost incurred to develop the asset till it is put to use. Such costs include salary of professional personnel hired, project expenses, research costs, etc. Following initial recognition, intangible assets are carried at cost less any accumulated amortization.

An item of intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gains or losses arising from derecognition are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Subsequent costs related to intangible assets are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

(iii) Intangible Assets under development

Intangible Assets under development include software/ application under development net of accumulated impairment loss, if any, as at the Balance sheet date. Directly attributable expenditure incurred on project under development are shown under CWIP. At the point when an asset is capable of operating in the manner intended by management, the Intangible assets under development is transferred to the appropriate category of Intangible assets.

e) Depreciation and Amortization:

(i) Depreciation of Tangible assets:

Property, plant and equipment individually costing Rs. 5,000 or less are depreciated at 100% in the year in which such assets are ready to use.

Depreciation is calculated using the Written down value method over their estimated useful lives. The estimates of useful lives of tangible assets are as follows:

Class of Asset	Useful life as per Schedule II	Useful life as per Group
Furniture and Fixtures	10 Years	10 Years
Office Equipment	5 Years	5 Years
Plant and Machinery	15 Years	15 Years
Computer	3 Years	3 Years
Mobile testing equipment	5 Years	5 Years
Leasehold improvements	10 Years	10 Years

Leasehold improvements are amortised over the period of the lease or life of the asset whichever is less.

(ii) Amortization of Intangible Assets:

The Group amortizes intangible assets with a finite useful life using the Written down value method over the following periods:

Asset	Life in years
Software – Banking Services	3 Years
Software – TimePay	6 Years
Trade mark	10 Years

The estimated useful life of the intangible assets, amortization method and the amortization period are reviewed at the end of each financial year and the amortization period is revised to reflect the changed pattern, if any.

Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit. Amortization expense is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

f) Revenue recognition

- (i) **Revenue from services:** Revenue is recognized based on contractual terms and upon rendering of services as per terms of agreement.
- (ii) **Interest Income:** Interest income is recognized using the time-proportion method, based on rates implicit in the transaction.
- (iii) **Other income:** Other income is recognized based on the contractual obligations on accrual basis.

g) Employee Benefits

(i) Short Term Employee Benefits

Short term employee benefits are recognized in the period during which the services have been rendered.

(ii) Long Term Employee Benefits

(i) Defined Contribution Plan:

- **Provident Fund and Group Insurance Scheme:** Employees of the company are entitled to receive benefits under the Provident Fund, which is a defined contribution plan. Both the employee and the employer make monthly contributions to the plan at a predetermined rate (presently 12%) of the employees' basic salary or Rs 1800/-. These contributions are made to the fund administered and managed by the Government of India.

(ii) Defined Benefit Plan:

- **Leave Encashment:** The Company has provided for the liability at year end on the basis of valuation report received by the valuer.
- **Gratuity:** The Company provides for gratuity obligations through a defined retirement plan ('the Gratuity Plan') covering all eligible employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement or

termination of employment based on respective employee salary and years of employment with the Company. The Company provides for the Gratuity Plan based on projection valuations in accordance with Accounting Standard 15 (Revised), "Employee Benefits".

h) Borrowing Cost

Borrowing Cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of Borrowings. General and specific borrowing costs directly attributable to the acquisition/ construction of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time the assets are substantially ready for their intended use. All other borrowing costs are recognized as an expense in Statement of Profit and Loss in the period in which they are incurred.

i) Transaction in Foreign Exchange

Transaction dominated in foreign currency are recorded at the exchange rate prevailing on the date of transaction. Assets and Liabilities denominated in foreign currency are converted at the exchange rate prevailing as at the balance sheet date. Exchange differences other than those relating to acquisition of fixed assets are recognized in the statement of profit and loss. Exchange differences relating to purchase of fixed assets are adjusted to the carrying cost of fixed assets.

The foreign currency exposures that have not been hedged by a derivative instrument or otherwise are as per Schedule 4 (E).

j) Segment Reporting

- a) The generally accepted accounting principles used in the preparation of the financial statements are applied to record revenue and expenditure in individual segments.
- b) Expenses that are directly identifiable to segments are considered for determining the segment result. Expenses which relate to the Company as a whole and are not allocable to segments are included under unallocated corporate expenses.
- c) Segment assets and liabilities include those directly identifiable with the respective segments. Unallocated corporate assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.

k) Operating Lease - as Lessee

Lease rentals in respect of assets taken on "Operating Lease" are charged to Profit and Loss Account on a straight-line basis over the lease term. For the year as at 31.03.2021 mentioned as below.

- a) Not Later than one year, Rent Rs.21,10,914/-
- b) Later than one year but not later than five years, Rent Rs 21,10,914/-
- c) Later than five years. No Lease

l) Earnings Per Share

In determining earning per share, the Company considers the net profit / (loss) after tax and includes the post-tax effect of any extraordinary items. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

m) Taxation

a) Income Tax

Provision for Current tax is made based on the liability computed in accordance with the relevant tax rates and tax laws.

b) Deferred Tax

Deferred taxation is provided using the liability method in respect of the taxation effect originating from all material timing differences between the accounting and tax treatment of income and expenditure, which are expected with reasonable probability to reverse in subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the balance sheet date.

n) Impairment of Asset

Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An asset is impaired when the carrying amount of the asset exceeds its recoverable amount. An impairment loss is charged to Profit and Loss Account in the year in which an asset is identified as impaired.

o) Provision and Contingencies

A provision is recognized when the Company has present obligations as a result of past event, it is probable that an outflow of resources will be required to settle the obligations, in respect of which reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimates required to settle the obligations at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect a current best estimate.

p) Investment

Investments are classified into current investments and non-current investments. Current investments, i.e., investments that are readily realizable and intended to be held for not more than a year are valued at lower of cost and net realizable value. Any reduction in the carrying amount or any reversal of such provision towards reductions are charged or credited to the Statement of Profit and Loss.

Non-current investments are stated at cost. Provision for diminution in the value of these investments is made only if such decline is other than temporary, in the opinion of the management.

On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of Profit and Loss

q) Cash and Cash Equivalents

Cash and Cash equivalents includes cash & cheque in hand, bank balance, demand deposits with bank and other short term highly liquid investment where original maturity is less than Six months.

r) Cash Flow Statement

Cash Flow are reported using the indirect method where by the profit before tax is adjusted for the effect of the transaction of the non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with

B. Summary of Significant Accounting Policies

a) Basis of preparation of restated standalone financial statements

These restated standalone financial statements have been prepared to comply in all material aspects with applicable accounting principles in India, the applicable Accounting Standards prescribed under Section 133 of the Companies Act, 2013 (‘Act’) read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and other accounting principles generally accepted in India, to the extent applicable.

b) Use of estimates

The preparation of the financial statements in conformity with GAAP requires the management to make estimates and assumption that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Contingencies are recorded when it is probable that a liability will be incurred, and the amount can be reasonably estimated. Where no reliable estimate can be made, a disclosure is made as contingent liability. Actual results could differ from those estimates. The differences if any will be dealt accordingly in subsequent years.

c) Property, Plant and Equipment

(i) Tangible Assets

Property, plant and equipment are stated at historical cost less accumulated depreciation, and accumulated impairment loss, if any. Historical cost comprises of the purchase price

including duties and non-refundable taxes, borrowing cost if capitalization criteria are met, directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management

And initial estimate of decommissioning, restoring and similar liabilities.

Subsequent costs related to an item of property, plant and equipment are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are recognized in statement of profit and loss during the reporting period when they are incurred.

An item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gains or losses arising from derecognition are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

(ii) Intangible Assets

Intangible assets include software / application which are developed and are measured on the basis of cost incurred for its development. The cost of intangible assets in our business combination is the capitalized value of the cost incurred to develop the asset till it is put to use. Such costs include salary of professional personnel hired, project expenses, research costs, etc. Following initial recognition, intangible assets are carried at cost less any accumulated amortization.

An item of intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gains or losses arising from derecognition are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Subsequent costs related to intangible assets are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

(iii) Intangible Assets under development

Intangible Assets under development include software/ application under development net of accumulated impairment loss, if any, as at the Balance sheet date. Directly attributable expenditure incurred on project under development are shown under CWIP. At the point when an asset is capable of operating in the manner intended by management, the Intangible assets under development is transferred to the appropriate category of Intangible assets.

Fixed Assets are stated at cost less accumulated depreciation. The cost of an asset comprises its purchase price and any directly attributable cost of bringing the asset to its present condition for intended use.

d) Depreciation

(i) Depreciation of Tangible assets:

Property, plant and equipment individually costing Rs. 5,000 or less are depreciated at 100% in the year in which such assets are ready to use.

Depreciation is calculated using the Written down value method over their estimated useful lives. The estimates of useful lives of tangible assets are as follows:

Class of Asset	Useful life as per Schedule II	Useful life as per Company
Furniture and Fixtures	10 Years	10 Years
Office Equipment	5 Years	5 Years
Plant and Machinery	15 Years	15 Years
Computer	3 Years	3 Years
Mobile Testing Equipment	5 Years	5 Years
Leasehold Improvements	10 Years	10 Years

Leasehold improvements are amortised over the period of the lease or life of the asset whichever is less.

(ii) Amortization of Intangible Assets:

The Company amortizes intangible assets with a finite useful life using the Written down value method over the following periods:

Asset	Life in years
Software – Banking Services	3 Years
Software – TimePay	6 Years
Trade Mark	10 Years

The estimated useful life of the intangible assets, amortisation method and the amortisation period are reviewed at the end of each financial year and the amortisation period is revised to reflect the changed pattern, if any.

Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

e) Revenue recognition

- i. **Revenue from services:** Revenue is recognized based on contractual terms and upon rendering of services as per terms of agreement.
- ii. **Interest Income:** Interest income is recognized using the time-proportion method, based on rates implicit in the transaction.
- iii. **Other income:** Other income is recognized based on the contractual obligations on accrual basis.

f) Employee Benefits

(i) Short Term Employee Benefits

Short term employee benefits are recognized in the period during which the services have been rendered.

(ii) Long Term Employee Benefits

1. Defined Contribution Plan:

- **Provident Fund and Group Insurance Scheme:** Employees of the company are entitled to receive benefits under the Provident Fund, which is a defined contribution plan. Both the employee and the employer make monthly contributions to the plan at a predetermined rate (presently 12%) of the employees' basic salary or Rs 1800/-. These contributions are made to the fund administered and managed by the Government of India.

2. Defined Benefit Plan:

- **Leave Encashment:** The Company has provided for the liability at year end on the basis of valuation report received by the valuer.
- **Gratuity:** The Company provides for gratuity obligations through a defined retirement plan ('the Gratuity Plan') covering all eligible employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement or termination of employment based on respective employee salary and years of employment with the Company. The Company provides for the Gratuity Plan based on projection valuations in accordance with Accounting Standard 15 (Revised), "Employee Benefits".

g) Borrowing Cost

Borrowing Cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of Borrowings. General and specific borrowing costs directly attributable to the acquisition/ construction of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time the assets are substantially ready for their intended use. All other borrowing costs are recognized as an expense in Statement of Profit and Loss in the period in which they are incurred.

h) Transaction in Foreign Exchange

Transaction dominated in foreign currency are recorded at the exchange rate prevailing on the date of transaction. Notes:

1. The ratios have been computed as per the following formulas:

(i) Basic Earnings per Share:

Restated Profit after Tax available to equity shareholders
Weighted average number of equity shares outstanding at the end of the year

(ii) Diluted Earnings per Share:

Restated Profit after Tax available to equity shareholders
Weighted average number of equity shares outstanding at the end of the year
+ Diluted Shares at the end of the year

(iii) Net Asset Value (NAV) per Equity Share:

Restated Net worth of Equity Share Holders
Number of equity shares outstanding at the end of the year

(iv) Return on Net worth (%):

Restated Profit after Tax available to equity shareholders
Restated Net worth of Equity Shareholders

2. EBITDA represents earnings (or profit/ (loss)) before finance costs, income taxes, and depreciation and amortization expenses. Extraordinary and exceptional items have been considered in the calculation of EBITDA as they were expense items.
3. Net Profit as restated, as appearing in the consolidated statement of profit and losses, has been considered for the purpose of computing the above ratios. These ratios are computed on the basis of the restated consolidated financial information of the Company.
4. Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the year adjusted for the number of equity shares issued during the year multiplied by the time weightage factor. The time weightage factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.
5. Net worth for the ratios represents sum of share capital and reserves and surplus (share premium and surplus in the Restated Consolidated Summary Statement of Profit and Loss).

KEY FACTORS THAT MAY AFFECT OUR RESULTS OF OPERATION

Our results of operations have been, and will be, affected by many factors, some of which are beyond our control. Our results of operations and financial conditions are affected by numerous factors including the following:

A. Expansion of customer base and new sales to existing customers

Customer relationships are the core of our business. Our ability to grow our customer base and drive market adoption of our software is affected by the pace at which the market digitally transforms. We expect that our revenue growth will be primarily driven by the pace of adoption of our offerings. This will drive our ability to acquire new customers and increase sales to existing customers, which in turn, will affect our future financial performance.

We believe we have a substantial opportunity to grow our customer base. We have invested, and intend to continue to invest, in order to drive sales to new customers. In particular, we have made, and plan to continue to make, investments to enhance the expertise of our sales and marketing segment. Our business from existing customers has steadily grown and contributed a significant portion of our revenue. We believe that our ability to establish and strengthen customer relationships and expand the scope of our products and services will be an important factor in our future growth and our ability to continue increasing our profitability.

B. Our ability to develop new products and enhance existing products in accordance with evolving customer needs

The requirements of our customers vary across a range of service or technical requirements. To service and grow our relationships with our existing customers and to win new customers, we must be able to provide them with products that address their requirements, to anticipate and understand trends in their relevant markets and to continually address their requirements as those requirements change and evolve. In this regard, we believe that our strong culture of innovation, our workforce and our research and testing facilities have enabled us to expand the range of our offerings to customers and improve the delivery of our software platform and services.

If we are able to anticipate and respond to our customers' requirements on a timely and cost-efficient basis, we would expect to receive repeat business from existing customers. Further, leveraging on our present portfolio of customers and expertise in the verticals of our existing customers we aim to develop new customer relationships by identifying potential customers that operate within the same verticals as our existing customers. In addition, if we are able to generate healthy demand for our products and services, we may be able to increase our price, which would consequently lead to an increase in our revenues and profit margins. Conversely, if we are unable to provide innovative services to our customers, either at all or at an acceptable price, or if our customers are dissatisfied with our work for any other reason, it would have an adverse effect on our revenues and our profits.

C. Pricing of and margin on our services and revenue mix

The rates we charge for our IT professionals are a key factor impacting our gross profit margins and profitability. These vary by complexity of the project and the mix of staffing. The margin on our services is impacted by the increase in our costs in providing those services, which is influenced by wage inflation and other factors. As a client relationship matures and deepens, we seek to maximize our revenues and profitability by expanding the scope of services offered to that client and winning higher profit margin assignments.

D. Our ability to successfully implement our growth strategy and expansion plans, and to successfully launch and implement various projects and business plans

Our future growth is dependent on our ability to expand our new product, **TimePay**. We have recently launched **TimePay** application. The process of launching a new segment requires long-term investments and commitment of significant resources before knowing whether these investments will eventually result in businesses that achieve customer acceptance and generate the revenues required to provide desired returns. Further, we are targeting on making B2B and B2C sales, which will require us to use significant resources for marketing our product and brand building. We may face some difficulties in growing the demand for our new product, which might affect our desired result of operations in the initial period. We may not be able to successfully grow our new product, which may result in an adverse impact on our business prospects and results of operations. For further details please refer chapter titled "**Risk Factors**" on page 34 of this Red Herring Prospectus.

E. Changes in laws and regulations relating to the industry in which we operate

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our

business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

F. Recruitment, retention and management of IT professionals

Our ability to recruit, retain and manage our IT professionals will have an effect on our gross profit margin and our results of operations. We manage employee headcount and utilization based on ongoing assessments of our project pipeline and requirements for professional capabilities. An unanticipated termination of a significant project could cause us to experience lower employee utilization resulting from a higher-than-expected number of idle IT professionals. Our ability to effectively utilize our employees is typically improved by longer-term client relationships due to increased predictability of client needs over the course of the relationships.

Our success depends in large part of our ability to attract, retain and train our employees, in particular highly skilled engineering professionals. Our employee benefit consists of salaries, wages and bonus, contribution to provident fund and other funds, gratuity and staff welfare. In addition, as we continue to invest in the recruitment and retention of sales staff in line with our growth strategies, we are likely to incur costs in relation to our market penetration, sales and marketing initiatives, and for the recruitment of sales employees located in India and overseas.

G. Increasing competition in the industry;

The market for IT services that we operate in is highly competitive, and we expect competition to persist and intensify. We believe that the principal competitive factors in our markets are reputation and track record, industry expertise, breadth and depth of service offerings, quality of the services offered, marketing and selling skills, ability to address customers' timing requirements and price. Some of our present and potential competitors may have substantially greater financial, marketing or technical resources. If our competitors develop and implement methodologies that yield greater efficiency and productivity, they may be able to offer similar services at lower prices than we do without adversely affecting our profit margins.

H. Changes in fiscal, economic or political conditions in India

We are incorporated in India and we conduct our corporate affairs and our business in India. Consequently, our business operations, financial performance and the market price of our Equity Shares are affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy or certain regions in India, could adversely affect our business, results of operations and financial condition along with the price of the Equity Shares.

I. COVID-19 Pandemic

The current outbreak of COVID-19 pandemic and the preventative or protective actions that governments around the world have taken to counter the effects of the pandemic have resulted in a period of economic downturn and business disruption in India. The World Health Organization declared the outbreak of COVID-19 as a public health emergency of international concern on January 30, 2020 and a pandemic on March 11, 2020. The Government of India announced a nation-wide lockdown on March 24, 2020 and imposed several restrictions. In view of the nationwide lockdown announced by the Government of India to control the spread of COVID-19, our business operations were temporarily disrupted from March 24, 2020. Since then, we have resumed operations in a phased manner as per the Government of India and state government's directives. Our operations were affected by this pandemic revenue and profitability declined due to this in the last financial year. Further the impact of the ongoing

pandemic, particularly the second wave and more communicable strain of the virus that has affected India in April, 2021, may also result in an adverse impact on our profitability as our operating expenses, primarily comprising lease rental expenses and employee benefit expenses, are less variable in nature. We also incurred and may continue to incur additional expenses in complying with evolving government regulations, including with respect to social distancing measures, food safety norms, and sanitization practices

For more information on these and other factors / development which have or may affect us, please refer to chapters titled “**Risk Factors**”, “**Our Industry**” and “**Our Business**” beginning on page 34, 133 and 160 respectively of this Red Herring Prospectus.

SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation of financial statements

These restated Consolidated & Standalone financial statements have been prepared to comply in all material aspects with applicable accounting principles in India, the applicable Accounting Standards prescribed under Section 133 of the Companies Act, 2013 (‘Act’) read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and other accounting principles generally accepted in India, to the extent applicable.

Use of estimates

The preparation of the financial statements in conformity with GAAP requires the management to make estimates and assumption that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Contingencies are recorded when it is probable that a liability will be incurred, and the amount can be reasonably estimated. Where no reliable estimate can be made, a disclosure is made as contingent liability. Actual results could differ from those estimates. The differences if any will be dealt accordingly in subsequent years.

Fixed Assets:

(iv) Tangible Assets

Property, plant and equipment are stated at historical cost less accumulated depreciation, and accumulated impairment loss, if any. Historical cost comprises of the purchase price including duties and non-refundable taxes, borrowing cost if capitalization criteria are met, directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management

And initial estimate of decommissioning, restoring and similar liabilities.

Subsequent costs related to an item of property, plant and equipment are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are recognized in statement of profit and loss during the reporting period when they are incurred.

An item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gains or losses arising from derecognition are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

(v) Intangible Assets

Intangible assets include software / application which are developed and are measured on the basis of cost incurred for its development. The cost of intangible assets in our business combination is the capitalized value of the cost incurred to develop the asset till it is put to use. Such costs include salary of professional personnel hired, project expenses, research costs, etc. Following initial recognition, intangible assets are carried at cost less any accumulated amortization.

An item of intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gains or losses arising from derecognition are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Subsequent costs related to intangible assets are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

(vi) Intangible Assets under development

Intangible Assets under development include software/ application under development net of accumulated impairment loss, if any, as at the Balance sheet date. Directly attributable expenditure incurred on project under development are shown under CWIP. At the point when an asset is capable of operating in the manner intended by management, the Intangible assets under development is transferred to the appropriate category of Intangible assets.

Fixed Assets are stated at cost less accumulated depreciation. The cost of an asset comprises its purchase price and any directly attributable cost of bringing the asset to its present condition for intended use.

Depreciation and Amortization:

1. Depreciation of Tangible assets

Property, plant and equipment individually costing Rs. 5,000 or less are depreciated at 100% in the year in which such assets are ready to use.

Depreciation is calculated using the Written down value method over their estimated useful lives. The estimates of useful lives of tangible assets are as follows:

Class of Asset	Useful life as per Schedule II	Useful life as per Company
Furniture and Fixtures	10 Years	10 Years
Office Equipment	5 Years	5 Years
Plant and Machinery	15 Years	15 Years
Computer	3 Years	3 Years
Mobile Testing Equipment	5 Years	5 Years
Leasehold Improvements	10 Years	10 Years

Leasehold improvements are amortised over the period of the lease or life of the asset whichever is less.

2. Amortization of Intangible Assets:

The Company amortizes intangible assets with a finite useful life using the Written down value method over the following periods:

Asset	Life in years
Software - Banking Services	3 Years
Software - TimePay	6 Years
Trademark	10 Years

The estimated useful life of the intangible assets, amortisation method and the amortisation period are reviewed at the end of each financial year and the amortisation period is revised to reflect the changed pattern, if any.

Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

- b) Later than one year but not later than five years, Rent Rs. 21,10,914/-
- c) Later than five years. No Lease

Earnings per share

In determining earning per share, the Company considers the net profit / (loss) after tax and includes the post-tax effect of any extraordinary items. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

Taxation

a) Income Tax

Provision for Current tax is made based on the liability computed in accordance with the relevant tax rates and tax laws.

b) Deferred Tax

Deferred taxation is provided using the liability method in respect of the taxation effect originating from all material timing differences between the accounting and tax treatment of income and expenditure, which are expected with reasonable probability to reverse in subsequent periods. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the balance sheet date.

Impairment of Assets

Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An asset is impaired when the carrying amount of the asset exceeds its recoverable amount. An impairment loss is charged to Profit and Loss Account in the year in which an asset is identified as impaired.

Provisions and Contingencies

A provision is recognized when the Company has present obligations as a result of past event, it is probable that an outflow of resources will be required to settle the obligations, in respect of which reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimates required to settle the obligations at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect a current best estimate.

All known liabilities wherever material is provided for. Liabilities which are material and whose future outcome cannot be ascertained with reasonable certainty are treated as contingent and disclosed by way of notes to the accounts

Investments

Investments are classified into current investments and non-current investments. Current investments, i.e., investments that are readily realizable and intended to be held for not more than a year are valued at lower of cost and net realizable value. Any reduction in the carrying amount or any reversal of such provision towards reductions are charged or credited to the Statement of Profit and Loss.

Non-current investments are stated at cost. Provision for diminution in the value of these investments is made only if such decline is other than temporary, in the opinion of the management.

On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of Profit and Loss.

COMPARISON OF FINANCIAL YEAR ENDED MARCH 31, 2021 WITH FINANCIAL YEAR ENDED MARCH 31, 2020

Total Revenue:

<i>(Amount in Lakhs)</i>		
2020-21	2019-20	Variance in %
1,538.00	1,524.72	0.87%

Our total revenue has increased by 1.01% to Rs. 1,538.00 lakhs for financial year 2020-21 from Rs. 1,524.72 lakhs for financial year 2019-20 bifurcated into revenue from operations and other income.

Revenue from Operations

<i>(Amount in Lakhs)</i>		
2020-21	2019-20	Variance in %
1,534.39	1,519.03	1.01%

During the financial year 2020-21, the revenue from operations of our company slightly increased to Rs. 1,534.39 lakhs as against Rs. 1,519.03 lakhs in the year 2019-20. This increase was primarily driven by launch of TimePay application and general growth of business of the Company. However, the company was impacted by Covid 19 lockdown during last March 2020 onwards and has strived to maintain the revenue growth amidst the pandemic.

Other Income

<i>(Amount in Lakhs)</i>		
2020-21	2019-20	Variance in %
3.61	5.69	(36.56)

During the year 2020-21, the other income of our company decreased to Rs. 3.61 lakhs from Rs. 5.69 lakhs in 2019-20, representing a decrease of 36.56%. This was majorly due to decrease in interest income from income tax refund of Rs. 3.01 lakhs in the year 2020-21 as against Rs. 4.46 Lakhs income in the year 2019-20, foreign exchange gain of Rs. NIL in 2020-21 as against Rs. 0.36 lakhs in the year 2019-20 and interest income from banks on deposits of Rs. 0.60 lakhs in the year 2020-21 as against Rs. 0.87 lakhs in the year 2019-20.

Total Expense

<i>(Amount in Lakhs)</i>		
2020-21	2019-20	Variance in %
1,396.45	1,382.93	0.98%

The total expenditure for the financial year 2020-21 was increased to Rs. 1,393.45 lakhs from Rs. 1,382.93 lakhs in 2019-20, representing a 0.98% increase bifurcated in varied expenses as explained below.

Purchase of Stock-in-Trade

(Amount in Lakhs)

2020-21	2019-20	Variance in %
189.06	182.27	3.73%

Purchase of Stock-in-Trade for the financial year 2020-21 increased to Rs. 189.06 lakhs from Rs. 182.27 lakhs in 2019-20, clocking an increase of 3.73%. This was primarily attributable to increase in stock of hardware and other equipments sold by the Company based on the demand in the market.

Change in WIP

(Amount in Lakhs)

2020-21	2019-20	Variance in %
(21.52)	27.31	(178.80) %

Change in Work-in-progress for the financial year 2020-21 recorded a decreased to negative Rs. 21.52 lakhs from Rs. 27.31 lakhs in 2019-20, representing an overall decrease of 178.80%. This was on account of change recorded in the services rendered and billed during the year.

Cost of Technical Sub-Contractors

(Amount in Lakhs)

2020-21	2019-20	Variance in %
379.93	521.56	(27.16) %

Cost of technical Sub-Contractors for the financial year 2020-21 decreased to Rs. 379.93 lakhs from Rs. 521.56 lakhs in 2019-20, representing a decrease of 27.16%. This decrease was due to decrease in expenses cost outsourced to third party as per the requirements of the business and also increase in technical staff strength in the company.

Employee benefits expenses

(Amount in Lakhs)

2020-21	2019-20	Variance in %
582.89	466.61	24.92%

Our Company has incurred Rs. 582.89 lakhs of employee benefit expenses in 2020-21, as compared to Rs. 466.62 lakhs in 2019-20, reflecting an increase of 24.92%. This was primarily due hiring of new staff in the company & general increase in the salaries and wages by Rs. 130.05 lakhs and contributions to Provident Fund and other Fund by Rs. 3.26 Lakhs. However, this increase was partially offset by decrease in Director Remuneration by Rs. 16.25 lakhs and staff welfare expenses by Rs. 0.78 lakhs.

Finance Cost

(Amount in Lakhs)

2020-21	2019-20	Variance in %
5.18	0.63	722.22%

Finance costs increased by Rs. 4.55 lakhs in 2020-21 over 2019-20, representing a change of 722.22%, due to increase in bank charges and bank loan processing expenses arising on availment credit facilities from bank in the FY 2020-21 to meet the additional funds requirements.

Depreciation and Amortization expense

(Amount in Lakhs)

2020-21	2019-20	Variance in %
151.85	86.13	76.30%

Depreciation for the financial year 2020-21 stood at Rs. 151.85 lakhs as compared to Rs. 86.13 lakhs in 2019-20, showing an increase of 76.30%. This was due to depreciation charge on the TimePay software which was added to intangible fixed assets during the end of FY 2019-20, therefore liable to depreciation in FY 2020-21.

Other Expense

(Amount in Lakhs)

2020-21	2019-20	Variance in %
109.06	98.42	10.81%

The company's other expenses saw an increase of 10.81%, amounting to Rs. 10.64 lakhs, increase in rent, taxes, amenities & office maintenance by Rs. 13.25 lakhs, travelling expenses by Rs. 4.13 lakhs, business promotion expenses by Rs. 3.74 Lakhs, Telecommunication expenses by Rs. 2.87 lakhs and other expenses. The increase is however balanced by decrease in commission and incentive expenses by Rs. 8.07 Lakhs, electricity expenses by Rs. 2.32 Lakhs and other expenses.

Profit/ (Loss) Before Tax

(Amount in Lakhs)

2020-21	2019-20	Variance in %
141.55	141.79	(0.17) %

The profit before tax saw a decrease of Rs. 0.24 lakhs, or 0.17%, owing to slight increase in overall expenses in comparison to revenue and process of development and marketing of TimePay software.

Provision for Tax and Net Profit

(Amount in Lakhs)

Particulars	2020-21	2019-20	Variance in %
Taxation Expense	35.62	37.74	(5.62) %
Profit after Tax	105.93	104.05	1.81%

Our profit after tax increased by Rs. 1.88 lakhs, showing a percentage increase of 1.81%.

COMPARISON OF FINANCIAL YEAR ENDED MARCH 31, 2020 WITH FINANCIAL YEAR ENDED MARCH 31, 2019

Total Revenue:

(Amount in Lakhs)

2019-20	2018-19	Variance in %
1,524.72	1,800.14	(15.30) %

Our total revenue has decreased by 15.30% to Rs. 1,524.72 lakhs for financial year 2019-20 from Rs. 1,800.14 lakhs for financial year 2018-19 bifurcated into revenue from operations and other income.

Revenue from Operations

(Amount in Lakhs)

2019-20	2018-19	Variance in %
1,519.03	1,799.01	(15.56) %

During the financial year 2019-20, the revenue from operations of our company decreased to Rs. 1,519.03 lakhs as against Rs. 1,799.01 lakhs in the year 2018-19. This decrease was primarily driven by following reasons:

- Change in billing pattern of our principal client which was earlier based on per transaction but changed to fixed amount irrespective of the volume of transactions.
- Major personnel responsible for software development were involved in development of inhouse application i.e., TimePay, thereby reducing the staffing towards development of other software which in turn reduced the revenue.

The change in billing pattern of our principal client, Canara Bank affected the revenues. The services provided by our Company i.e., UPI and Mobile Banking Solution were a part of non-critical applications by the Bank. Therefore, our Company was appointed as an individual service provider to the Bank and the billing was based on transaction charges for actual number of transactions on a monthly basis.

However, the entire IT infrastructure of Canara bank was managed by IBM India Pvt. Ltd. including providing critical solutions to the Bank (i.e., Core Banking solutions). With rapid increase in digitization over past few years, later in FY 2018-19, large number of transactions were performed through UPI, IMPS and Mobile Banking, thereby increasing the billing amount in the form of transactions-based charges towards our Company. Furthermore, the aforesaid services provided by our Company became a part of critical application of the Bank.

Therefore, Canara bank decided to bring all of its services with respect to critical applications under one roof headed by IBM India Pvt. Ltd. in a license model owing to the budgetary constraints of the Bank. Since the solutions provided by our Company were already implemented, deployed and working successfully as part of the overall solution to Canara Bank, IBM India Pvt. Ltd. decided to carry on with our Company as the service provider rather than including any third party in the contract.

Under the abovementioned license model, our Company started billing the Bank through IBM India Pvt. Ltd. wherein as per Purchase Order (PO) the billing was on fixed amount basis irrespective of the volume of transactions. The fixed charges primarily include Annual Maintenance Charges (AMC) and cost towards providing technical manpower. Company also receives change request from IBM India Pvt. Ltd. as required by the Canara Bank's software and thereby charges a fixed amount in addition to the above.

The difference between the billing amount due to change of the billing pattern as stated above is given below:

Particulars	FY 18-19	FY 19-20
Billing to Canara Bank	64,823,760	-
Billing to IBM	10,979,475	27,513,687
Total	75,803,235	27,513,687

The decrease was also driven by the launch of TimePay application with our Company as Third-Party Application Provider (“TPAP”). The tripartite agreement between our Company, NPCI and the Cosmos Cooperative bank was processed on February 2020 and the pilot model was initially planned to be launched in April 2020. Therefore, to achieve these forecasted guidelines, all the major staffing responsible for software development was shifted towards development and testing of the TimePay application. However, due to COVID-19 outbreak in March, not only the launch was postponed but also the tripartite agreement got delayed and was eventually executed on February 2021. Consequently, in FY 2019-20 the Company reduced other software development projects thereby reducing the revenue.

Other Income

(Amount in Lakhs)

2019-20	2018-19	Variance in %
5.69	1.13	403.54%

During the year 2019-20, the other income of our company increased to Rs. 5.69 lakhs from Rs. 1.13 lakhs in 2018-19, representing an increase of 403.54%. This was majorly due to interest income from income tax refund of Rs. 4.46 lakhs in the year 2019-20 as against NIL income in the year 2018-19, foreign exchange gain of Rs. 0.36 lakhs in the year 2019-20 as against Rs. 0.02 lakhs in 2018-19. This increase was partially offset by interest income from banks on deposits of Rs. 0.87 lakhs in the year 2019-20 as against Rs. 1.10 lakhs in 2018-19.

Total Expense

(Amount in Lakhs)

2019-20	2018-19	Variance in %
1,382.93	1,613.19	(14.27) %

The total expenditure for the financial year 2019-20 was decreased to Rs. 1,382.93 lakhs from Rs. 1,613.19 lakhs in 2018-19, representing a 14.27% decrease, owing to the cost cutting policies adopted across the company.

Purchase of Stock-in-Trade

(Amount in Lakhs)

2019-20	2018-19	Variance in %
182.27	133.48	36.55%

Purchase of Stock-in-Trade for the financial year 2019-20 increased to Rs. 189.06 lakhs from Rs. 182.27 lakhs in 2018-19, clocking an increase of 36.55%. This was primarily attributable to increase in stock of hardware and other equipments sold by the Company based on the demand in the market in addition to the supplies to be sold to the Business Associates of Serve Seva Kendra for direct sales.

Change in WIP

(Amount in Lakhs)

2019-20	2018-19	Variance in %
27.31	(15.61)	274.95%

Change in Work-in-progress for the financial year 2019-20 recorded an increased to Rs. 27.31 lakhs from negative Rs. 15.61 lakhs in 2019-20, representing an overall increase of 274.95%. This was on account of change recorded in the services rendered and billed during the year.

Cost of Technical Sub-Contractors

(Amount in Lakhs)

2019-20	2018-19	Variance in %
521.56	619.17	(15.76) %

Cost of technical Sub-Contractors for the financial year 2019-20 decreased to Rs. 521.56 lakhs from Rs. 619.17 lakhs in 2018-19, representing a decrease of 15.76%. This decrease was due to decrease in expense cost outsourced to third party as per the requirements of the business.

Employee benefits expenses

(Amount in Lakhs)

2019-20	2018-19	Variance in %
466.62	540.99	(13.75) %

Our Company has incurred Rs. 466.62 lakhs of employee benefit expenses in 2019-20, as compared to Rs. 540.99 lakhs in 2018-19, reflecting a decrease of 13.75%. This was mainly due to closure of Pune office and relieving some staff on account of better management. Decrease was also due to capitalization or certain portion of salaries paid towards development of in-house application i.e., TimePay. The reduction pertains to decrease in the salaries and wages by Rs. 53.77 lakhs, Director's remuneration by Rs. 14.62 lakhs, contributions to Provident Fund and other Funds by Rs. 4.83 lakhs and staff welfare expenses by Rs. 1.16 lakhs.

Finance Cost

(Amount in Lakhs)

2019-20	2018-19	Variance in %
0.63	0.50	26.00%

Finance costs increased by Rs. 0.13 lakhs in 2019-20 over 2018-19, representing a change of 26.00%, due to general increase in bank interest and other charges.

Depreciation and Amortization expense

(Amount in Lakhs)

2019-20	2018-19	Variance in %
86.13	112.14	(23.19) %

Depreciation for the financial year 2019-20 stood at Rs. 86.13 lakhs as compared to Rs. 112.14 lakhs in 2018-19, showing a decrease of 23.19% because there had been no major additions in tangible and intangible assets during the year as compared to FY 2018-19.

Other Expense

(Amount in Lakhs)

2019-20	2018-19	Variance in %
98.42	222.52	(55.77) %

The company's other expenses saw a decrease of 55.77%, amounting to Rs. 124.10 lakhs, majorly due closure of Pune office and expenses associated with the same. The reduction mainly pertains to decrease in SMS Charge by Rs. 49.53 Lakhs, rent, taxes, amenities & office maintenance by Rs. 26.53 lakhs, travelling expenses by Rs. 10.16 lakhs, guest house expenses by Rs. 10.09 lakhs, Telecommunication expenses by Rs. 8.60 lakhs, Office Maintenance by Rs. 7.63 Lakhs, Legal &

Professional Fees by Rs. 6.82 lakhs, Electricity Expenses by Rs. 4.67 lakhs and other expenses. The decrease is however, to some extent balanced by increase in other repair and maintenance expenses and other expenses.

Profit/ (Loss) Before Tax

<i>(Amount in Lakhs)</i>		
2019-20	2018-19	Variance in %
141.79	186.95	(24.16) %

The profit before tax saw a decrease of Rs. 45.16 lakhs, or 24.16%, owing to decrease in overall sales and business margin due to change in the billing pattern adopted by the clients of the Company.

QUALITATIVE DISCLOSURE ABOUT MARKET RISK

1. Financial Market Risks

Market risk is the risk of loss related to adverse changes in market prices, including interest rate risk. We are exposed to interest rate risk, inflation and credit risk in the normal course of our business.

2. Interest Rate Risk

Our financial results are subject to changes in interest rates, which may affect our debt service obligations and our access to funds.

3. Liquidity Risk

Liquidity risk is the risk that will encounter difficulties in meeting the obligations associated with our financial liabilities that are settled by delivering cash or another financial asset. Our approach to managing liquidity is to ensure to the extent possible, that we will have sufficient liquidity to meet our liabilities when they are due under both normal and stressed conditions, without incurring unacceptable losses or risking damage to our reputation. We manage liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

4. Effect of Inflation

We are affected by inflation as it has an impact on the raw material cost, wages, etc. In line with changing inflation rates, we rework our margins so as to absorb the inflationary impact.

5. Credit Risk

We are exposed to credit risk on monies owed to us by our customers. If our customers do not pay us promptly, or at all, we may have to make provisions for or write-off such amounts.

6. Reservations, qualifications and adverse remarks

Except as disclosed in chapter titled "*Financial Statements as Restated*" beginning on page 259 of this Red Herring Prospectus, there have been no reservations, qualifications and adverse remarks.

7. Details of default, if any, including therein the amount involved, duration of default and present status, in repayment of statutory dues or repayment of debentures or repayment of deposits or repayment of loans from any bank or financial institution

Except as disclosed in chapter titled "*Financial Statements as Restated*" beginning on page 259 of this Red Herring Prospectus, there have been no defaults in payment of statutory dues or repayment of debentures and interest thereon or repayment of deposits and interest thereon or repayment of loans from any bank or financial institution and interest thereon by the Company.

8. Material Frauds

There are no material frauds, as reported by our statutory auditor, committed against our Company, in the last three Fiscals.

9. Unusual or infrequent events or transactions

Except as described in this Red Herring Prospectus, during the periods under review there have been no transactions or events, which in our best judgment, would be considered unusual or infrequent.

10. Significant economic changes that materially affected or are likely to affect income from continuing operations.

Indian rules and regulations as well as the overall growth of Indian economy have a significant bearing on our operations. Major changes in these factors can significantly impact income from continuing operations.

Other than as described in the section titled “*Risk Factors*” beginning on page 34 of this Red Herring Prospectus to our knowledge there are no significant economic changes that materially affects or are likely to affect income of our Company from continuing operations.

11. Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations.

Other than as disclosed in the section titled “*Risk Factors*” beginning on page 34 of this Red Herring Prospectus to our knowledge there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

12. Future changes in relationship between costs and revenues

Other than as described in chapter titled “*Risk Factors*” beginning on page 34 of this Red Herring Prospectus and in this section, to our knowledge there are no known factors that might affect the future relationship between cost and revenue. Our Company’s future costs and revenues will be determined by demand/ supply situation, government policies, global market situation and prices of our material.

13. The extent to which material increases in net sales or revenue are due to better content quality and increase in number of users on our platform

Increase in revenue is by and large linked to increases in volume of business activity by the Company.

14. Status of any publicly announced new products / projects or business segments

Our Company has not announced any new projects or business segments, other than disclosed in the Red Herring Prospectus. For details of our new projects or business segments please refer to the chapter titled “*Our Business*” beginning on page 160 of this Red Herring Prospectus.

15. Increase in income

Increases in our income are due to the factors described above in this chapter under “*Significant Factors Affecting Our Results of Operations*” and chapter titled “*Risk Factors*” beginning on page 34 of this Red Herring Prospectus.

16. The extent to which the business is seasonal

Our Company’s business is not seasonal in nature.

17. Any significant dependence on a single or few suppliers or customers

The % of contribution of our Company’s customer and supplier vis-à-vis the total revenue from operations and Purchase Cost of Services respectively as March 31, 2020 is as follows:

Particulars	Customers	Suppliers
	March 31, 2021	March 31, 2021

SECTION VII-LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

Except as stated below there is no (i) pending litigations, suits, civil or criminal proceedings involving our Company, Director(s) or Promoters; (ii) actions taken by statutory or regulatory authorities involving our Company, Director(s) or Promoters; (iii) outstanding claims involving our Company, Director(s) or Promoter for any direct and indirect tax liabilities; (iv) outstanding proceedings initiated against our Company for economic offences; (v) pending litigations involving our Company, Director(s), or Promoter, as determined to be material by the Company's Board of Directors in accordance with the SEBI (ICDR) Regulations; or (vi) outstanding dues to creditors of our Company as determined to be material by our Company's Board of Directors in accordance with the SEBI (ICDR) Regulations and dues to small scale undertakings and other creditors.

With respect to material litigation all pending litigation involving our Company, Director(s) and Promoters, other than criminal proceedings and statutory or regulatory actions, would be considered 'material' if the monetary amount of claim by or against the entity or person in any such pending proceeding is in excess of Rs. 1,00,000/- and where the amount is not quantifiable, such pending cases are material from the perspective of the company's business, operations, prospects or reputation.

With respect to material outstanding dues to creditors where outstanding dues to any one of them exceeds Rs. 1,00,000/-.

Further, our Company, our Promoter and/or our Director(s), have not been declared as wilful defaulters by the RBI or any governmental authority, have not been debarred from dealing in securities and/or accessing capital markets by the SEBI and no disciplinary action has been taken by the SEBI or any stock exchanges against our Company, our Promoter or our Director(s), that may have a material adverse effect on our business or financial position, nor, so far as we are aware, are there any such proceedings pending or threatened.

Unless otherwise stated, all information provided below is as of the date of this Red Herring Prospectus.

Under the said notice, PCFL, among other things, was required to cease and desist from using the mark ‘TimePay’ in any manner for marketing and sale of PCFL’s products and services.

PART II – LITIGATIONS AGAINST OUR DIRECTOR(S), PROMOTER(S) AND GROUP ENTITY(IES)

A. CASES FILED AGAINST THE DIRECTOR(S), PROMOTER(S) AND GROUP ENTITY(IES)

1. Litigation involving Civil/Statutory Laws

- (i) **Tehsildar and Anr. vs. Abhishek Mishra s/o Shri Udaikant Mishra and Ors. (CW/3040/2020) and Ajit Singh Bundela and Others vs. Udaikant Mishra & Others (CW/9618/2020)**

The matters relate to a land situated at village Gokulpura, Tehsil Jaipur. Mr. Abhishek Mishra and his family purchased the said land and applied to Board of Revenue under Section 9 of the Rajasthan Land Revenue Act, 1956 (“Act”) for deleting the Pencil Note ‘Mafi Mandir Shri Narsingh Ji’ made in the revenue record in respect of the said land and seeking recording of their name as owner of the said land. The Board of Revenue allowed the said application *vide* order dated 25.06.2019. The writ petition CW/3040/2020 has been filed by Tehsildar Jaipur and another against the said order dated 25.06.2019.

Further, Mr. Abhishek Mishra and his family had also filed a contempt petition before the Board of Revenue against Mr. Ajit Singh Bundela (Tehsil Jaipur) and others for non-compliance of order dated 25.06.2019 and other related orders passed by Board of Revenue. The said contempt application was decided by the Board of Revenue *vide* order dated 24.08.2020. The writ petition CW/9618/2020 has been filed by Mr. Ajit Singh Bundela (Tehsil Jaipur) and others against the said order dated 24.08.2020.

2. Litigation involving Criminal Laws

4. Litigation involving Tax Liabilities

i. Outstanding Direct Tax Proceedings:

- (a). Demand due to TDS Mismatch: Our Directors as well as Our Promoters have claimed the tax deducted (TDS) by the employer (Spanco Ltd.) from their salaries in the Income Tax Returns for the years as specified in the table hereinbelow. However, such TDS was not deposited by Spanco Ltd. and the claim of TDS by the Director/Promoter is denied by the department due to mismatch of TDS between ITR and Form 26AS. Accordingly, the department has raised demand of differential tax on our Director/Promoter.

The details of demand due to non-deposition of TDS by Spanco Ltd. in relation to Our Director/Promoter are as below:

S. No.	Director/Promoter	Assessment Year	Amount (Rs.)
1.	Mr. Ashish Aggarwal	2013-14	Rs. 5,46,830/-
2.	Mr. Ashish Aggarwal	2014-15	Rs. 1,63,540/-
3.	Mr. Deepak Chand Thakur	2013-14	Rs. 1,63,640/-
4.	Mr. Deepak Chand Thakur	2014-15	Rs. 66,071/-
5.	Mr. Rajiv Kumar Aggarwal	2013-14	Rs. 18,64,550/-

As per our Director and/or Our Promoter, respectively, the said demand is not sustainable as there are judicial rulings wherein the employee is not liable if the employer has deducted tax (TDS) and has not deposited to the Government.

- (b). Interest on Deferment of Advance Tax in case of Mr. Rajiv Kumar Aggarwal: As per Intimation u/s 143(1) of Income Tax Act, 1961 for AY 2018-19 having reference no. CPC/1819/A3/1874803920 dated 24.12.2018, interest of Rs. 41,100/- (Rupees Forty-One Thousand and One Hundred Only) is payable by our director due to deferment of advance tax payable. As per the response filed by our director, advance tax provision u/s 207 of the Income Tax Act, 1961 was not applicable in the respective year as there was no business income and the Director was a senior citizen during the respective year. In this regard, no further communication has been received from the Income Tax Department, thus, this is still considered as pending.
- (c). Income Mismatch in Form 26AS and ITR in case of Mr. Abhishek Mishra: As per the Response to Outstanding Demand Tab on Income tax portal demand of Rs. 1,73,490/- (One Lakh Seventy-Three Thousand Four Hundred and Ninety Only) was outstanding for AY 2017-18. As per the response submitted by our Director on the Income Tax Portal, income of Rs. 5,47,000/- (Rupees Five Lakh Forty-Seven Thousand Only) was already offered for tax in AY 2015-16 as income from other sources on due basis. However, TDS by the payer was deducted and reported in Form 26AS at the time of payment in AY 2017-18. Thus, the department has raised demand due to income mismatch in 26AS and ITR, however, the said mismatched amount was already offered for tax in AY 2015-16. Therefore, the demand is not maintainable. In this regard, no further communication has been received from the Income Tax Department, thus, this is still considered as pending.
- (d). Pending Appeals in case of Mr. Abhishek Mishra: As per the Response to Outstanding Demand Tab on Income tax portal demands were outstanding for AY 2011-12 and 2012-13. In this regard, assessments of our director were completed u/s 143(3) r.w.s 147 of the Income Tax Act, 1961 wherein additions on account of alleged unaccounted loans were made and consequently demands were raised. Our director has filed appeals against the respective assessment orders before the Commissioner (Appeals) which are still pending.

The details of appeals are as below:

S. No.	AY	Date of Appeal	Issue	Demand	Status
1	2011-12	17.12.2018	Tax on Unaccounted Loans	Rs. 99,06,690/-	Pending
2	2012-13	18.12.2019		Rs. 3,09,93,650/-	Pending

- Such other rights, as may be available to a shareholder of a listed public limited company under the Companies Act, 2013, the terms of the SEBI Listing Regulations and the Memorandum and Articles of Association of our Company.

For a detailed description of the main provisions of the Articles of Association relating to voting rights, dividend, forfeiture and lien and/ or consolidation/ splitting/transmission, please refer to the section titled “**Main Provisions of Articles of Association**” beginning on page number 460 of this Red Herring Prospectus.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

Pursuant to Section 29 of the Companies Act, 2013 the Equity Shares shall be allotted only in dematerialized form. As per the SEBI (ICDR) Regulations, 2018 the trading of the Equity Shares shall only be done in dematerialized form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- Tripartite Agreement dated November 10, 2020 amongst NSDL, our Company and the Registrar to the Issue; and
- Tripartite Agreement dated November 06, 2020 amongst CDSL, our Company and the Registrar to the Issue.

Since trading of the Equity Shares is in dematerialized form, the tradable lot is [●] Equity Shares. Allotment in this Issue will be only in electronic form in multiples of [●] Equity Share subject to a minimum Allotment of [●] Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 268 of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of Issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts/ authorities in Mumbai, Maharashtra, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made

by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDERS

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO INVESTORS

In accordance with Section 72 of the Companies Act, 2013 the sole applicant, or the first applicant along with other joint applicants, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicants, death of all the Applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale / transfer / alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or with the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- a) To register himself or herself as the holder of the Equity Shares; or
- b) To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company, in consultation with the BRLM's, reserves the right to not proceed with the Issue after the Bid / Issue Opening Date but before the allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Bid / Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The BRLM's through, the Registrar to the Issue, shall notify the SCSBs and the Sponsor Bank to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is registered with the RoC. If our Company withdraws the Issue after the Bid / Issue Closing Date and thereafter determines that it will proceed with an Issue / Offer for sale of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with Stock Exchange.

For the avoidance of doubt, it is clarified that Bids not uploaded on the electronic bidding system or in respect of which full Bid Amount is not blocked by SCSBs and the Sponsor Bank will be rejected. The Registrar to the Issue shall submit the details of cancelled/withdrawn/deleted applications to the SCSB's on daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSB's shall unblock such applications by the closing hours of the Working Day.

Due to limitation of time available for uploading the Bids on the Bid/ Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/ Issue Closing Date and, in any case, no later than 1.00 p.m. (IST) on the Bid/ Issue Closing Date.

Bidders are cautioned that, in the event a large number of Bids are received on the Bid / Issue Closing Date, as is typically experienced in public offerings in India, it may lead to some Bids not being uploaded due to lack of sufficient time to upload. Such Bids that cannot be uploaded on the electronic bidding system will not be considered for allocation under this Issue. Bids will only be accepted on Working Days. Investors may please note that as per letter no. NSE/IPO/25101-6 dated July 6, 2006 issued by NSE, Bids and any revision in Bids shall not be accepted on Saturdays and public

holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the SCSBs in the electronic system to be provided by the Stock Exchanges. Neither our Company, nor any member of the Syndicate is liable for any failure in uploading or downloading the Bids due to faults in any software / hardware system or otherwise

Our Company in consultation with the BRLM's, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the Face Value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e., the floor price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of any revision to the Price Band, the Bid / Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid / Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a public notice, and also by indicating the change on the respective websites of the BRLM's and at the terminals of the Syndicate Members.

In case of force majeure, banking strike or similar circumstances, the issuer may, for reasons to be recorded in writing, extend the bidding (Issue) period disclosed in the Red Herring Prospectus, for a minimum period of three working days, subject to the Bid / Issue Period not exceeding 10 working days.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form, for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. Moreover, given the prevailing uncertainty due to the COVID- 19 pandemic, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, has decided to continue with the UPI Phase II till further notice. The final reduced timeline will be made effective using the UPI Mechanism for applications by RIBs (“UPI Phase III”), as may be prescribed by SEBI. The Issue will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular shall come into force for initial public offers opening on or after May 1, 2021 and the provisions of this circular are deemed to form part of this Red Herring Prospectus. Additionally, SEBI vide its circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 has reduced the time period for refund of application monies from 15 days to four (4) days.

Merchant Banker shall be the nodal entity for any issues arising out of public issuance process.

In terms of regulation 23(2), 23(4), 23(5) and regulation 271 of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, in SEBI Circular. No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019, read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021, the timelines, processes and compensation policy shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and book running lead managers shall continue to coordinate with intermediaries involved in the said process.

Our Company and the Book Running Lead Managers do not accept any responsibility for the completeness and accuracy of the information stated in this Section and is not liable for any amendment, modification or change in the applicable law which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in this Red Herring Prospectus.

Further, Our Company and the Book Running Lead Managers are not liable for any adverse occurrence's consequent to the implementation of the UPI Mechanism for Bid in this Issue.

PHASED IMPLEMENTATION OF UPI FOR BIDS BY RETAIL INDIVIDUAL BIDDERS AS PER THE UPI CIRCULAR

SEBI has issued a circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 (collectively the “UPI Circular”) in relation to streamlining the process of public issue of equity shares. Pursuant to the UPI Circular, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for Bids by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- **Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Bidder had the option to submit the Bid cum Application Form with any of the intermediaries and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six Working Days.
- **Phase II:** This phase has become applicable from July 1, 2019 and will continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for continuation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.
- **Phase III:** The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing would be reduced to three Working Days.

All SCSBs offering facility of making Bid in public issues shall also provide facility to make Bid using the UPI Mechanism. The issuers are to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Bidders into the UPI Mechanism.

For further details, refer to the General Information Document to be available on the website of the Stock Exchange and the BRLM's.

BID CUM APPLICATION FORM

Retail Individual Bidders can submit their Bids by submitting Bid cum Application Forms, in physical form or in electronic mode, to the SCSBs, the Registered Brokers, Registrars to an Issue and Share Transfer Agents and Depository Participants.

Copies of the Bid cum Application Form and the abridged prospectus will be available at the offices of the BRLM's, the Designated Intermediaries at Bidding Centres, and Registered Office of our Company. An electronic copy of the Bid cum Application Form will also be available for download on the websites of the National Stock Exchange of India Limited (www.nseindia.com), the SCSBs, the Registered Brokers, the RTAs and the CDPs at least one day prior to the Bid/Issue Opening Date.

All Bidders (other than Anchor Investors) shall mandatorily participate in the Issue only through the ASBA process. ASBA Bidders must provide either (i) the bank account details or authorization to block funds in the ASBA Form, or (ii) the UPI ID, as applicable, in the relevant space provided in the ASBA Form. The ASBA Forms that do not contain such details are liable to be rejected. Applications made by the RIIs using third party bank account or using third party linked bank account UPI ID are liable for rejection. ASBA Bidders shall ensure that the Bids are made on ASBA Forms bearing the stamp of the relevant Designated Intermediary, submitted at the relevant Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp are liable to be rejected. Since the Issue is made under Phase II of the UPI Circulars, ASBA Bidders may submit the ASBA Form in the manner below:

- a) RIIs (other than the RIIs using UPI Mechanism) may submit their ASBA Forms with SCSBs (physically or online, as applicable), or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- b) RIIs using the UPI Mechanism, may submit their ASBA Forms with the Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- c) QIBs and NIBs may submit their ASBA Forms with SCSBs, Registered Brokers, RTAs or CDPs.

ASBA Bidders are also required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Bid Amount which can be blocked by the SCSB

Anchor Investors, if applicable are not permitted to participate in the Issue through the ASBA process.

The prescribed colour of the Bid cum Application Form for various categories is as follows:

Category	Colour of Bid cum Application Form*
Resident Indians, including resident QIBs, Non-Institutional Investors, Retail Individual Investors and Eligible NRIs applying on a non-repatriation basis [^]	White
Non-resident including Eligible NRIs, FVCIs, FPIs, FIIs, applying on a repatriation basis	Blue

*Excluding electronic Bid cum Application Form.

[^] Electronic Bid cum Application Form will be made available for download on the website of the NSE (www.nseindia.com)

Designated Intermediaries (other than SCSBs) after accepting Bid cum application form submitted by NIIs and QIBs shall capture and upload the relevant details in the electronic bidding system of stock exchange(s) and shall submit/deliver the Bid cum Application Forms to respective SCSBs where the Bidder has a bank account and shall not submit it to any non-SCSB Bank.

Further, for Bids submitted to Designated Intermediaries (other than SCSBs), with use of UPI for payment, after accepting the Bid cum application form, respective intermediary shall capture and upload the relevant bid details, including UPI ID, in the electronic bidding system of Stock Exchange.

Further, Intermediaries shall retain physical bid cum application forms submitted by retail individual investors with UPI as a payment mechanism, for a period of six months and thereafter forward the same to the issuer/ Registrar to the Issue. However, in case of electronic forms, “printouts” of such Bids need not be retained or sent to the issuer. Intermediaries shall, at all times, maintain the electronic records relating to such forms for a minimum period of three years.

Bidders shall only use the specified Bid cum Application Form for the purpose of making the Bid in terms of the Red Herring Prospectus. The Bid cum Application Form shall contain information about the Bidder and the price and the number of Equity Shares that the Bidders wish to apply for. Bid cum Application Forms downloaded and printed from the websites of the Stock Exchange shall bear a system generated unique Bid number. Bidders are required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Bid Amount can be blocked by the SCSB or Sponsor Bank at the time of submitting the Bid.

Bidders are required to submit their Bids only through any of the following Bid Collecting Intermediaries:

- i)* an SCSB, with whom the bank account to be blocked, is maintained
- ii)* a syndicate member (or sub-syndicate member)
- iii)* a stock broker registered with a recognized stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) (“broker”)
- iv)* a depository participant (“DP”) (whose name is mentioned on the website of the stock exchange as eligible for this activity)
- v)* a registrar to an Issue and shares transfer agent (“RTA”) (whose name is mentioned on the website of the stock exchange as eligible for this activity)

Retail Individual investors submitting Bid with any of the entities at (ii) to (v) above (hereinafter referred as ‘Intermediaries’), shall also enter their UPI ID in the Bid-Cum-Application Form. It is clarified that Retail Individual Bidders may continue to submit physical ASBA forms with SCSBs without using the UPI mechanism.

The aforesaid intermediaries shall, at the time of receipt of Bid, give an acknowledgement to investor, by giving the counter foil or specifying the Bid number to the investor, as a proof of having accepted the Bid cum Application form, in physical or electronic mode, respectively.

The upload of the details in the electronic bidding system of stock exchange will be done by:

For Bids submitted by investors to SCSB:	After accepting the form, SCSB shall capture and upload the relevant details in the electronic bidding system as specified by the stock exchange(s) and may begin blocking funds available in the bank account specified in the form, to the extent of the Bid money specified.
For Bids submitted by investors other than Retail Individual Investors to intermediaries other than SCSBs	After accepting the bid cum application form, respective intermediary shall capture and upload the relevant details in the electronic bidding system of stock exchange. Post uploading, they shall forward a schedule as per prescribed format along with the bid cum application forms to designated branches of the respective SCSBs for blocking of funds within one day of closure of Issue.
For Bids submitted by investors to intermediaries other than SCSBs with use of UPI for payment.	<p>After accepting the bid cum application form, respective intermediary shall capture and upload the relevant bid details, including UPI ID, in the electronic bidding system of stock exchange(s).</p> <p>Stock Exchange shall share bid details including the UPI ID with Sponsor Bank on a continuous basis, to enable Sponsor Bank to initiate mandate request on investors for blocking of funds.</p> <p>Sponsor Bank shall initiate request for blocking of funds through NPCI to investor. Investor to accept mandate request for blocking of funds, on his / her mobile application, associated with UPI ID linked bank account.</p>

Stock exchange(s) shall validate the electronic bid details with depository's records for DP ID/Client ID and PAN, on a real time basis and bring the inconsistencies to the notice of intermediaries concerned, for rectification and re-submission within the time specified by stock exchange.

Stock exchange(s) shall allow modification of selected fields viz. DP ID/Client ID or Pan ID (Either DP ID/Client ID or Pan ID can be modified but not BOTH), Bank code and Location code, in the bid details already uploaded.

Upon completion and submission of the Bid Cum Application Form to Bid Collecting intermediaries, the Bidders are deemed to have authorized our Company to make the necessary changes in the Red Herring Prospectus, without prior or subsequent notice of such changes to the Bidders.

Bids not to be made by:

- Minors (except under guardianship)
- Partnership firms or their nominees
- Foreign Nationals (except NRIs)
- Overseas Corporate Bodies

As per the existing RBI regulations, OCBs are not eligible to participate in this Issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case to case basis. OCBs may invest in this Issue provided it obtains a prior approval from the RBI or prior approval from Government, as the case may be. On submission of such approval along with the Bid cum Application Form, the OCB shall be eligible to be considered for share allocation.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

MAXIMUM & MINIMUM BID SIZE

(a) For Retail Individual Bidders:

The Bid must be for a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, so as to ensure that the Bid Amount payable by the Bidder does not exceed Rs. 2,00,000/-. In case of revision of Bid, the Retail Individual Bidders have to ensure that the Bid Amount does not exceed Rs.2,00,000/-.

(b) For Other Bidders (Non-Institutional Bidders and QIBs):

The Bid must be for a minimum of such number of Equity Shares such that the Bid Amount exceeds Rs. 2,00,000/- and in multiples of [●] Equity Shares thereafter. A Bid cannot be submitted for more than the Net Issue Size. However, the maximum Bid by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. A QIB and a Non-Institutional Bidder cannot withdraw or lower the size of their Bid at any stage and are required to pay the entire Bid Amount upon submission of the Bid. The identity of QIBs applying in the Net Issue shall not be made public during the Issue Period.

In case of revision in Bid, the Non-Institutional Bidders, who are individuals, have to ensure that the Bid Amount is greater than Rs. 2,00,000/- for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Bid from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the Book running Lead Managers are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

- a) Our Company in consultation with the BRLM's will decide the Price Band and the minimum Bid lot size for the Issue and the same shall be advertised in all editions of Business Standard, an English national daily newspaper, all editions of Business Standard, a Hindi national daily newspaper and Mumbai editions of Mumbai lakshadeep, the Regional Newspaper, (Marathi being the local language of Maharashtra, where our registered office is situated) each with wide circulation at least two Working Days prior to the Bid/ Issue Opening Date. The BRLM's and the SCSBs shall accept Bids from the Bidders during the Bid/ Issue Period.
- b) The Bid/ Issue Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid/ Issue Period maybe extended, if required, by an additional three Working Days, subject to the total Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/ Issue Period, if applicable, will be published in all editions of Business Standard, an English national daily newspaper, all editions of Business Standard, a Hindi national daily newspaper and Mumbai editions of Mumbai lakshadeep, the Regional Newspaper, (Marathi being the local language of Maharashtra, where our registered office is situated) each with wide circulation and also by indicating the change on the websites of the Book Running Lead Managers.
- c) During the Bid/ Issue Period, Retail Individual Bidders, should approach the BRLM's or their authorized agents to register their Bids. The BRLM's shall accept Bids from Anchor Investor, if applicable and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid/ Issue Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the BRLM's (for the Bids to be submitted in the Specified Cities) to register their Bids.

- d) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “**Bids at Different Price Levels and Revision of Bids**” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- e) The Bidder cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM’s or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM’s or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.
- f) Except in relation to the Bids received from the Anchor Investors, the BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.
- g) The BRLM shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/ Offer Period i.e., one working day prior to the Bid/ Offer Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
- h) Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in “**Escrow Mechanism - Terms of payment and payment into the Escrow Accounts**” in the section “**Issue Procedure**” beginning on page 434
- i) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange
- j) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- k) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- l) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Offer Account, or until withdrawal/failure of the Offer or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Offer shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public

Offer Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

- a) Our Company in consultation with the BRLM's, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e., the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum Bid lot size shall be decided based on the price band in which the higher price falls into.
- b) Our Company in consultation with the BRLM's will finalize the Issue Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c) The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Retail Individual Bidders may Bid at the Cut-off Price. However, bidding at the Cut-off Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non- Institutional Bidders shall be rejected.
- d) Retail Individual Bidders, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. In case of Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the Bidders shall instruct the SCSBs to block an amount based on the Cap Price.
- e) In case of Bids submitted using UPI ID for payment the same shall be revised by using UPI ID only.
- f) The price of the specified securities offered to an anchor investor, if applicable shall not be lower than the price offered to other applicants.

OPTION TO SUBSCRIBE IN THE ISSUE

- As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.
- The Equity Shares, on allotment, shall be traded on the Stock Exchange in demat segment only.
- A single Bid from any investor shall not exceed the investment limit / minimum number of Equity Shares that can be held by him/her/it under the relevant regulations / statutory guidelines and applicable law.

Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

Process for RII Bid submitted with intermediary with UPI as mode of payment –

In addition to existing channels of making Bid, with effect from January 01, 2019, a RII would also have the option to submit bid-cum-application form with any of the intermediary and use his/ her bank account linked UPI ID for the purpose of blocking of funds. The detailed process in this regard is as detailed hereunder:

Bidding and validation process –

- a) Submission of the Bid with the intermediary, the RII would be required to have/ create a UPI ID, with a maximum length of 45 characters including the handle (Example: InvestorID@bankname).
- b) RII will fill in the bid details in the bid cum application form along with his/ her bank account linked UPI ID and submit the Bid with any of the intermediary.
- c) The intermediary upon receipt of form will upload the bid details along with UPI ID in the stock exchange bidding platform.
- d) Once the bid has been entered in the bidding platform, the exchange will undertake validation of the PAN and Demat Account details of RII with the depository.
- e) Depository will validate the aforesaid bid details on a real time basis and send response to stock exchange which would be shared by stock exchange with intermediary through its platform, for corrections, if any.
- f) SMS from exchange to RII for bidding: Once the bid details are uploaded on the stock exchange platform, the stock exchange shall send an SMS to the RII regarding submission of his/ her Bid, daily at the end of day basis, during bidding period. For the last day of bidding, the SMS may be sent out the next working day.

BIDS BY HUFs

Bids by Hindu Undivided Families or HUFs, should be in the individual name of the Karta. The Bidder should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form as follows: “Name of sole or first Bidder: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bid by HUFs will be considered at par with Bid by individuals.

BIDS BY MUTUAL FUNDS

No Mutual Fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in index funds or sector or industry specific funds. No Mutual Fund under all its schemes should own more than 10% of any company’s paid-up share capital carrying voting rights.

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason thereof.

In case of a mutual fund, a separate Bid can be made in respect of each scheme of the mutual fund registered with SEBI and such Bids in respect of more than one scheme of the mutual fund will not

be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which the Bids has been made.

The Bid made by the asset management companies or custodians of Mutual Funds shall specifically state the names of the concerned schemes for which the Bid cum Applications are made.

BIDS BY ELIGIBLE NRIs

Eligible NRIs may obtain copies of Bid cum Application Form from the BRLMs, Syndicate Member and sub-syndicate members at select locations as specified in the Bid cum Application Form. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms should authorize their SCSB or should confirm/accept the UPI Mandate Request (in case of RIBs using the UPI Mechanism) to block their Non-Resident External (“NRE”) accounts or Foreign Currency Non-Resident (“FCNR”) Accounts, and eligible NRI Bidders bidding on a non-repatriation basis by using Resident Forms should authorize their SCSB or should confirm/accept the UPI Mandate Request (in case of RIBs Bidding using the UPI Mechanism) to block their Non-Resident Ordinary accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form. However, NRIs applying in the Offer through the UPI Mechanism are advised to enquire with the relevant bank where their account is UPI linked prior to submitting their Bid cum Application.

Bids by Eligible NRIs and Category III FPIs for a Bid Amount of less than Rs. 200,000/- would be considered under the Retail Category for the purposes of allocation and Bids for a Bid Amount exceeding Rs. 200,000/- would be considered under the Non-Institutional Category for allocation in the Issue.

In case of Eligible NRIs bidding under the Retail Category through the UPI mechanism, depending on the nature of the investment whether repatriable or non-repatriable, the Eligible NRI may mention the appropriate UPI ID in respect of the NRE account or the NRO account, in the Bid cum Application Form.

Eligible NRIs bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (white in colour).

Eligible NRIs bidding on a repatriation basis are advised to use the Bid cum Application Form meant for non-Residents (blue in colour).

For details of restrictions on investment by NRIs, please refer to the chapter titled **“Restrictions on Foreign Ownership of Indian Securities”** beginning on page 457 of this Red Herring Prospectus.

BIDS BY FPIs INCLUDING FIIs

On January 7, 2014, SEBI notified the SEBI FPI Regulations pursuant to which the existing classes of portfolio investors namely ‘foreign institutional investors’ and ‘qualified foreign investors’ are subsumed under a new category namely ‘foreign portfolio investors’ or ‘FPIs’. RBI on March 13, 2014 amended the FEMA Regulations and laid down conditions and requirements with respect to investment by FPIs in Indian companies.

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10% of our post-issue Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10% of the total paid-up Equity Share capital of our Company

and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectoral cap by way of a resolution passed by the Board followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI.

Further, pursuant to the Master Directions on Foreign Investment in India issued by the RBI dated January 4, 2018 (updated as on March 8, 2019) the investments made by a SEBI registered FPI in a listed Indian company will be reclassified as FDI if the total shareholding of such FPI increases to more than 10% of the total paid-up equity share capital on a fully diluted basis or 10% or more of the paid-up value of each series of debentures or preference shares or warrants.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio investor and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it that are listed or proposed to be listed on any recognised stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with 'know your client' norms. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority

An FPI is also required to ensure that any transfer of offshore derivative instrument is made by, or on behalf of it subject to the following conditions:

- a) Offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and
- b) Prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

BIDS BY SEBI REGISTERED VCFs, AIFs and FVCIs

The SEBI FVCI Regulations and the SEBI AIF Regulations inter-alia prescribe the investment restrictions on the VCFs, FVCIs and AIFs registered with SEBI. Further, the SEBI AIF Regulations prescribe, among others, the investment restrictions on AIFs.

The holding by any individual VCF registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF

Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the BRLM's will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

There is no reservation for Eligible NRIs, AIFs, FPIs and FVCIs. All Bidders will be treated on the same basis with other categories for the purpose of allocation.

All non-resident investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company reserves the right to reject any bid without assigning any reason thereof. Limited liability partnerships can participate in the Issue only through the ASBA process.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by the RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application form, failing which our company reserve the right to reject any bid by a banking company without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended ("**Banking Regulation Act**"), and the Reserve Bank of India ("**Financial Services provided by Banks**") Directions, 2016, is 10% of the paid – up share capital of the investee company not being its subsidiary engaged in non-financial services or 10% of the banks own paid-up share capital and reserves, whichever is lower. However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of the investee company if (i) the investee company engaged in non-financial activities permitted for banks in terms of Section 6(1) of the banking regulation Act or (ii) the additional acquisition is through restructuring of debt/ corporate debt restructuring/ strategic debt restructuring or to protect the banks interest on loans/ investments made to a company. The bank is required to submit a time bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in subsidiary and a financial services company that is not a subsidiary (with certain exception prescribed) and (ii) investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in 5(a)(v)(c)(i) of Reserve Bank of India (Financial Services provided by Banks) Direction, 2016.

BIDS BY SCSBs

SCSBs participating in the Issue are required to comply with the terms of the SEBI circulars nos. CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013 dated September 13, 2012 and January 2, 2013

respectively. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

Failing this, our Company reserve the right to reject any Bid, without assigning any reason thereof. Systemically Important Non-Banking Financial Companies participating in the Issue shall comply with all applicable legislations, regulations, directions, guidelines and circulars issued by RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDA must be attached to the Bid cum Application Form. Failing this, our Company reserves the right to reject any Bid by Insurance companies without assigning any reasons thereof. The exposure norms for insurers, prescribed under the Insurance Regulatory and Development Authority (Investment) Regulations, 2016 ('IRDA Investment Regulations'), are broadly set forth below:

- (a) *Equity shares of a company*: The least of 10% of the investee company's subscribed capital (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- (b) *The entire group of the investee company*: not more than 15% of the respective funds in case of life insurer or 15% of investment assets in case of general insurer or re-insurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- (c) *The industry sector in which the investee company operates*: not more than 15% of the fund of a life insurer or a general insurer or a re-insurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in case of investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or a general insurer and the amount calculated under points (a), (b) and (c) above, as the case may be. Insurance companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

Illustration of the Book Building and Price Discovery Process

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs. 20/- to Rs. 24/- per share, Issue size of 3,000 Equity Shares and receipt of five Bid from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Applied Quantity	Bid Amount (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The Price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer in consultation with the BRLM's, may finalize the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, the FDI Policy, FEMA and rules and regulations made thereunder. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are RBI and the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“DPIIT”).

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued consolidated FDI Policy, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government has also enacted Foreign Exchange Management (Non-debt Instruments) Rules, 2019 and Foreign Exchange Management (Debt Instruments) Rules, 2019 in supersession of Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 and the Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018.

Investment by Foreign Portfolio Investors (FPIs)

FPIs are permitted to subscribe to Equity Shares of an Indian Company in a public issue without the prior approval of the RBI, so long as the price of the Equity Shares to be issued is not less than the price at which the Equity Shares are issued to residents. SEBI registered FPIs have been permitted to purchase shares of an Indian company through Issue, subject to total FPI investment being within the individual FPI investment limit of below 10% of the total paid-up equity capital of the Indian Company on a fully diluted basis and subject to the aggregate limit of all FPIs put together being 24% of the total paid-up equity capital of the Indian company on a fully diluted basis. However, this aggregate limit of 24% may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body, respectively before March 31, 2020.

With effect from April 01, 2020, the aggregate limit shall be the sectoral caps applicable to the Indian company as laid out in sub-paragraph (b) of paragraph 3 of Schedule I of the FDI Policy, 2020, with respect to its paid-up equity capital on a fully diluted basis or such same sectoral cap percentage of paid-up value of each series of debentures or preference shares or share warrants. The aggregate limit as provided above may be decreased by the Indian company concerned to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively before March 31, 2020. The Indian company which has decreased its aggregate limit to 24% or 49% or 74%, may increase such aggregate limit to 49% or 74% or the sectoral cap or statutory ceiling respectively as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively; however, once the aggregate limit has been increased to a higher threshold, the Indian company cannot reduce the same to a lower threshold.

Subscription by Non-Resident Indians (NRI) or Overseas Citizen of India (OCI) on Repatriation Basis

As per Schedule 3 of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, an NRI or OCI may purchase or sell shares of a listed Indian company on repatriation basis, on a recognised stock exchange in India, subject to the conditions that NRIs or OCIs may purchase and sell shares through a branch designated by an authorised dealer for the purpose; and the total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants. The aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the company.

Investment by NRI or OCI on Non-Repatriation Basis

As per Schedule 4 of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, purchase by an NRI/OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/OCIs, on non-repatriation basis of shares and convertible debentures or warrants issued by a company without any limit either on the stock exchange or outside, it will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions. However, NRI/ OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/OCIs, is prohibited from making any investment, under Schedule 4, in capital instruments or units of a Nidhi company or a company engaged in agricultural/ plantation activities or real estate business or construction of farm houses or dealing in transfer of development rights.

Investment by other Non-Residents

As per Schedule 1 of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a person resident outside India may purchase of capital instruments of a listed Indian company on a stock exchange in India provided the person resident outside India making the investment has already acquired control of such company in accordance with SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 and continues to hold such control and the amount of consideration may be paid as per the mode of payment prescribed in Schedule 1 or out of the dividend payable by Indian investee company in which the person resident outside India has acquired and continues to hold the control in accordance with SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 provided the right to receive dividend is established and the dividend amount has been credited to a specially designated non-interest bearing rupee account for acquisition of shares on the recognised stock exchange.

Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company.

No person shall make an application in the Issue, unless such person is eligible to acquire Equity Shares of our Company in accordance with applicable laws, rules, regulations, guidelines and approvals.

The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the Book Runner Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

Investment by Non-Resident Entities in India Under FDI Policy 2020:

The FDI Policy 2020 provides that a non-resident entity can invest in India, subject to the FDI Policy except in those sectors/activities which are prohibited. However, an entity of a country, which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, can invest only under the Government route. Further, a citizen of Pakistan or an entity incorporated in Pakistan can invest, only under the Government route, in sectors/activities other than defence, space, atomic energy and sectors/activities prohibited for foreign investment. In the event of the transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the restriction/purview as mentioned herein, such subsequent change in beneficial ownership will also require Government approval. The same is in line with the Press Note No. 3(2020 Series) dated April 17, 2020 as issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India in order to curb opportunistic takeover/acquisition of Indian Companies due to current COVID-19 pandemic conditions.
